CONTENTS

THE ANALYSIS OF BLOOD DISEASES WITH THE ELECTRON MICROPROBE
D. R. Beaman, R. H. Nishiyama and J. A. Penner 401

RED CELL LIPIDS IN AUTOIMMUNE HEMOLYTIC ANEMIA .......... V. Brabec, C. Michalec, J. Palek and M. Kout 414

IMPAIRED PENTOSE PHOSPHATE SHUNT AND DECREASED GLYCOLYTIC ACTIVITY IN LYMPHO CYTES OF CHRONIC LYMPHOCYTIC LEUKEMIA. METABOLIC PATHWAY . . . . Jerome I. Brody, Frank A. Oski and Daniel E. Singer 421

IMMUNOFLUORESCENCE STUDIES IN HUMAN LEUKEMIA ........ Henry A. Bates, Rufus O. Bankole and William R. Swaim 430

ELEVATED SERUM IRON, LOW UNBOUND TRANSFERRIN AND CANDIDIASIS IN ACUTE LEUKEMIA .... Leona Caroline, Fred Rosner and Philip J. Kozinn 441

ISOLATED DEFECT OF FOLIC ACID ABSORPTION ASSOCIATED WITH MENTAL RETARDATION AND CEREBRAL CALCIFICATION .... Philip Lanzkowsky, Marion E. Erlandson and Allan I. Bezan 452

DELAYED CLEARANCE OF CHLORAMPHENICOL FROM SERUM IN PATIENTS WITH HEMATOLOGIC TOXICITY ......................... Leif G. Suhrland and Austin S. Weisberger 466

DURABLE NORMAL ERYTHROPOIESIS IN ORGANOTYPIC CULTURES OF GUINEA PIG FOETAL LIVER .... Germino Salvatorelli, Anna Maria Cutilini and Paolo Del Grande 472

(Continued on page vi)
CONTENTS
(Continued from front cover)

REGULATION OF ERYTHROPOIESIS (XXIV). STUDIES ON THE POST-HYPOXIC "REBOUND" PHASE ... Richard K. Shadduck, Bernhard Kubaneck, Adolfo Porcellini, Luigi Ferrari, William S. Tyler, Donald Howard and Frederick Stohlman, Jr. 477

STUDIES IN IRON ABSORPTION IV. EFFECT OF HUMORAL FACTORS ON IRON ABSORPTION ........................................ S. Höglund and P. Reizenstein 488

STUDIES IN IRON ABSORPTION V. EFFECT OF GASTROINTESTINAL FACTORS ON IRON ABSORPTION ........................................ S. Höglund and P. Reizenstein 496

STUDIES IN IRON ABSORPTION VI. TRANSITORY EFFECT OF ORAL ADMINISTRATION OF IRON ON IRON ABSORPTION ........................................ S. Höglund 505

STUDIES ON PLATELET PROTEINS. IV. SOME PHYSICAL AND CHEMICAL PROPERTIES OF THROMBSTHENIN ........................................ P. Ganguly 511

ABSTRACTS: FOURTH CONFERENCE ON BLOOD PLATELETS ........................................ 521

SPECIAL DEPARTMENTS

ABSTRACTS ........................................ 546

BOOK REVIEW ........................................ 556

NEWS AND VIEWS ........................................ 558

AMERICAN SOCIETY OF HEMATOLOGY: PROGRAM ........................................ 561

DON'T READ THIS AD
(If you're not interested in RBC or WBC osmotic fragility
or Platelet Aggregation)

In just 3½ minutes, the Fragiligraph records and measures the fragility of erythrocytes.
In just 7 minutes, the Fragiligraph records and measures the fragility of leukocytes.
Additionally, an adaptor is being made available which determines platelet aggregation—
eliminates the need for a separate costly instrument for this procedure alone.
All completely automatic, all measured in minutes, all read at a glance. And all in one
instrument, the Fragiligraph.
In present use at an impressive array of clinical and research centers, the Fragiligraph
is now recognized as a valued adjunct in such broad spectrum areas as: Blood Preservation
and Survival, Pediatrics, Oncology; Radiation, Pressurization, Kidney Dialysis;
Mechanical Trauma and Toxicological Studies, among others.
For elaborated details on the above, write to us and receive all 35 of the published current
literature.

Unless you're not interested in rapid automated tests for RBC or WBC osmotic fragility. Or platelet aggrega-
tion. And haven't read this ad.
