BLOOD
The Journal of
The American Society of Hematology

VOL. 60, NO. 6
DECEMBER 1982

CONTENTS

Review: Erythropoiesis, Erythropoietin, and Iron ........................................ Clement A. Finch 1241

Changes in Phosphatidylinositol-4,5-Bisphosphate 10 Seconds After Stimulation of Washed Rabbit Platelets With ADP ............ John D. Vickers, Raelene L. Kinlough-Rathbone, and J. Fraser Mustard 1247

Kinetics of Intravenously Administered Heparin in Normal Humans
Cees A. M. de Swart, Bertha Nijmeyer, Jan M. M. Roelofs, and Jan J. Sixma 1251

Chronic Hepatitis in Patients With Hemophilia A: Histologic Studies in Patients With Intermittently Abnormal Liver Function Tests

Human Cyclic Neutropenia Transferred by Allogeneic Bone Marrow Grafting

Prognostic Significance of Terminal Transferase Activity in Childhood Acute Lymphoblastic Leukemia:
A Prospective Analysis of 164 Patients
J. J. Hutton, M. S. Coleman, S. Moffitt, M. F. Greenwood, P. Holland, B. Lampkin, T. Kisker, C. Krill, J. E. Kastelic, L. Valdez, and F. J. Bollum 1267

Characterization of the IgG-Fc Receptor on Human Platelets
Steven P. Karas, Wendell F. Rosse, and Roger J. Kurlander 1277

A Defect in the Oxidative Metabolism of Human Polymorphonuclear Leukocytes That Remain in Circulation Early in Hemodialysis
Myron S. Cohen, Delores M. Elliott, Thomas Chaplinski, Marilyn M. Pike, and James E. Niedel 1283

Comparison of Antibody-Dependent Cytotoxicity Mediated by Human Polymorphonuclear Cells, Monocytes, and Alveolar Macrophages ................................................................. Paul Conkling, David K. Klassen, and Arthur L. Sagone, Jr. 1290

A Multivariate Analysis of Prognostic Factors in Chronic Myeloid Leukemia
Francisco Cervantes and Ciril Rozman 1298

Two New Acute Lymphoblastic Leukemia Cell Lines With Early B-Cell Phenotypes
Harry W. Findley, Jr., Max D. Cooper, Tae H. Kim, Carlos Alvarado, and Abdelsalam H. Ragab 1305

Normal Human Pluripotent and Committed Hematopoietic Progenitors Do Not Express the p24 Antigen Detected by Monoclonal Antibody BA-2: Implications for Immunotherapy of Lymphocytic Leukemia .... Robert C. Ash, Jan Jansen, John H. Kersey, Tucker W. LeBien, and Esmail D. Zanjani 1310

Cytotoxic T-Cell Clones Derived From Pluripotent Stem Cells (CFU-GEWM) of Patients With Hodgkin’s Lymphoma ............ A. A. Fauser, H. A. Neumann, K. G. Bross, L. Kanz, and G. W. Löhrl 1317

Acute Leukemia Associated With the (4;11) Chromosome Rearrangement: Ultrastructural and Immunologic Characteristics
Janet L. Parkin, Diane C. Arthur, Candice S. Abramson, Robert W. McKenna, John H. Kersey, Richard L. Heideman, and Richard D. Brunning 1321

(Continued on following page)
(Contents continued)

Increased Ca++, Mg++, and Na++ + K ATPase Activities in Erythrocytes of Sickle Cell Anemia  
Madan G. Luthra and David A. Sears  
1332

Adipocyte Development and the Loss of Erythropoietic Capacity in the Bone Marrow of Mice After Sustained Hypertransfusion  
Daniel Brookoff and Leon Weiss  
1337

A Quantitative Method to Measure Human Platelet Chemotaxis Using Indium-111-Oxine-Labeled Gel-Filtered Platelets  
Rosalin Wu Lowenhaupt, E. B. Silberstein, M. I. Sperling, and Gayle Mayfield  
1345

