CONTENTS

Review: Genetics of Red Cells and Susceptibility to Malaria
  L. Luzzatto 961

Blood Kinetics and In Vivo Chemotaxis of Transfused Neutrophils: Effect of Collection Method, Donor Corticosteroid Treatment, and Short-Term Storage .................................. Thomas H. Price and David C. Dale 977

The Binding of Ouabain to Normal and Chronic Lymphocytic Leukemic Lymphocytes ..................... J. S. Wiley, N. Kraft, and I. A. Cooper 994

Deficiency of Factor Xa – Factor Va Binding Sites on the Platelets of a Patient With a Bleeding Disorder ...................... Joseph P. Miletich, William H. Kane, Sandra L. Hofmann, Nancy Stanford, and Philip W. Majerus 1015

Successful Transfusion of Platelets Cryopreserved for More Than 3 Years
  Peter A. Daly, Charles A. Schiffer, Joseph Aisner, and Peter H. Wiernik 1023

Activated Clotting Factors in Factor IX Concentrates .......... Mae B. Hultin 1028

Prolonged Disease-Free Survival in Dogs With Lymphoma After Total-Body Irradiation and Autologous Marrow Transplantation Consolidation of Combination-Chemotherapy-Induced Remissions
  Paul L. Weiden, Rainer Storb, H. Joachim Deeg, Theodore C. Graham, and E. Donnall Thomas 1039

Human Erythroid Burst-Promoting Activity Produced by Phytohemagglutinin-Stimulated, Radioresistant Peripheral Blood Mononuclear Cells ........... Dina Meytes, Andrew Ma, Jorge A. Ortega, Nomie A. Shore, and Peter P. Dukes 1050

(Continued on following page)
Subsets of Malignant Lymphomas in Children Related to the Cell Phenotype

An Improved Method for Studying the Elastic Properties of Erythrocyte Membranes
Yannis F. Missirlis and Michael C. Brain

Hereditary Dyserythropoiesis With Abnormal Membrane Folate Transport
Robert B. Howe, Richard F. Branda, Steven D. Douglas, and Richard D. Brunning

Production of Fetal Antigen-Bearing Erythrocytes in Irradiated Adult Mice Grafted With Fetal Liver Hematopoietic Cells
J. P. Blanchet, J. Samarut, and G. Mouchiroud

AET-Treated Platelets: Their Usefulness for Platelet Antibody Detection and an Examination of Their Altered Sensitivity to Immune Lysis
Philip L. Cimo and Susan A. Gerber

Studies of Platelet Fibrinogen From a Subject With a Congenital Plasma Fibrinogen Abnormality (Fibrinogen Paris I)
M. Jandrot-Perrus, M. W. Mosesson, M.-H. Denninger, and D. Ménaché

Metabolic Dependence of Protein Arrangement in Human Erythrocyte Membranes. II. Crosslinking of Major Proteins in Ghosts From Fresh and ATP-Depleted Red Cells
S. C. Liu and J. Palek

Monocyte-Mediated Destruction in the Presence of Serum of Red Cells Coated With Antibody
R. J. Kurlander and W. F. Rosse

Synthesis of HbA and HbF in Erythroid Colonies Cultured From Human Fetal Liver and Umbilical Cord Blood
M. W. Hassan, A. Ibrahim, R. F. Rieder, and L. L. Cederqvist

Processing by the Thymus is not Required for Cells That Cure and Populate W/W5' Recipients
David E. Harrison, Clinton M. Astle, and Joan A. DeLaittre

CONCISE REPORTS

The 6γ^γ Composition of Fetal Hemoglobin in Fetuses and Newborns
Blanche P. Alter

Philadelphia-Chromosome-Positive Pre-B-Cell Leukemia Presenting as Blast Crisis of Chronic Myelogenous Leukemia
L. B. Vogler, W. M. Crist, P. C. Vinson, A. Sarrif, M. G. Brattain, and M. S. Coleman

Use and Efficacy of Pneumococcal Vaccine in Patients With Hodgkin Disease
Alexandra M. Levine, Gary D. Overturf, Ronald F. Field, Diane Holdorf, Annlia Paganini-Hill, and Donald I. Feinstein
Hemopoietic Stress and Fetal Hemoglobin Synthesis: Comparative Studies In Vivo and In Vitro .................................. Joseph DeSimone, Paul Heller, and Junius G. Adams 1176

Induction of Erythropoietic Colonies in a Human Chronic Myelogenous Leukemia Cell Line ............... Ronald Hoffman, Mary Jo Murnane, Edward J. Benz, Jr., Rainer Prohaska, Victoria Floyd, Nicholas Daniak, Bernard G. Forget, and Heinz Furthmayr 1182

Human Myeloid Precursors Forming Colonies in Diffusion Chambers Express the Ia-Like Antigen .............. H. P. Koeffler, E. Niskanen, M. Cline, R. Billing, and D. Golde 1188

Plasma β-Thromboglobulin: Differentiation Between Intravascular and Extravascular Platelet Destruction ........................................... Ping Han, Alexander G. G. Turpie, and Edward Genton 1192

Proliferative State of Human Pluripotent Hemopoietic Progenitors (CFU-GE MM) in Normal Individuals and Under Regenerative Conditions After Bone Marrow Transplantation ........................................ A. A. Fauser and H. A. Messner 1197

Concise Reports of original investigations of scientific importance may now be eligible for rapid editorial review and decision (three weeks). For more information see Information for Contributors and Announcement on Concise Reports.

Please note that a processing fee of $30.00 must accompany each manuscript submitted for consideration for publication in BLOOD.

All manuscripts submitted for consideration for publication in BLOOD should be sent to:
