BLOOD

The Journal of
The American Society of Hematology

VOL. 56, NO.1 JULY 1980

CONTENTS

Review: Therapy of Acute Lymphoblastic Leukemia in Childhood ........................................ Alvin M. Mauer 1

Ia Antigen is a Differentiation Marker on Human Eosinophils ............................................... H. P. Koefler, R. Billing, A. M. Levine, and D. W. Golde 11

Chlorpromazine Inhibition of Granulocyte Superoxide Production ........................................ Harvey J. Cohen, Margaret E. Chovaniec, and Seth E. Ellis 23

Regulation of Iron Absorption and Storage Iron Turnover ....................................................... Amadeus Rosenmund, Stephen Gerber, Helmut Huebers, and Clement Finch 30

Sex-Related Differences in Platelet Aggregation: Influence of the Hematocrit ......................... John G. Kelton, Peter Powers, Jim Julian, Veronica Boland, Cedric J. Carter, Michael Gent, and Jack Hirsh 38

Hemopathologic Consequences of Protracted Gamma Irradiation: Alterations in Granulocyte Reserves and Granulocyte Mobilization ....................................................... T. M. Seed, S. M. Cullen, L. V. Kaspar, D. V. Tolle, and T. E. Fritz 42

Effect of Hypertransfusion on Bone Marrow Regeneration in Sublethally Irradiated Mice. I. Enhanced Granulopoietic Recovery ................................................................. Peter J. Smith, Carl W. Jackson, Lois W. Dow, Carol C. Edwards, and Margaret A. Whidden 52

Effect of Hypertransfusion on Bone Marrow Regeneration in Sublethally Irradiated Mice. II. Enhanced Recovery of Megakaryocytes and Platelets ................................................. Peter J. Smith, Carl W. Jackson, Margaret A. Whidden, and Carol C. Edwards 58

A Staphylococcal Slide Test for Detection of Antineutrophil Antibodies ................................ David C. Harmon, Sigmund A. Weitzman, and Thomas P. Stossel 64

Philadelphia Chromosome (Ph1)-Negative Chronic Myelogenous Leukemia (CML): A Clonal Disease With Origin in a Multipotent Stem Cell .................................................. Philip J. Fialkow, Robert J. Jacobson, Jack W. Singer, Ronald A. Sacher, Robert W. McGuffin, and John R. Neefe 70

Heavy-Chain Subclass of Bound Antiplatelet IgG in Autoimmune Thrombocytopenic Purpura .... K. Hymes, P. H. Schur, and S. Karpatkin 84

Thrombocytopenia in Septicemia: The Role of Disseminated Intravascular Coagulation ........... Peter B. Neame, John G. Kelton, Irwin R. Walker, Iain O. Stewart, Hymie L. Nossel, and Jack Hirsh 88

Gγ and Aγ Globin-Chain Biosynthesis by Adult and Umbilical Cord Blood Erythropoietic Bursts and Reticulocytes .................................................. Takashi Terasawa, Makio Ogawa, Pamela N. Porter, and Jim D. Karam 93

(Continued on following page)
Nodular Histiocytic Lymphoma: An Aggressive Nodular Lymphoma With Potential for Prolonged Disease-Free Survival

Chloroma (Granulocytic Sarcoma) Without Evidence of Leukemia: Facilitated Light Microscopic Diagnosis

Kenneth S. McCarty, Jr., James Wortman, John Daly, R. Wayne Rundles, and Jacob S. Hanker

The Formation of Echinocytes by the Insertion of Oxygenated Sterol Compounds Into Red Cell Membranes

Robert C. Hsu, Jeffrey R. Kanofsky, and Stanley Yachnin

Long-Term Human Bone Marrow Cultures

William G. Hocking and David W. Golde

Inaccuracies Associated With the Automated Measurement of Mean Cell Hemoglobin Concentration in Dehydrated Cells

Narla Mohandas, Margaret R. Clark, Susan Kissinger, Carol Bayer, and Stephen B. Shohet

Mixed Lymphoblastic-Myelomonoblastic Leukemia in Treated Hodgkin’s Disease

A. G. Prentice, A. G. Smith, and K. F. Bradstock

A Murine Model System for the Study of the Human Leukemia-Associated Inhibitory Activity

John Marcelletti and Philip Furmanski

Effect of Iron Therapy on Serum Ferritin Levels in Iron-Deficiency Anemia

Munsey S. Wheby

CONCISE REPORTS

(Continued on following page)
Concise Reports of original investigations of scientific importance may now be eligible for rapid editorial review and decision (three weeks). For more information see Information for Contributors.

Please note that a processing fee of $30.00 must accompany each manuscript submitted for consideration for publication in BLOOD. Beginning May 1, 1980, the processing fee will be increased to $50.00.

All manuscripts submitted for consideration for publication in BLOOD should be sent to:

Paul A. Marks, M.D., Editor
