CONTENTS

Review: Human T-Lymphocyte Growth Factor: Regulation of Growth and Function of T Lymphocytes
Francis W. Ruscetti and Robert C. Gallo 379

Alloimmunization Following Platelet Transfusion: The Absence of a Dose-Response Relationship
Janice P. Dutcher, Charles A. Schiffer, Joseph Aisner, and Peter H. Wiernik 395

Correlation of the Biologic Effects and Binding of Cytochalasins to Human Polymorphonuclear
Leukocytes................................................................. Thomas H. Howard, James Casella, and Shin Lin 399

The Biochemical and Clinical Consequences of 2'-Deoxycoformycin in Refractory Lymphoproliferative
Malignancy............. Michael R. Grever, Martin F. E. Siaw, William F. Jacob, James A. Neidhart,
James S. Miser, Mary Sue Coleman, John J. Hutton, and Stanley P. Balcerzak 406

Abnormal T-Cell Subpopulation Function in CLL: Excessive Suppressor (T0) and Deficient Helper (T)
Activity With Respect to B-Cell Proliferation............................. Neil E. Kay 418

Bone Marrow Transplantation for Refractory Acute Leukemia in 34 Patients With Identical Twins
Alexander Fefer, Martin A. Cheever, E. Donnall Thomas, Frederick R. Appelbaum, C. Dean
Buckner, Reginald A. Clift, Harold Glucksberg, Philip D. Greenberg, F. Leonard Johnson,
Henry G. Kaplan, Jean E. Sanders, Rainer Storb, and Paul L. Weiden 421

The Reversible Binding of Vinblastine to Platelets: Implications for Therapy ................. John G. Kelton,
John W. D. McDonald, Robert M. Barr, Irwin Walker, Wendy Nicholson, Peter B. Neame,
Colleen Hamid, Tze Y. Wong, and Jack Hirsh 431

Pseudo-Factor XI Deficiency: Effect of an Inhibitor of Factor XI Adsorption to Surface
Sandra Schiffman, Ruth Margalit, Michael Rosove, and Donald Feinstein 437

Proliferation, Differentiation, and Cytogenetics of Chronic Leukemic B Lymphocytes Cultured With
Mitomycin-Treated Normal Cells .......... P. Nowell, T. V. Shankey, J. Finan, D. Guerry, and E. Besa 444

Patterns of Cell Proliferation and Cell Migration in the Sezary Syndrome ................. Paul A. Bunn, Jr.,
Richard Edelson, Sharon S. Ford, and Stanley E. Shackney 452

Progress Report on Chlorambucil Therapy in Postsplenectomy Patients With Progressive Hairy Cell
Leukemia...................................................................................... Harvey M. Golomb 464

Timed Sequential Chemotherapy of Cytoxan-Refractory Multiple Myeloma With Cytoxan and
Adriamycin Based on Induced Tumor Proliferation................................. Judith E. Karp,
Richard L. Humphrey, and Phillip J. Burke 468

The Activation and Inactivation of Human Factor VIII by Thrombin: Effect of Inhibitors of Thrombin
Mae B. Hultin and Jolyon Jesty 476

Erythropoiesis In Vitro: Enhancement by Neuraminidase........................................ Peter T. Rowley,
Betsy M. Ohlsson-Wilhelm, and Barbara A. Farley 483

Generation of CFU-C.Suppressor T Cells In Vitro: An Experimental Model for Immune-Mediated
Marrow Failure ............... Andrea Bacigalupo, Marina Podesta, Maria C. Mingari, Lorenzo Moretta,
Giovanna Piaggio, Maria T. Van Lint, Andrea Durando, and Alberto M. Marmont 491
Myeloid Differentiation of Human Blood Mononuclear Cells in Liquid Culture

Myeloid Differentiation of Human Blood Mononuclear Cells in Liquid Culture

Jack Goldberg, Lorraine A. McGuire, and William J. Williams

Intraplatelet Serotonin and Plasma 5-Hydroxyindoles in Health and Disease

Intraplatelet Serotonin and Plasma 5-Hydroxyindoles in Health and Disease

Robert D. Shuttleworth, and John R. O'Brien

Development of Suppressor T Lymphocytes for Epstein-Barr Virus-Induced B-Lymphocyte Outgrowth During Acute Infectious Mononucleosis: Assessment by Two Quantitative Systems

Development of Suppressor T Lymphocytes for Epstein-Barr Virus-Induced B-Lymphocyte Outgrowth During Acute Infectious Mononucleosis: Assessment by Two Quantitative Systems

Robert T. Schooley, Barton F. Haynes, Jan Grouse, Charles Payling-Wright, Anthony S. Fauci, and Raphael Dolin

Fibrinopeptide A in Acute Leukemia: Relationship of Activation of Blood Coagulation to Disease Activity

Fibrinopeptide A in Acute Leukemia: Relationship of Activation of Blood Coagulation to Disease Activity

Thomas J. Myers, Frederick R. Rickles, Cheryl Barb, and Malcolm Cronlund

Surface Antigens on Malignant Sezary and T-CLL Cells Correspond to Those of Mature T Cells

Surface Antigens on Malignant Sezary and T-CLL Cells Correspond to Those of Mature T Cells

Laurence Boumsell, Alain Bernard, Ellis L. Reinherz, Lee M. Nadler, Jerôme Ritz, Hélène Coppin, Yolande Richard, Louis Dubertret, François Valensi, Laurent Degos, Jean Lemerle, Georges Flandrin, Jean Daussset, and Stuart F. Schlossman

