Vol. XIII, 1958

BLOOD
The Journal of Hematology

CONTENTS

No. 1

Absorption of Iron as a Problem in Human Physiology. A Critical Review
Hugh W. Josephs 1

Studies on Erythropoiesis. Part V. The Effect of Cobalt on the Production of Erythropoietin
Eugene Goldwasser, Leon O. Jacobson, Walter Fried and Louis F. Plazak 55

The Diagnosis of Thalassemia Trait by Starch Block Electrophoresis of the Hemoglobin
Park S. Gerald and Louis K. Diamond 61

Tissue Mast Cell Leukemia
Ben I. Friedman, John J. Will, David G. Freiman and Herbert Braunstein 70

Studies on the Etiology and the Elevated Serum Isomerase in Chronic Myelocytic Leukemia
L. G. Israels, G. E. Delory, L. Hnatiuk and E. Friesen 79

Editorial—Blood Journals, Old and New
William Dameshek 85

News and Views 88

Book Reviews 95

Books Received 95

Abstracts 96

No. 2

Hematologic Responses in Pernicious Anemia to Orotic Acid
R. Wayne Rundles and Spencer S. Brewer, Jr. 99

The Hemoglobin D Syndromes
Amoz I. Chernoff 116

The Measure of Erythropoiesis in Anemias. I. The Mixing Time and the Immediate Post-transfusion Disappearance of T-1824 Dye and of Cr-51-tagged Erythrocytes in Relation to Blood Volume Determination
Max M. Strumia, Louise S. Colwell and Ann Dugan 128

The Effects of Acute Protein Depletion on the Distribution of Radioiron in Rat Tissues
W. F. Bethard, R. W. Wissler, J. S. Thompson, M. A. Schroeder and M. J. Robson 146

Hematopoietic and Nitrogen-sparing Effect of Preparations from Hog Gastric Mucosa with High Content of Blood Group Substances
Angelo Cresseri, Aurelio Cantone, Franco Piccinini and Vittorio Capraro 156
CONTENTS

The Pathogenesis of Transferred Chloroleukemia in the Albino Rat

Charles Harris, William T. Burke, Margot Gruenstein and Harry Shay 162

Platelet Adsorptive Properties and Platelet Extracts in Thromboplastin Generation.............Seymour Perry and Charles G. Craddock, Jr. 177

Editorial–The Di Guglielmo Syndrome.....................William Dameshek and Mario Baldini 192

News and Views.......................................................... 195

Books Received ......................................................... 195

Abstracts ........................................................................ 196

No. 3

The Erythrocyte-Coating Substance in Autoimmune Hemolytic Disease:
Its Nature and Significance........Hugh Fudenberg, Isabel Barry and William Dameshek 201

The Effect of Acute Protein Deprivation upon Erythropoiesis in Rats

W. F. Bethard, R. W. Wissler, J. S. Thompson, M. A. Schroeder and M. J. Robson 216

Erythrocyte Osmotic Fragility of Rats Receiving the Thermostable Plasma

Erythropoietic Factor........James W. Linman and Martha J. Long 226

Effect of Indole Compounds on Vitamin B₁₂ Utilization........Jerry Dexler 239

Plasma Lactic Dehydrogenase and Phosphohexose Isomerase in Leu-
kemia.............M. C. Blanchaer, P. T. Green, J. P. Maclean and M. J. Hollenberg 245

Selenoid (Crescent) Bodies.................................................Manuel Cuadra 258

Special Section–Transplantation of Bone Marrow........................................ 266

News and Views.......................................................... 302

Abstracts ........................................................................ 307

No. 4

The Nature and Significance of Megaloblastic Blood Formation

Edward H. Reisner, Jr. 313

Absorption of Cobalt⁶⁰⁻Labeled Vitamin B₁₂ After Subtotal Gastrectomy

Fritz Loewenstein 339

Studies of Glutathione Stability in Erythrocytes of Cases with Past

History of Favism or Sulfaphenazole-Induced Hemolysis........A. Szeinberg, Y. Asher and Chaim Sheba 348

