CONTENTS

Review: Plasma Levels of B-Thromboglobulin and Platelet Factor 4 as Indices of Platelet Activation In Vivo
Karen L. Kaplan and John Owen

Acquired Granular Pool Defect in Stored Platelets
Koneti Rao, S. Niewiarowski, and S. Murphy

Genetic Variation in the Quantitative Levels of an NADP (H)-Binding Protein (FX) in Human Erythrocytes
Luciano Lenzerini, Umberto Benatti, Alessandro Morelli, Sandro Pontremoli, Antonio De Flora, Alberto Piazza, Antoniettina Rinaldi, Giorgio Filippi, and Marcello Siniscalco

The Behavior of Transferrin Iron in the Rat
Helmut Huebers, Warner Bauer, Eiko Huebers, Eva Csiba, and Clement Finch

Human Antithrombin III Heterogeneity
Lynne Williams and Genesio Murano

Role of Kidney in the Catabolic Clearance of Human Platelet Antithrombin Proteins From Rat Circulation
Christine P. Bastl, Jacek Musial, Marek Kloczewiak, Joseph Guzzo, Ira Berman, and Stefan Niewiarowski

The Relationship Between Plasma Iron and Plasma Iron Turnover in the Rat
Werner Bauer, Sunday Stray, Helmut Huebers, and Clement Finch

Therapeutic Effectiveness of Frozen Platelet Concentrates for Transfusion
Hillard M. Lazarus, Eve A. Kaniecki-Green, Sarah E. Warm, Masamichi Aikawa, and Roger H. Herzig

Electrophoretic Mobility Distributions Distinguish Hairy Cells From Other Mononuclear Blood Cells and Provide Evidence for the Heterogeneity of Normal Monocytes
Howard R. Petty, Leonard F. Liebes, E. Pelle, B. R. Ware, and Robert Silber

Human Myelogenous Leukemia: Enhanced Clonal Proliferation in the Presence of Phorbol Diesters
H. Phillip Koeffler

Cutaneous T Cell Lymphoma: Characterization by Monoclonal Antibodies
Patrick C. Kung, Carole L. Berger, Gideon Goldstein, Paul LoGerfo, and Richard L. Edelson

Chronic Graft-Versus-Host Disease in 52 Patients: Adverse Natural Course and Successful Treatment With Combination Immunosuppression
Keith M. Sullivan, Howard N. Shulman, Rainer Storb, Paul L. Weiden, Robert P. Witherspoon, George B. McDonald, Mark M. Schubert, Kerry Atkinson, and E. Donnall Thomas

Immunofluorescent Identification of Human Megakaryocyte Colonies Using an Antiplatelet Glycoprotein Antiserum
Eric M. Mazur, Ronald Hoffman, Joel Chasis, Sally Marchesi, and Edward Bruno

Measurement of Ploidy Distribution in Megakaryocyte Colonies Obtained From Culture: With Studies of the Effects of Thrombocytopenia
Jack Levin, Francine C. Levin, David G. Penington, and Donald Metcalf

(Continued on following page)
Further Evidence of the In Vivo Role of Erythropoietin or Companion Molecules Induced by Hypoxia on Proliferation and Continuing Differentiation of BFU-e in PCDC

Kenichi Harigaya, Eugene P. Cronkite, Marilyn E. Miller, and Giuseppe Moccia

Interaction of Platelet Plasma Membranes With Thrombin-Activated Platelets

Hullahalli R. Prasanna, Harold H. Edwards, and David R. Phillips

Structural Studies on the Functional Heterogeneity of von Willebrand Protein Polymers

S. Eric Martin, Victor J. Marder, Charles W. Francis, and Grant H. Barlow

Lactic Dehydrogenase in Normal and Leukemia Lymphocyte Subpopulations: Evidence for the Presence of Abnormal T Cells and B Cells in Chronic Lymphocytic Leukemia

Pietro Rambotti and Stephen Davis

Fatal Graft-Versus-Host Disease in a Patient With Lymphoblastic Leukemia Following Normal Granulocyte Transfusions

Paul L. Weiden, Norman Zuckerman, John A. Hansen, George E. Sale, Kathy Remlinger, Thomas M. Beck, and C. Dean Buckner

The Growth Fraction of Human Myeloma Cells

B. Drewinko, R. Alexanian, H. Boyer, B. Barlogie, and S. I. Rubinow

Reed-Sternberg Cells in Hodgkin’s Disease Contain Fibronectin

Gene D. Resnick and Ralph L. Nachman

Inhibition of Thrombin-Induced Platelet Aggregation by a Derivative of Wheat Germ Agglutinin. Evidence for a Physiologic Receptor of Thrombin in Human Platelets

Pankaj Ganguly and Nancy G. Fossett

Rapid Procedure for Globin Chain Analysis in Blood Samples of Normal and β-Thalassemic Fetuses

L. F. Congote

Dose-Dependent Effects of a Tumor Promotor on Blast Cell Progenitors in Human Myeloblastic Leukemia

L. J.-A. Chang and E. A. McCulloch

CONCISE REPORTS

Ultrastructural Demonstration of Terminal Deoxynucleotidyl Transferase (TdT)

Gerhard Steinmann, Roland Mertelsmann, Etienne deHarven, and Malcolm A. S. Moore

Neutrophil Surface Markers in Patients With Acute Leukemia

Barbara G. Hofmeister, Carlos J. Carrera, and Sondra G. Barrett