An Alternative Extrinsic Pathway of Human Blood Coagulation  
Richard A. Marlar, Alice J. Kleiss, and John H. Griffin  
1353

Factor VIII-Induced Superaggregation of Human Platelets  
Edward P. Kirby, David C. B. Mills, Holm Holmsen, and Matteo Russo  
1359

The Effect of Deoxygenation on Red Cell Density: Significance for the Pathophysiology of Sickle Cell Anemia  
Mary E. Fabry and Ronald L. Nagel  
1370

Granulocyte-Macrophage Colony-Stimulating and Binding Activities of Purified Human Urinary Colony-Stimulating Factor to Murine and Human Bone Marrow Cells  
Kazuo Motoyoshi, Toshio Suda, Kazuo Kusumoto, Fumimaro Takaku, and Yasusada Miura  
1378

Deficiency of Methylthioadenosine Phosphorylase in Human Leukemic Cells In Vivo  
Naoyuki Kamatani, Alice L. Yu, and Dennis A. Carson  
1387

Expression of a Myeloid Marker on TdT-Positive Acute Lymphocyte Leukemic Cells: Evidence by Double-Fluorescence Staining  
P. Bettelheim, E. Paietta, O. Majdic, H. Gadner, J. Schwarzmeier, and W. Knapp  
1392

Prognostic Significance of Lymphocyte Density Distribution Profiles in Adult Non-Hodgkin Lymphomas  
Christoph Huber, Dieter Lutz, Dietger Niederwieser, Gunter Weiser, Otto Dietze, Harald Theml, and Herbert Braunsteiner  
1397

The Role of the Spleen in Regulating the Plasma Levels of Factor VIII—von Willebrand's Factor After DDAVP  
Vicente Vicente Garcia, Raffaella Coppola, and Pier Mannuccio Mannucci  
1402

Detection of Hemophilia Carriers During Pregnancy  
Leon W. Hoyer, Carl A. Carta, and Maurice J. Mahoney  
1407

Bone Marrow Infarction in Sickle Cell Anemia: Correlation With Hematologic Profiles  
Paul F. Milner and Mark Brown, with the technical assistance of George A. Yoder  
1411

Variant von Willebrand's Disease Type B—Revisited  
Margaret A. Howard, Hatem H. Salem, Kathy B. Thomas, Lena Hau, Jean Perkin, Margaret Coghlan, and Barry G. Firkin  
1420

Childhood Lymphoblastic Leukemia With Natural Killer Activity: Establishment of the Leukemia Cell Lines Retaining the Activity  
Atsushi Komiyama, Hiroshi Kawai, Yukiaki Miyagawa, and Taro Akabane  
1429

Phorbol-Ester-Mediated Induction and Augmentation of Mitogenesis and Interleukin-2 Production in Human T-Cell Lymphoproliferative Disease  
Florry A. Vyth-Dreese, Hendrik J. van der Reijden, and Jan E. de Vries  
1437

Generation of CFU-C Suppressor T Cells In Vitro. III. Failure of Mitogen-Primed T Cells From Patients With Chronic Granulocytic Leukemia to Inhibit the Growth of Normal CFU-C  
Francesco Frassoni, Andrea Bacigalupo, Marina Podestà, Maria Teresa Van Lint, Giovanna Piaggio, and Alberto Marmont  
1447
CONCISE REPORT

Type IIB von Willebrand's Disease: Differential Clearance of Endogenous Versus Transfused Large Multimer von Willebrand Factor

All manuscripts submitted for consideration for publication in BLOOD should be sent to: John W. Adamson, M.D., Editor, BLOOD, University District Building—Room 320, 1107 Northeast 45th Street, Seattle, Washington 98105.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of the American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician's Recognition Award of the American Medical Association.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for publication in BLOOD.