Sickle Cell–Thalassemia Disease in Jamaica..............J. E. Maclver, L. N. Went and E. K. Cruickshank 359

The Efficiency of Oxidative Phosphorylation by Normal and Leukemic

Human Leukocytes.............Virginia E. Davis, William L. Wilson and Charles L. Spurr 367

Critique of the Concept of the “Pre-L.E.” Cell....Frances Pascher and Alexander Borota 376

A Circulating Inhibitor (Anti-AcG) Specific for the Labile Factor-V of

the Blood-Clotting Mechanism.................John H. Ferguson, Charles L. Johnston, Jr. and Doris A. Howell 382

CONTENTS

Role of the Spleen and Effect of Splenectomy in Sickle Cell Disease
C. C. Sprague and J. C. S. Paterson 569

Quantitative Assay of Intrinsic Factor Activity by Urinary Excretion of
Radioactive Vitamin B\textsubscript{12}.........................Leon Ellenbogen
and William L. Williams 582

Calcium-Lipid Complexes in Human Platelets
Donald F. Hoelzl Wallach, Douglas M. Surgenor
and Barbara B. Steele 589

News and Views .......................................................... 599

VII Congress, International Society of Hematology .................. 601

Abstracts ................................................................. 604

No. 7

Leukemic Reticuloendotheliosis..............................Bertha A. Bouroncle,
Bruce K. Wiseman and Charles A. Doan 609

Spleenic Mastocytosis.................................Norman Ende and Edward I. Cherniss 631

Myeloproliferative Syndrome with Leukemia Preceding Polycythemia
Vera: A Case Report...............................Paul Calabresi 642

Further Research on the Activity of Ribonucleases in the Blood and Urine
of Patients Suffering from Proliferative Hemocytopathia
J. Aleksandrowicz, J. Urbanczyk, Aleksandra Ostrowska and J. Sierko 652

Effect of Chemical Protection and Bone Marrow Treatment on Radiation
Injury in Mice..............................Paul Urso, C. C. Congdon,
D. G. Doherty and Raymond Shapira 665

A Rapid Method for Estimation of the Total Leukocyte Count
Naomi R. Ben/anzin 677

Paroxysmal Nocturnal Hemoglobinuria: The Role of Properdin in the
Diagnostic Thrombin Test..............................William H. Crosby
and Naomi R. Ben/anzin 684

Editorial—On the Specificity and Reactivity of Coombs’ Antiglobulin
Sera................................................Sol Haberman 688

News and Views—7th Congress, International Society of Hematology . . . 694

Abstracts ................................................................. 702

No. 8

Clinical Evaluation of 6-Chloropurine in Leukemia of Adults
Rose Ruth Ellison, David A. Karnovsky and Joseph H. Burchenal 705

The Ultrastructure of a “Fibrillar Formation” of Leukemic Human Blood
James A. Freeman and Monroe S. Samuels 725

The Effects of Components of Guinea Pig Serum on Lymphosarcoma
6C3HED in C3H Mice..............................Peter A. Herbut, William H. Kraemer
and Louis Pillamer 732

Identification of the Vitamin B\textsubscript{12}-Binding Protein in the Serum of Normals
and of Patients with Chronic Myelocytic Leukemia
Robert S. Mendelsohn, Donald M. Watkin, Ann P. Horbett
and John L. Fahey 740

No. 9

**A New Hereditary Hemoglobinopathy (the Lepore Trait) and Its Interaction with Thalassemia Trait** | Park S. Gerald and Louis K. Diamond |

**Factors Influencing the Incidence of Leukemia: Special Consideration of the Role of Ionizing Radiation** | E. E. Schwartz and A. C. Upton |

