BLOOD
The Journal of
The American Society of Hematology

VOL. 61, NO. 1
JANUARY 1983

CONTENTS

Review: The Red Cell Membrane Skeleton: Recent Progress ........................................... V. T. Marchesi 1

A Human Granulocyte-Specific Antigen Characterized by Use of Monoclonal Antibodies Keith M. Skubitz, Yong-su Zhen, and J. Thomas August 19

The Relationship of the Properties of Antihemophilic Factor (Factor VIII) That Support Ristocetin-Induced Platelet Agglutination (Factor VIIIIR:RC) and Platelet Retention by Glass Beads as Demonstrated by a Monoclonal Antibody ........................................... Kanji Ogata, Hidehiko Saito, and Oscar D. Ratnoff 27

The Use of Factor Eight Inhibitor By-Passing Activity (FEIBA Immuno) Product for Treatment of Bleeding Episodes in Hemophiliacs With Inhibitors ............................... Margaret W. Hilgartner, Genell L. Knatterud, and the FEIBA Study Group 36

Platelet Aggregation and Exposure of Fibrinogen Receptors by Prostaglandin Endoperoxide Analogues Thomas A. Morinelli, Stefan Niewiarowski, Elizabeth Kornecki, William R. Figures, Yanina Wachtfogel, and Robert W. Colman 41

Increased Cholesterol Biosynthesis in Leukemic Cells From Patients With Hairy Cell Leukemia Stanley Yachnin, Harvey M. Golomb, E. Jayne West, and Carol Saffold 50

Immunoreactive Calcitonin Production by a Human Promyelocytic Leukemia Cell Line HL60 D. G. Oscier, C. J. Hillyard, T. R. Arnett, I. MacIntyre, and J. M. Goldman 61

Characterization of Non-Human Primate Antisera to Acute Lymphoblastic Leukemia (ALL): Evidence for Unique Antigen(s) on Childhood ALL of "T" Phenotype T. Mohanakumar, Terry W. Coffey, Michael P. Vaughn, Edward C. Russell, and Daniel Conrad 66

Near-Tetraploid Clones in Acute Leukemia ......................... Joseph R. Testa, Nobuo Onguma, Avrom Pollak, and Peter H. Wiernik 71

Cell Kinetic Responses in Childhood Acute Nonlymphocytic Leukemia During High-Dose Therapy With Cytosine Arabinoside ...................... L. A. Smets, J. Taminiau, K. Hühlen, F. de Waal, and H. Behrendt 79

Studies With a Murine Monoclonal Antibody That Abolishes Ristocetin-Induced Binding of von Willebrand Factor to Platelets: Additional Evidence in Support of GPIb as a Platelet Receptor for von Willebrand Factor .................................................... Barry S. Coller, Ellinor I. Peerschke, Lesley E. Scudder, and Carole A. Sullivan 99

(Continued on following page)
CONTENTS

Heparin Cofactor Activities in a Family With Hereditary Antithrombin III Deficiency: Evidence for a
Second Heparin Cofactor in Human Plasma .......................................................... Michael J. Griffith, Tony Carraway, Gilbert C. White, and Frederick A. Dombrose 111

Platelet-Bound IgM in Autoimmune Thrombocytopenia ........................................... Johannes D. Nel, Kenneth Stevens, Aafke Mouton, and Francois J. Pretorius 119

Augmentation by Platelets of Granulocyte Aggregation in Response to Chemotaxins: Studies Utilizing an
Improved Cell Preparation Technique.... Heinz Redl, Dale E. Hammerschmidt, and Gunther Schlag 125

Wasp Sting Anaphylaxis ......................................................................................... Oscar D. Ratnoff and Hymie L. Nossel 132

Exposure of Platelet Fibrinogen-Binding Sites by Collagen, Arachidonic Acid, and ADP: Inhibition by a
Monoclonal Antibody to the Glycoprotein IIb-IIIa Complex......................... Giovanni Di Minno, Perumal Thiagarajan, Bice Perussia, Jose Martinez, Sandor Shaprio, Giorgio Trinchieri, and Scott Murphy 140

111In-Oxine-Labeled Rabbit Platelets: In Vivo Distribution and Sites of Destruction
Robin L. Hill-Zobel, Ursula Scheffel, Patricia A. McIntyre, and Min-Fu Tsan 149

Thrombin and Ionophore A23187-Induced Dense Granule Secretion in Storage Pool Deficient Platelets:
Evidence for Impaired Nucleotide Storage as the Primary Dense Granule Defect
Bruce Lages, Holm Holmsen, Harvey J. Weiss, and Carol Dangelmaier 154

Human Platelet Cytoskeletons: Specific Content of Glycolipids and Phospholipids
Paul K. Schick, George P. Tuszynski, and Paul W. Vander Voort 163

Heterogeneous Ontogeny of Erythropoiesis After Bone Marrow Ablation and Allogeneic Bone Marrow
Grafting.......................................................... Karl J. Winkler, Christopher D. Rea, Samuel Rahbar, L. Robert Hill, and Karl G. Blume 167

Induction of Differentiation of Human Myeloid Leukemias: Surface Changes Probed With Monoclonal
Antibodies......................... Dario Ferrero, Silvana Pessano, Giovanni Luca Pagliardi, and Giovanni Rovera 171

The Membrane Potential of Human Platelets............................................. Lawrence T. Friedhoff and Martin Sonenberg 180

Passive Participation of Fixed Platelets in Aggregation Facilitated by Covalently Bound Fibrinogen
Galila Agam and Avinoam Livne 186

Phenotypic and Functional Analysis of Leukemic Cells From 16 Patients With Adult T-Cell
Leukemia/Lymphoma .......................................................................................... Yasuaki Yamada 192

CONCISE REPORT

The Influence of T Lymphocytes and Their Products on Hemopoietic Precursor Cell Regeneration in
Spleen Organ Cultures........................................ Harald von Melchner and Perry F. Bartlett 200

Chromosome Aberrations in T Lymphocytes Carrying Adult T-Cell Leukemia-Associated Antigens
(ATLA) From Healthy Adults.................. Shirou Fukuhara, Yorio Hinuma, Yoh-Ichi Gotoh, and Haruto Uchino 205

SPECIAL DEPARTMENTS

Correspondence................................................................. 208

Erratum......................................................................................... 212

Announcements................................................................. 213

All manuscripts submitted for consideration for publication in BLOOD should be sent to: John W. Adamson, M.D., Editor, BLOOD, University District Building—Room 320, 1107 Northeast 45th Street, Seattle, Washington 98105.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of the American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for publication in BLOOD.

Factor Deficient Human Plasma

- **Substrate Quality**
- **Fresh Frozen**
- **Mono-Specific**

(Partial) Price List (F.O.B. Overland Park, Kansas)

- All shipments are packed with dry ice in styrofoam boxes. (Handling Charge for orders under $250.00).
- Shipments within the United States are delivered within 24 hours.
- Plasma can be aliquoted in any amount up to 5 ml at an additional charge of $.50 per vial.
- Special discount prices upon request for standing orders or large volumes.

Also available —  ● FACTORS I, II, V, VII, IX, X, XIII ● FACTORS VIII or IX with inhibitor

Prekallikrein Deficient  ● Von Willebrand  ● Passovoy Trait  ● Kininogen Deficient
Normal Reference Human Plasma
