CONTENTS

The Effect of Pretreatment of Human or Rabbit Platelets With Chymotrypsin on Their Responses to Human Fibrinogen and Aggregating Agents..................J. P. Greenberg, M. A. Packham, M. A. Guccione, E. J. Harfenist, J. L. Orr, R. L. Kinlough-Rathbone, D. W. Perry, and J. F. Mustard 753

Alloimmunization Following Prophylactic Granulocyte Transfusion Charles A. Schiffer, Joseph Aisner, Peter A. Daly, Stephen C. Schimpff, and Peter H. Wiernik 766

Antigenic Markers on Fragment DD: A Unique Plasmic Derivative of Human Crosslinked Fibrin......Andrei Z. Budzynski, Victor J. Marder, Margery E. Parker, Penny Shames, Barbara S. Brizuela, and Stephanie A. Olexa 794

Hemoglobin Synthesis in Human BFU-E and CFU-E-Derived Erythroid Colonies.........Bryan J. Clarke, David G. Nathan, Blanche P. Alter, Bernard G. Forget, Diane G. Hillman, and David Housman 805

Correlation Between Prognosis and Bone Marrow Chromosomal Patterns in Children With Acute Nonlymphocytic Leukemia: Similarities and Differences Compared to Adults ....................... William F. Benedict, Marilyn Lange, Julie Greene, Anna Derencsenyi, and Omar S. Alfi 818

Combination Chemotherapy With Intermittent 1-3-Bis(2-Chloroethyl)1-Nitrosourea (BCNU), Cyclophosphamide, and Prednisone for Multiple Myeloma .............Harvey Jay Cohen, Harold R. Silberman, William E. Larsen, Lorraine Johnson, Alfred A. Bartolucci, and John R. Durant for the Southeastern Cancer Study Group (SECSG) 824

A Novel Lymphocyte Differentiating Factor in Serum With T-Cell Neoplasms.........Bijan Safai, Robert A. Good, Jeremiah J. Twomey, Verna Lewis, and Gideon Goldstein 837

Thrombotic Thrombocytopenic Purpura and Dose of Plasma Exchange Edwin G. Taft 842

(Continued on following page)

Adhesion of Normal and Sickle Erythrocytes to Endothelial Monolayer Cultures .................. Richard Hoover, Robert Rubin, Gary Wise, and Robert Warren 872

Serum Erythropoietin Concentration in Chronic Renal Failure: Relationship to Degree of Anemia and Excretory Renal Function Heinz W. Radtke, Anna Claussner, Peter M. Erbes, Ernst H. Scheuermann, Wilhelm Schoeppe, and Karl M. Koch 877

A Radioimmunoassay for Erythropoietin .................. Judith B. Sherwood and Eugene Goldwasser 885

Physiologic Distribution of Colony-Stimulating Factor In Vivo Richard K. Shadduck, Abdul Waheed, Adolfo Porcellini, Vittorio Rizzoli, and Guiseppe Pigoli 894

Effect of Experimental Chronic Alcohol Ingestion and Folic Acid Deficiency on Iron Absorption .......... Antonio Celada, Hans Rudolf, and Alfred Donath 906

Is There a Precursive, Relatively Procoagulant-Inactive Form of Normal Antihemophilic Factor (Factor VIII)? .................. Mary Ellen Switzer, Salvatore V. Pizzo, and Patrick A. McKee 916

CONCISE REPORTS

Stability of α and β Globin Messenger RNA During Induced Differentiation of Mouse Erythroleukemia Cells ...... Roberto Gambari, Richard A. Rifkind, and Paul A. Marks 933

Megakaryocyte Colony Formation From Human Bone Marrow Precursors W. Vainchenker, J. Bouguet, J. Guichard, and J. Breton-Gorius 940

Dense (Aged) Circulating Red Cells Contain Normal Concentrations of Adenosine Triphosphate (ATP) ................. Francis H. Kirkpatrick, Ann G. Muhs, Ray K. Kostuk, and Conger W. Gabel 946

Specificity of Lactoferrin as an Inhibitor of Granulocyte-Macrophage Colony-Stimulating Activity Production From Fetal Mouse Liver Cells ...... James R. Zucali, Hal E. Broxmeyer, and John A. Ulatowski 951

(Continued on following page)
Erythroid Colony Stimulating and Inhibiting Cells in Peripheral Blood of Transfused Dogs: Separation of Function by Velocity Sedimentation
Beverly Torok-Storb, H. Joachim Deeg, Kerry Atkinson, Paul L. Weiden, John W. Adamson, and Rainer Storb
955

SPECIAL DEPARTMENTS

Correspondence .......................................................... 959
Information for Contributors ............................................. xxiii
Advertisers' Index............................................................... xxix

Concise Reports of original investigations of scientific importance may now be eligible for rapid editorial review and decision (three weeks). For more information see Information for Contributors and Announcement on Concise Reports.

Please note that a processing fee of $30.00 must accompany each manuscript submitted for consideration for publication in BLOOD.

All manuscripts submitted for consideration for publication in BLOOD should be sent to:
Paul A. Marks, M.D., Editor
