CONTENTS

Enrichment of Erythrocytes of Fetal Origin From Adult–Fetal Blood Mixtures via Selective Hemolysis of Adult Blood Cells: An Aid to Antenatal Diagnosis of Hemoglobinopathies............Samuel H. Boyer, Andrea N. Noyes, and Marian L. Boyer 883

Decreased α Globin mRNA in Nucleated Red Cell Precursors in α Thalassemia .......................Clayton L. Natta, Francesco Ramirez, James A. Wolff, and Arthur Bank 899

Decreased Life Span and Membrane Damage of Carbamylated Erythrocytes In Vitro ............Thomas A. Lane and Edward R. Burka 909

A Family With Red Cell Pyrimidine 5'-Nucleotidase Deficiency Isaac Ben-Bassat, Frida Brok-Simoni, George Kende, Fanny Holtzmann, and Bracha Ramot 919

Protein-mediated Uptake of Vitamin B₁₂ by Isolated Mitochondria Richard A. Gams, Elaine M. Ryel, and Fred Ostrov 923

Complement-mediated Granulocyte Dysfunction in Paroxysmal Nocturnal Hemoglobinuria.........Philip R. Craddock, Jorg Fehr, and Harry S. Jacob 931

Platelet Function in the Chediak–Higashi Syndrome George R. Buchanan and Robert I. Handin 941

Defective Platelet Function Following the Administration of Penicillin Compounds ...............Clarence H. Brown, Ill, Major W. Bradshaw, Ethan A. Natelson, Clarence P. Alfrey, Jr., and Temple W. Williams, Jr. 949

Platelet Inhibition by Sodium Nitroprusside, a Smooth Muscle Inhibitor Andrew Saxon and Herman E. Kattlove 957

Distribution of Phospholipids, Fatty Acids, and Platelet Factor 3 Activity Among Subcellular Fractions of Human Platelets M. Johan Broekman, Robert I. Handin, Arie Derksen, and Phin Cohen 963

Antibodies to Factor VIII. V. Patterns of Immune Response to Factor VIII in Hemophilia A.......Jean-Pierre Allain and Dominique Frommel 973

Use of Prothrombin Complex Concentrates in the Treatment of a Hemophilic Patient With an Inhibitor of Factor VIII Takuo Sonoda, Alan Solomon, Stephen Krauss, Pedro Cruz, Francis S. Jones, and Jack Levin 983

(Continued on following page)
Detection of Soluble Intermediates of the Fibrinogen Fibrin Conversion Using Erythrocytes Coated With Fibrin Monomers ...... Remo Largo, Verena Heller, and P. Werner Straub 991

Immune Function at Diagnosis in Relation to Responses to Therapy in Acute Lymphocytic Leukemia of Childhood .......... David G. Jose, Henry Ekert, John Colebatch, Keith Waters, Felicity Wilson, and Denise O’Keefe 1011

Periodic Oscillation of Blood Leukocytes, Platelets, and Reticulocytes in a Patient With Chronic Myelocytic Leukemia ......... G. Chikkappa, G. Borner, H. Burlington, A. D. Chanana, E. P. Cronkite, S. Öhl, M. Pavelec, and J. S. Robertson 1023

Increase in Circulating Stem Cells Following Chemotherapy in Man Carol M. Richman, Roy S. Weiner, and Ronald A. Yankee 1031

Assessment of Erythrocytic and Granulocytic Colony Formation in an In Vivo Plasma Clot Diffusion Chamber Culture System H. N. Steinberg, E. S. Handler, and E. E. Handler 1041

SPECIAL DEPARTMENTS

Expression of Appreciation to the Reviewers .............................. 1053

Correspondence: Alkylation Agents and Myeloma Cells: Acute Leukemia in Iran .......................................................... 1056

News and Views .............................................................. 1059

Volume Indexes ............................................................ 1060