Asynchronous Synthesis of HbF and HbA During Erythroblast Maturation. II. Studies of $\gamma$, $\alpha$, and $\beta$ Chain Synthesis in Individual Erythroid Clones From Neonatal and Adult BFU-E Cultures

Asynchronous Synthesis of HbF and HbA During Erythroblast Maturation. II. Studies of $\gamma$, $\alpha$, and $\beta$ Chain Synthesis in Individual Erythroid Clones From Neonatal and Adult BFU-E Cultures

Th. Papayannopoulou, S. Kurachi, M. Brice, B. Nakamoto, and G. Stamatoyannopoulos

Inhibition of Platelet Phospholipid Methylation During Platelet Secretion

Inhibition of Platelet Phospholipid Methylation During Platelet Secretion

Sanford J. Shattil, Margaret McDonough, and John W. Burch

Impaired Platelet Response to Thromboxane-A$_2$ and Defective Calcium Mobilization in a Patient With a Bleeding Disorder

Impaired Platelet Response to Thromboxane-A$_2$ and Defective Calcium Mobilization in a Patient With a Bleeding Disorder

Bruce Lages, Curt Malmsten, Harvey J. Weiss, and Bengt Samuelsson

Effect of Surfaces on Fluid-Phase Prekallikrein Activation

Effect of Surfaces on Fluid-Phase Prekallikrein Activation

Cheryl F. Scott, Edward P. Kirby, Paul K. Schick, and Robert W. Colman

Effects of Quercetin on Magnesium-Dependent Adenosine Triphosphatase and the Metabolism of Human Polymorphonuclear Leukocytes

Effects of Quercetin on Magnesium-Dependent Adenosine Triphosphatase and the Metabolism of Human Polymorphonuclear Leukocytes

Gwynn D. Long, Lawrence R. DeChatelet, Joseph T. O'Flaherty, Charles E. McCall, David A. Bass, Pamela S. Shirley, and J. Wallace Parce

Evaluation of Surface Markers on Normal Human Lymphocytes Containing Parallel Tubular Arrays: A Quantitative Ultrastructural Study

Evaluation of Surface Markers on Normal Human Lymphocytes Containing Parallel Tubular Arrays: A Quantitative Ultrastructural Study

Claire M. Payne and Lewis Glasser

In Vitro Studies of Lactoferrin and Murine Granulopoiesis

In Vitro Studies of Lactoferrin and Murine Granulopoiesis

Elliott F. Winton, Joseph M. Kinkade, Jr., William R. Vogler, Margie B. Parker, and Katherine C. Barnes

A Radioreceptor Assay for Quantitating Plasma Factor VIII/von Willebrand's Protein

A Radioreceptor Assay for Quantitating Plasma Factor VIII/von Willebrand's Protein

Kuo-Jang Kao, Salvatore V. Pizzo, and Patrick A. McKee

Fetal Liver Cells Produce Both Fetal and Adult Erythrocytes in Semiallogeneic Radiation Chimeras:

Fetal Liver Cells Produce Both Fetal and Adult Erythrocytes in Semiallogeneic Radiation Chimeras:

Possible Influence of Adult Environment

Possible Influence of Adult Environment

Guy Mouchiroud and Jean Paul Blanchet

Cryogenic Preservation of Monocytes From Human Blood and Plateletpheresis Cellular Residues

Cryogenic Preservation of Monocytes From Human Blood and Plateletpheresis Cellular Residues

S. M. Hunt, F. J. Lionetti, C. R. Valeri, and A. B. Callahan

Selective Isolation of Young Erythrocytes for Transfusion Support of Thalassemia Major Patients

Selective Isolation of Young Erythrocytes for Transfusion Support of Thalassemia Major Patients

Laurence Corash, Harvey Klein, Albert Deisseroth, Brenda Shafer, Sandy Rosen, JoAnn Beman, Patricia Griffith, and Arthur Nienhuis

Abnormal Phytohemagglutinin-Induced T-Cell Proliferative Responses in Hodgkin's Disease

Abnormal Phytohemagglutinin-Induced T-Cell Proliferative Responses in Hodgkin's Disease

Richard S. Schulof, Mortimer J. Lacher, and Sudhir Gupta

CONCISE REPORTS

CONCISE REPORTS

Initial Experience With AMSA as Single Agent Treatment Against Malignant Lymphoproliferative Disorders

Initial Experience With AMSA as Single Agent Treatment Against Malignant Lymphoproliferative Disorders

Fernando Cabanillas, Sewa S. Legha, Gerald P. Bodey, and Emil J. Freireich
The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of the American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for consideration for publication in BLOOD.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: Paul A. Marks, M.D., Editor, BLOOD, Memorial Sloan-Kettering Cancer Center, 1275 York Avenue, New York, N.Y. 10021

Factor Deficient Human Plasma

- **Substrate Quality**
- **Fresh Frozen**
- **Stable**
- **Mono-Specific**

*(Partial) Price List (F.O.B. Overland Park, Kansas)*

- All shipments are packed with dry ice in styrofoam boxes. (Handling Charge for orders under $200.00).
- Shipments within the United States are delivered within 24 hours.
- Plasma can be aliquoted to smaller amounts (1, 2, 3, 4 ml) at an additional charge of $.50 per vial.
- Special discount prices upon request for standing orders or large volumes.

Also available — • FACTORS I, II, V, VII, IX, X, XIII • FACTORS VIII or IX with inhibitor

Fletcher Trait • Von Willebrand • Passavoy Trait • Fitzgerald Trait

Normal Reference Human Plasma
