CONTENTS

No. 1

Decreased Erythrocyte survival in Hemoglobin H Disease As a Result of the Abnormal Properties of Hemoglobin H: The Benefit of Splenectomy ...............Demetrios A. Rigas and Robert D. Koler 1

Hereditary Methemoglobinemia: A New Variant Exhibiting Dominant Inheritance of Methemoglobin A ..............Philip L. Townes and George R. Lovell 18

Glucose-6-Phosphate Dehydrogenase Deficiency in Greece Leda Zannos-Mariolea and Christos Kattamis 34

Studies of a Patient with Selective Deficiency in Absorption of Vitamin B12 ...............E. Colle, L. Greenberg and William Krivit 48

Hookworm Anemia: Iron Metabolism and Erythrokinetics Miguel Layrisse, Alfredo Paz, Norma Blumenfeld and Marcel Roche 61

Phospholipid Accumulation in Histiocytes of Splenic Pulp Associated with Thrombocytopenic Purpura ..........Sidney L. Saltzstein 73

Separation of Platelets from Whole Blood by the Use of Silicone Liquids Mary C. Morgan and Jean J. Szafir 89

Brief Note: The Use of Desoxyribonuclease As an Aid to the Identification of Primitive White Blood Cells ............Edward Gardner, Jr., Claude-Starr Wright and Bettie Z. Williams 102

News and Views .......................................................... 104

Book Reviews ................................................................ 110

Abstracts ........................................................................ 114

No. 2

Red Cell Filtration and the Pathogenesis of Certain Hemolytic Anemias James H. Jandl, Richard L. Simmons and William B. Castle 133

The Mode of Inheritance of PTA Deficiency: Evidence for the Existence of Major PTA Deficiency and Minor PTA Deficiency Samuel L. Rapaport, Robert R. Proctor, Mary Jane Pack and Maurice Yettra 149
On the Possibility of Cure of Malignant Lymphoid Tumors. I. Treatment of Autochthonous Lymphoid Tumors in C57BL Mice with Massive Doses of Lymphocytolytic Agents

Henry S. Kaplan and C. Susan Nagareda

Synthesis of M Protein by Mouse Myeloma Tumor: Correlation of In Vitro and In Vivo Methods

Wayne E. Truax and Juanita P. Bray

Studies of the Irradiation Protection Effect of Fetal Liver in Mice. I. Influence of the Gestational Age of the Donor Tissue

Paul N. Tschetter, John H. Githens and M. Giovannella Moscovici

Relation Between Severity of Anemia and Erythropoietin Titer in Human Beings

Donald C. Van Dyke, Miguel Layrisse, John H. Lawrence

Joseph F. Garcia and Myron Pollycove

Leukocytic Alkaline Phosphatase in Busulfan Induced Remissions of Chronic Granulocytic Leukemia

E. Xefteris, W. J. Mitus, I. B. Mednicoff and William Dameshek

The Transfusion Behavior of Avian Erythrocytes: The Lack of Functional Transplantation Antigens in a Nucleated Cell

Robert Silber, Stephen E. Heidberg, Joseph H. Ackroyd and Donald Feldman

Hemolysis In Vitro and the Anemia of Leukemia

William H. Crosby, Calogero Vullo and Sergio Garriga

Clinical Section: Modern Methods for Quantitation of Red Blood Cell Production and Destruction: Erythrokinetics

Frederick Stohlman, Jr.

The Use of FE59 and CR55 for Estimating Red Cell Production and Destruction: An Interpretive Review

Frederick Stohlman, Jr.

News and Views

Book Reviews

Abstracts

Studies on the Fetal Hemoglobin in the Persistent High Hb-F Anomaly

R. B. Thompson, J. W. Mitchener and Titus H. J. Huisman

Pyridoxine-Responsive Anemia

Spencer O. Raab, Arthur Haut, George E. Cartwright and Maxwell M. Wintrobe

Repeated Plasmapheresis of Blood Donors As a Source of Platelets

Allan Kliman, Lawrence A. Gaydos, Leslie R. Schroeder and Emil J. Freireich

In Vivo Cultivation of Leukocytes in Diffusion Chambers: Requirement of Ascorbic Acid for Differentiation of Mononuclear Leukocytes to Fibroblasts

Nicholas L. Petrakis

Enzymatic Studies in the Different Types of Normal and Leukemic Human White Cells

J. Frei, Cl. Borel, G. Horvath, B. Cullity and A. Vannotti

The Colchicine Method in the Study of Bone Marrow Cell Proliferation

Giuseppe Cardinali, Giuliana Cardinali and Marie F. Agrifoglio

The Effect of 6-Mercaptopurine on the Incorporation of Labeled Amino Acids into Cellular Protein of Chronic Granulocytic Leukemia Leuko-

No. 6

The Effect of "Minute" and "Titrated" Amounts of Folic Acid on the Megaloblastic Anemia of Tropical Sprue..........T. W. Sheehy, M. E. Rubini, E. Perez-Santiago, R. Santini, Jr. and J. Haddock 623

Erythrokinetic Studies in Severe Bone Marrow Failure of Diverse Etiology Norman R. Gevirtz and Nathanial l. Berlin 637

Abnormal ("Ringed") Sideroblasts in Various Hematologic and Non-Hematologic Disorders........Warren D. Bowman, Jr. 662

Study of Leukopenias and Thrombocytopenias by the Direct Antiglobulin Consumption Test on Leukocytes and/or Platelets. ...Jean Daussel, Jacques Colombani and Monique Colombani 672

The Lymphocyte-Like Cell in the Marrow of Rats........Charles Harris 691

Blood Coagulation Factors in Total Body Irradiation Herbert S. Sise, Jacques Gauthier, Robert Becker and John Bolger 702

A Study of Fibrinogen Turnover in Classical Hemophilia and Congenital A fibrinogenemia.................Aaron R. Rausen, Andre Cruchaud, Campbell W. McMillan and David Gitlin 710

The Plasma Disappearance of Radioactive Vitamin B_{12} in Myeloproliferaive Diseases and Other Blood Disorders........Charles A. Hall 717
