CONTENTS

Review: Genetically Determined Susceptibility to Cancer .............................................. Paul A. Marks 415

Chromosome Studies in Adult T-Cell Leukemia in Japan: Significance of Trisomy 7
Yoshimi Ueshima, Shirou Fukuhara, Toshio Hattori, Takashi Uchiyama, Kiyoshi Takatsuki, and Haruto Uchino 420

Abnormal Phosphoenolpyruvate Transport in Erythrocytes of Hereditary Spherocytosis
Hiroshi Ideguchi, Naotaka Hamasaki, and Yukio Ikehara 426

In Vitro Regulation of Immunoglobulin Synthesis After Marrow Transplantation. I. T-Cell and B-Cell
Deficiencies in Patients With and Without Chronic Graft-Versus-Host Disease
Lawrence G. Lum, Margaret C. Seigneur, Rainer F. Storb, Robert P. Witherspoon, and E. Donnall Thomas 431

Cytotoxic Chemotherapy for Cancer in Felty’s Syndrome: Role of Lithium Carbonate
Richard Pazdur and Arthur H. Rossof 440

Selection of Donor Platelets for Alloimmunized Patients Using a Platelet-Associated IgG Assay
Thomas J. Myers, Byung K. Kim, Manfred Steiner, and Mario G. Baldini 444

Lymphocyte Depletion and Immunosuppression With Repeated Leukapheresis by Continuous Flow
Centrifugation .................................... Daniel G. Wright, Jacob Karsh, Anthony S. Fauci, John H. Klippel,

Chromosome Abnormalities in Down’s Syndrome Patients With Acute Leukemia ........ Yashuiko Kaneko,
Janet D. Rowley, Daina Variakojis, Robert R. Chilcote, John W. Moohr, and Daksha Patel 459

Intensive Chemotherapy is the Treatment of Choice for Elderly Patients With Acute Myelogenous
Leukemia ........................................... Kenneth A. Foon, Jacob Zighelboim, Coralee Yale, and Robert Peter Gale 467

Drug Resistance in Multiple Myeloma Associated With High In Vitro Incorporation of 3H-Thymidine
Victor Hofmann, Sidney E. Salmon, and Brian G. M. Durie 471

Preaggregation Reactions of Platelets ................................................................. Adrian R. L. Gear 477

The Chemical Heterogeneity of the Fetal Hemoglobin of Black Newborn Babies and Adults: A
Reevaluation .................................................. T. H. J. Huisman and C. Altay 491

Immunologic Evaluation in the Prognosis of Acute Lymphoblastic Leukemia. A Report From Childrens
Cancer Study Group ................................. Sanford Leikin, Denis Miller, Harland Sather, Vincent Albo,
Elaine Esber, Armead Johnson, Nicholas Rogentine, and Denman Hammond 501

Treatment of Non-Hodgkin’s Lymphoma With Marrow Transplantation in Identical Twins
Frederick R. Appelbaum, Alexander Fefer, Martin A. Cheever, C. Dean Buckner,
Philip D. Greenberg, Henry G. Kaplan, Rainer Storb, and E. Donnall Thomas 509

Prostacyclin and β-Adrenergic Catecholamines Inhibit Arachidonate Release and PGI2 Synthesis by
Vascular Endothelium............................... Brian Adler, Michael A. Gimbrone, Jr., Andrew I. Schafer,
and Robert I. Handin 514

(Continued on following page)

Drug-Induced Thrombocytopenia is Associated With Increased Binding of IgG to Platelets Both In Vivo and In Vitro ........... John G. Kelton, David Meltzer, Jane Moore, Alan R. Giles, William E. Wilson, Robert Barr, Jack Hirsh, Peter B. Neame, Peter J. Powers, Irwin Walker, Fred Bianchi, and Cedric J. Carter 524

Monoclonal Antibodies to von Willebrand’s Factor: Reactivity With Porcine and Human Antigens Jerry A. Katzmann, Donna K. Mujwid, Randall S. Miller, and David N. Fass 530

Storage of Platelet Concentrates Using Ion Exchange Resin Charged With Dibasic Phosphate Barbara Kotelba-Witkowska, Denise M. Harmening-Pittiglio, and Charles A. Schiffer 537

The Presence of Mast Cell Precursors in Rat Peripheral Blood ..................D. Zucker-Franklin, G. Grusky, N. Hirayama, and E. Schnipper 544

Granulopoietic Effects of Human Bone Marrow Fibroblastic Cells and Abnormalities in the “Granulopoietic Microenvironment” ............. Bernard R. Greenberg, Floyd D. Wilson, and Linda Woo 557

Correction of Various Abnormalities in Cultured Porcine von Willebrand Endothelial Cells by Inhibition of Plasminogen-Dependent Protease Activity...F. M. Booyse, A. J. Quatfoot, J. Radek, and S. Feder 573

Treatment of Patients Over 50 Years of Age With Acute Myelogenous Leukemia With a Combination of Rubidazone and Cytosine Arabinoside, Vincristine, and Prednisone (ROAP) ..............M. J. Keating, K. B. McCredie, R. S. Benjamin, G. P. Bodey, A. Zander, T. L. Smith, and E. J. Freireich 584

The Sickle Gene Polymorphism in North Africa ................................J. Gregory Mears, Cherif Beldjord, Mohamed Benabadji, Youssef Alaoui Belghiti, Marie-Ange Baddou, Dominique Labie, and Ronald L. Nagel 599

Studies of Human Platelet α-Granule Release In Vivo ......................Joe C. Files, Thomas W. Malpass, Esther K. Yee, James L. Ritchie, and Laurence A. Harker 607

Labeled Factor IX Kinetics in Patients With Hemophilia-B........Kenneth J. Smith and Arthur R. Thompson 625

(Continued on following page)
(Contents continued)

CONCISE REPORTS

The Interference of Leukocytes and Platelets With Measurement of Glucose-6-Phosphate Dehydrogenase Activity of Erythrocytes With Low Activity Variants of the Enzyme................. A. Morelli, U. Benatti, L. Lenzerini, B. Sparatore, F. Salamino, E. Mellonì, M. Michetti, S. Pontremoli, and A. De Flora 642

Surface Phenotype of Japanese Adult T-Cell Leukemia Cells Characterized by Monoclonal Antibodies Toshio Hattori, Takashi Uchiyama, Toshio Toibana, Kiyoshi Takatsuki, and Haruto Uchino 645

Expression of Common Acute Lymphoblastic Leukemia Antigen (CALLA) by Lymphomas of B-Cell and T-Cell Lineage............... Jerome Ritz, Lee M. Nadler, Atul K. Bhan, Jean Notis-McConarty, John M. Pesando, and Stuart F. Schlossman 648

Acidic Isoferritins (Leukemia-Associated Inhibitory Activity) Fail to Inhibit Blast Proliferation in Acute Myelogenous Leukemia .......................................................... Raymond Taetle 653

Leukotriene B₄ is a Potent and Stereospecific Stimulator of Neutrophil Chemotaxis and Adherence Jan Palmblad, Curt L. Malmsten, Ann-Mari Udén, Olof Rådmark, Lars Engstedt, and Bengt Samuelsson 658

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of the American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for consideration for publication in BLOOD.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: Paul A. Marks, M.D., Editor, BLOOD, Memorial Sloan-Kettering Cancer Center, 1275 York Avenue, New York, N.Y. 10021