**Hematologic Findings in Human Beings Given Therapeutic Doses of Gallium-72** | W. Wolins and V. P. Bond |

**Fibrinolysis and Hemorrhage: A New Diagnostic and Therapeutic Approach** | J. C. Henson, W. Peers and H. J. Tagnon |

**Megaloblastic Anemia from Methophenobarbital** | R. J. Calvert, E. Hurworth and A. L. MacBean |

**Toxic Protein Derivatives Causing Aplastic Anemia: A Review** | Wayne Rundles |

**Editorial—“Asymptomatic” Sickle Cell Trait** | William C. Levin |

**News and Views** | 908 |

**Abstracts** | 909 |
CONTENTS

No. 10

Pathologic Anatomy of Experimental Leukemia Produced by Injection of Benzol Extracts from Organs of Leukemic Patients...M. P. Khokhlova 917
A Study of the Gastric Hematopoietic Factor by Hemoculture Methods N. A. Feodorov, A. M. Namyatisheva and M. G. Kakhetelidze 926
The Electrophoretic and Spectroscopic Characterization of Hgb M Park S. Gerald 936
Congenital Hemolytic Anemia with Abnormal Pigment Metabolism and Red Cell Inclusion Bodies: A New Clinical Syndrome Robert D. Lange and Joseph H. Akeroyd 950
Thrombocytopenia and Pulmonary Intra-Alveolar Coagulum in a Young Woman....................B. Levinson, R. S. Jones, M. M. Wintrobe and G. E. Cartwright 959
The Effects of Splenectomy on the Red Blood Cells of the Dog with Particular Emphasis on the Reticulocyte Response Mortimer Lorber 972
The Individuality of Nuclear Chromatin with Particular Reference to Polymorphonuclear Neutrophil Leukocytes...........Donald K. Briggs 986
News and Views ................................................................. 1006
Abstracts .......................................................... 1009

No. 11

Studies on Submicroscopic Structure of Leukemias of Known or Suspected Viral Origin: a Review.................Leon Dmochowski and Clifford E. Grey 1017
Selective Occurrence of Glutathione Instability in Red Blood Corpuscles of the Various Jewish Tribes...............A. Szeinberg, Ch. Sheba and A. Adam 1043
Hypochromic Anemias of the Tropics Associated with Pyridoxine and Nicotinic Acid Deficiency................Henry Foy and Athena Kondi 1054
Chediak's Anomaly of Leukocytes in Malignant Lymphoma Associated with Leukemic Manifestations: Case Report with Necropsy P. Efrati and W. Jonas 1063
Paroxysmal Nocturnal Hemoglobinuria: a Case Report with a Negative Ham Presumptive Test Associated with Serum Properdin Deficiency Richard K. Blaisdell, Robert E. Priest and Ernest Beutler 1074
Editorial—Pernicious Anemia, Megaloblastosis and the Di Guglielmo Syndrome ................William Dameshek 1085
Clinical Section—Transfusion of Platelets and Platelet Substitutes; Transplantation of Bone Marrow..................... 1089
CONTENTS

Book Review ................................................................. 1106
Abstracts ............................................................... 1107

No. 12

Acute Hemolytic Anemia in the Newborn Infant due to Naphthalene Poisoning: Report of Two Cases, with Investigations into the Mechanism of the Disease......................... Jean P. Dawson, William W. Thayer and Jane F. Desforges 1113
The Detroit Strains of Human Epithelial-like Cells from Nonleukemic Peripheral Blood........ Lawrence Berman and Cyril S. Stulberg 1149
Modification of X-radiation Lethality by Autologous Marrow Infusion in Dogs...................... Edward L. Alpen and S. J. Baum 1168
On the Presence of Hemoglobin in Erythroleukemia Cells Jack Cowles, Jouko Saikkonen and Bo Thorell 1176
A Method for the Measurement of Red Cell Dimensions and Calculation of Mean Corpuscular Volume and Surface Area Donald N. Houchin, John I. Munn and Benjamin L. Parnell 1185
A Method for Obtaining Polymorphonuclear Leukocytes from Intrapertoneal Exudates........ Frances L. Estes, Shirley Smith and Joseph H. Gast 1192
Editorial—Misuse of Blood Transfusion.............. William H. Crosby 1198
News and Views .............................................................. 1201
Book Review ................................................................. 1205
Abstracts ............................................................... 1206
