CONTENTS

BLOOD
The Journal of
The American Society of Hematology

VOL. 60, NO. 4
OCTOBER 1982

CONTENTS

Cumulative Experience With a Simplified Solid-Phase Radioimmunoassay for the Detection of Bound
Antiplatelet IgG, Serum Auto-, Allo-, and Drug-Dependent Antibodies
Douglas Faig and Simon Karpatkin 807

Immunologic and Clinical Effects of Repeated Blood Exchange in Familial Erythrophagocytic
Lymphohistiocytosis
Stephan Ladisch, Winston Ho, David Matheson, Ronald Pilkington, and Gary Hartman 814

Expression of a Chronic Granulomatous Disease-Like Defect by Fluoride-Exhausted Neutrophils
Yaakov Matzner, Lawrence M. Brass, B. Jane McMurrich, Wendy A. Peters,
Janine Andre-Schwartz, and Bernard M. Babior 822

The Clearance of 131I-Human Plasma Ferritin in Man
Mark Worwood, Susan J. Cragg, Ann M. Williams, Michael Wagstaff, and Allan Jacobs 827

Isolation of Human Platelet Membrane Microparticles From Plasma and Serum
James N. George, Linda L. Thoi, Linda M. McManus, and Terry A. Reimann 834

Karyotypic Polymorphism in Acute Myelofibrosis
Ila Shah, Kazutoshi Mayeda, Fred Koppitch, Sayed Mahmood, and Barbara Nemitz 841

Modulation of Murine Erythropoiesis In Vitro by Syngeneic Thymocytes: Interactions of Enhancing and
Suppressing Subpopulations With Fluorescent Anti-Theta Antibody and Polyamino Acids
Fritz Sieber and Saul J. Sharkis 845

Myeloma Protein Kinetics Following Chemotherapy .......... Peter McLaughlin and Raymond Alexanian 851

Cytokinetically Based Induction Chemotherapy and Splenectomy for Childhood Acute Nonlymphocytic
Leukemia...................... Gary V. Dahl, David K. Kalwinsky, Sharon Murphy, A. Thomas Look,
Sergio Amadori, Mahesh Kumar, Robert Novak, Stephen L. George, Clara Mason,
Alvin M. Mauer, and Joseph V. Simone 856

Prognostic Importance of Chromosome Number in 136 Untreated Children With Acute Lymphoblastic
Leukemia...................... Dorothy L. Williams, Anastasios Tsiatis, Garrett M. Brodeur,
A. Thomas Look, Susan L. Melvin, W. Paul Bowman, David K. Kalwinsky, Gaston Rivera, and
Gary V. Dahl 864

Studies on the Effect of Deoxyadenosine on Deoxycoformycin-Treated Myeloid and Lymphoid Stem
Cells............................................................ M. T. Aye, J. V. Dunne, and W. C. Yang 872

Nonrandom Chromosome Abnormalities in Angioimmunoblastic Lymphadenopathy
Yasuhiko Kaneko, Richard A. Larson, Daina Vasiakojis, J. Marie Haren, and Janet D. Rowley 877

Glycogenolysis Versus Glucose Transport in Human Granulocytes: Differential Activation in
Phagocytosis and Chemotaxis .............. Daniel J. Weisdorf, Philip R. Craddock, and Harry S. Jacob 888

Further Studies on the Interaction Between Human Platelet Membrane Glycoproteins IIb and IIIa in
Triton X-100....... Dominique Pidard, Jean-Philippe Rosa, Thomas J. Kunicki, and Alan T. Nurden 894

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of the American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for publication in BLOOD.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: Paul A. Marks, M.D., Editor, BLOOD, Memorial Sloan-Kettering Cancer Center, 1275 York Avenue, New York, N.Y. 10021.

As of December 1, 1982 all manuscripts submitted for consideration for publication in BLOOD should be sent to: John W. Adamson, M.D., Editor, BLOOD, University District Building—Room 216, 1107 Northeast 45th Street, Seattle, Washington 98105.
