CONTENTS

Diagnosis and Mechanism of Hemolysis in Chronic Hemolytic Anemia with Nocturnal Hemoglobinuria ...................... J. V. Dacie 1183

Acquired Hemolytic Anemia. I. The Relation of Erythrocyte Antibody Production to Activity of the Disease. II. The Significance of Thrombocytopenia and Leukopenia ... Robert S. Evans and Rose T. Duane 1196

Serologic Method of Purifying Blood Group A Substance

William C. Boyd and Rose M. Reguera 1214

Hemolytic Reactions Produced in Dogs by Transfusion of Incompatible Dog Blood and Plasma. I. Serologic and Hematologic Aspects

Lawrence E. Young, Donald M. Ervin and Charles L. Yuile 1121

II. Renal Aspects Following Whole Blood Transfusions

Charles L. Yuile, Theodore F. Van Zandt, Donald M. Ervin and Lawrence E. Young 1232

Effects of the Intramuscular Administration of BAL (2,3-dimercaptopropanol) in a Subject with the Sickle Cell Trait: Case Report

William J. Kuhns 1240

Rh Isosensitization in the American Negro

Milton S. Sacks, Joseph A. Guilleau, Jr., George T. Bradford and Elza F. Jahn 1245

The Pathogenesis of Erythroblastosis Fetalis ............... B. S. Kline 1249

Correlation between the Mean Corpuscular Volume and Reticulocytosis in Phenyldihydrazine Anemia in Swine

F. Douglas Lawrason, D. C. Elzhorlitz, C. R. Sipe and P. K. Schork 1256

Fetal and Adult Hemoglobins in the Blood of Infants Affected with Hemolytic Disease of the Newborn ........ Eric Ponder and Philip Levine 1264

The Coincidence of Mediterranean Anemia and Pernicious Anemia in a Young Sicilian ...................... William H. Crosby and Harry J. Sacks 1267

Editorial: Inheritance Patterns in Mediterranean Anemia and Sickle Cell Anemia ................................. William Dameshek 1271

Abstracts ........................................... 1273

Book Review ........................................ 1280
