INDEX ISSUE

Obituary: Carl Vernon Moore ............... William J. Harrington, Elmer B. Brown, Edward H. Reinhard, and Virgil Loeb, Jr. 771

Surface Bound Immunoglobulins as a Cell Marker in Human Lymphoproliferative Diseases ...... J. L. Preud'homme and M. Seligmann 777

Kappa-Chain Deficiency ... George M. Bernier, J. Richard Gunderman, and Frederick B. Ruymann 795

Growth of Leukemic Cells in Culture ............. M. T. Aye, J. E. Till, and E. A. McCulloch 806

Hemoglobin and Erythrocyte Catabolism in Rat Liver: The Separate Roles of Parenchymal and Sinusoidal Cells
D. Montgomery Bissell, Lydia Hammaker, and Rudi Schmid 812

Hemoglobin Biosynthesis in Murine Virus-induced Leukemic Cells
In Vitro: Structure and Amounts of Globin Chains Produced
Samuel H. Boyer, Kuang Dong Wuu, Andrea N. Noyes, Rondall Young, William Scher, Charlotte Friend, Harvey D. Preisler, and Arthur Bank 823

Glycogen Metabolism in the Normal Red Blood Cell
Shimon W. Moses, Nava Bashan, and Alisa Gutman 836

Leukofibrinolysis ..................... Jessica H. Lewis, Isabel L. F. Szeto, William L. Bayer, and Dario C. Curiel 844

Cellular Immunity to Platelets in Idiopathic Thrombocytopenic Purpura
Joseph Wybran and H. Hugh Fudenberg 856

(Continued on page xx)
CONTENTS
(Continued from front cover)

Primary and Secondary Myelofibrosis: Its Relationship to “PNH-like Defect”. Chi-yen Kuo, G. Arthur Van Voolen, and Alan N. Morrison 875

Marrow Transplantation and Iron Therapy in Mouse Hereditary Microcytic Anemia. David E. Harrison 893

Artificially Induced Thyroid Suppression in Sickle Cell Disease. Charles W. Seward, John W. Eaton, and Hugh Chaplin, Jr. 905
