CONTENTS

GUEST EDITOR, Carl V. Moore, M.D.

PREFACE .................................................Carl V. Moore 577
TO WILLIAM DAMESHEK ON HIS SIXTIETH BIRTHDAY ....Henry M. Stratton 578
SHORT BIOGRAPHY OF WILLIAM DAMESHEK, M.D. ............... 579
DR. WILLIAM DAMESHEK: A BIOGRAPHICAL COMMENT .....William H. Crosby 580
PUBLICATIONS OF DR. WILLIAM DAMESHEK
1922–1947 .................................................. 585
1948–1959 .................................................. 589
PLATELET AND FIBRINOGEN SEQUESTRATION
Edward Adelson, Jack J. Rheingold and Olive Parker 596

THE HEMOGLOBIN E SYNDROMES. I. HEMOGLOBIN E IN ET-TURKS
Muzaffer Aksoy 606

THE HEMOGLOBIN E SYNDROMES. II. SICKLE-CELL–HEMOGLOBIN E DISEASE
Muzaffer Aksoy 610

THE MATURATION RATE OF RETICULOCYTES .Mario Baldini and Ivo Pannaccinulli 614
FREE SERUM VITAMIN B12 LEVEL IN CERTAIN HEMATOLOGIC DISORDERS
D. K. Banerjee, Sandhya Ghose, S. K. Ghosh and J. B. Chatterjea 630
A SIMPLE METHOD FOR THE ASSAY OF FACTOR VIII ..........Luis José Bergna 637
THE KINETICS OF INTRAVENOUSLY INJECTED RADIOACTIVE VITAMIN B12: STUDIES ON NORMAL SUBJECTS AND PATIENTS WITH CHRONIC MYELOCYTIC LEUKEMIA AND PERNICIOUS ANEMIA
Eugene A. Brody, Solomon Estren and Louis R. Wasserman 646
HEREDITARY SPHEROCYTOSIS: OBSERVATIONS ON HEMOLYTIC MECHANISMS AND IRON METABOLISM ...........William H. Crosby and Marcel E. Conrad 662
EVIDENCE FOR A VESSEL WALL DEFECT IN IMMUNO-THROMBOCYTOPENIC HAMSTERS ...............Rajendra G. Desai and George P. Fulton 675
THE GOOD FACTOR AS A POSSIBLE CAUSE OF HEMOLYTIC DISEASE OF THE NEWBORN ..........Abraham M. Frumin, Mary McKee Porter and Mary F. Eichman 681
CERTAIN PHYSICAL AND BIOLOGIC CHARACTERISTICS OF PENICILLIN ANTIBODY
H. H. Fudenberg and J. L. German 683

ANALYSIS OF FIBRINOLYSIS BY THE USE OF EPSILON-AMINOCAPROIC ACID: PRELIMINARY REPORT
Katsuhiro Fukutake, Keiji Shida, Toyome Arakawa and Katsuji Kato 690
PHOSPHATE PARTITION IN THE ERYTHROCYTES OF NORMAL NEWBORN INFANTS AND INFANTS WITH ERYTHROBLASTOSIS FETALIS. II. QUANTITATIVE PAPER CHROMATOGRAPHY ..........T. J. Greenwalt and V. E. Ayers 698
HEMORRHAGIC THROMBOCYTOPENIA: A CRITICAL REVIEW ....F. W. Gunz 706
MEGALOBLASTIC ANEMIA OF PREGNANCY: CHARACTERISTICS OF PURE MEGALOBLASTIC ANEMIA AND MEGALOBLASTIC ANEMIA ASSOCIATED WITH IRON DEFICIENCY ........Miguel Lajerisse, Oscar Aguero, Norma Blumenfeld, Henry Wallis, Iris Dugarte and Adelina Ojeda 724
HEPARIN THERAPY IN AUTOIMMUNE HEMOLYTIC ANEMIA
William McFarland, Robert G. Galbraith and August Miale, Jr. 741
CHRONIC LYMPHOCYTIC LEUKEMIA, HYPOGAMMAGLOBULINEMIA AND AUTOIMMUNE HEMOLYTIC ANEMIA—AN EXPERIMENT OF NATURE
Anthony V. Pisciotta, Louis F. Jermain and Jean E. Hinz 748

574
CONTENTS

STUDIES IN LEUKEMIA. XV. THE INDUCTION OF LEUKEMIA IN SWISS MICE WITH HUMAN LEUKEMIC BRAIN EXTRACTS
Steven O. Schwartz, Wilma Spurrier, Le Roy Yates and Bill P. Maduros 758

ERYTHROKINETICS IN THE MEGLOBLASTIC ANEMIA OF TROPICAL SPRUE
Thomas W. Sheehy, Milton E. Rubini, Raul Baco-Dapena and Enrique Perez-Santiago 761

INDUCTION IN RABBITS OF Activity AGAINST HUMAN BLOOD THROMBOPLASTIN
Theodore H. Spaet and Jose R. Cintron 772

SOME BIOCHEMICAL AND ELECTROPHORETIC STUDIES ON PURIFIED PROTHROMBIN, FACTOR VII (PROCONVERTIN) AND FACTOR X (STUART)
Garson H. Tishkoff, Liberto Pechet and Benjamin Alexander 778

RADIOACTIVE IRON STUDIES IN PATIENTS WITH IRON DEFICIENCY ANEMIA WITH CONCURRENT ABNORMAL HEMOLYSIS
M. C. Verloop, M. Van der Wolk and A. J. Heier 791

COMMITTEES

COMMITTEE FOR THIS SPECIAL ISSUE OF Blood

Col. William H. Crosby, MC, Chairman
Carl V. Moore, M.D., Guest Editor
Anthony V. Pisciotta, M.D.
Theodore H. Spaet, M.D.
Dr. med. (Hon.) Henry M. Stratton

SOCIAL COMMITTEE

Mario Baldini, M.D.

Grateful acknowledgment for their contributions to the publication of this special issue of Blood is made to the following:

Burroughs Wellcome & Co.
Parke, Davis & Company
Schering Corporation
The Henry M. and Lillian Stratton Foundation
