FEBRUARY 1983

CONTENTS

Review: Current Status of the Biology and Treatment of Acute Non-Lymphocytic Leukemia in Children
(Report From the ANLL Strategy Group of the Children’s Cancer Study Group)

Beatrice C. Lampkin,
William Woods, Ronald Strauss, Stephen Feig, Gussie Higgins, Irwin Bernstein, Giulio D’Angio,
Ronald Chard, Archie Bleyer, and Denman Hammond

Demonstration of Kallikrein-Like Protease Activity in Nonactivated Plasma of Patients With Cooley’s
Anemia .......................................................... Maureen Andrew, Mariann Manno, and Margaret Karpatick

A Radiolabeled Antiglobulin Test for Crossmatching Platelet Transfusions.................. Thomas S. Kickler,
Hayden G. Braine, Paul M. Ness, Alice Koester, and Wilma Bias

Hematin: Unique Effects on Hemostasis ......................... Robert Glueck, David Green, Isaac Cohen, and
Chung-hsin Ts’ao

Association of Cell Cycle Expression of lα-Like Antigenic Determinants on Normal Human
Multipotential (CFU-GEMM) and Erythroid (BFU-E) Progenitor Cells With Regulation In Vitro
by Acidic Isoferritins.............. Li Lu, Hal E. Broxmeyer, Paul A. Meyers, Malcolm A. S. Moore, and
H. Tzvi Thaler

Glycosaminoglycans in Human Neutrophils and Leukemic Myeloblasts: Ultrastructural, Cytochemical,
Immunologic, and Biochemical Characterization ...................... Richard T. Parmley, Robert E. Hurst,
Minoru Takagi, Samuel S. Spicer, and Ronald L. Austin

A New Life-Long Hemorrhagic Disorder Due to Excess Plasminogen Activator ................ N. A. Booth,
B. Bennett, G. Wijngaards, and J. H. K. Grieve

The Origin of Cerebrospinal Fluid Procoagulant Activity ...................... Diane M. Komp, Lionel P. Clyne, and
Edmund Sullivan

An Investigation of 2’-Deoxycoformycin in the Treatment of Cutaneous T-Cell Lymphoma
Michael R. Grever, Emil Bisaccia, Dwight A. Scarborough, Earl N. Metz, and James A. Neidhart

The Significance of Transferrin for Intestinal Iron Absorption .......... Helmut A. Huebers, Eiko Huebers,
Eva Csiba, Walter Rummel, and Clement A. Finch

Differential Excretion of Modified Nucleosides in Adult Acute Leukemia............... Debra A. Heldman,
Michael R. Grever, and Ronald W. Trewyn

Efficacy and Morbidity of Central Nervous System “Prophylaxis” in Childhood Acute Lymphoblastic
Leukemia: Eight Years’ Experience With Cranial Irradiation and Intrathecal Methotrexate
Adlette Inati, Stephen E. Sallan, J. Robert Cassady, Suzanne Hitchcock-Bryan, Luis A. Clavell,
James A. Belli, and Natalie Sollee

Isoelectric Focusing of Human von Willebrand Factor in Urea-Agarose Gels .............. Carol A. Fulcher,
Zaverio M. Ruggeri, and Theodore S. Zimmerman

(Continued on following page)
Detection of Platelet Antibodies Using a Micro-Enzyme-Linked Immunosorbent Assay (ELISA)
Charles A. Schiffer and Virginia Young

311

Cyclosporin A to Prevent Graft-Versus-Host Disease: A Pilot Study in 22 Patients Receiving Allogeneic Marrow Transplants

Peter J. Tutschka, William E. Beschorner, Allan D. Hess, and George W. Santos

318

Identification of Neutrophil Subpopulations With Monoclonal Antibodies

Loran T. Clement, Joyce E. Lehmyer, and G. Larry Garlant

326

Endogenous Protein Phosphorylation by Resting and Activated Human Neutrophils

Patricia C. Andrews and Bernard M. Babior

333

Transplantation for Severe Combined Immunodeficiency With HLA-A,B,D,DR Incompatible Parental Marrow Cells Fractionated by Soybean Agglutinin and Sheep Red Blood Cells

Yair Reitsner, Neena Kapoor, Dahlia Kirkpatrick, Marilyn S. Pollock, Susanna Cunningham-Rundles, Bo Dupont, Marquis Z. Hodes, Robert A. Good, and Richard J. O‘Reilly

341

Response to Splenectomy in 65 Patients With Hairy Cell Leukemia: An Evaluation of Spleen Weight and Bone Marrow Involvement

Harvey M. Golomb and James W. Vardiman

349

Effect of Aspirin and Sodium Salicylate on Thrombosis, Fibrinolysis, Prothrombin Time, and Platelet Survival in Rabbits With Indwelling Aortic Catheters

M. Cattaneo, A. Chahil, D. Somers, R. L. Kinlough-Rathbone, M. A. Packham, and J. F. Mustard

353

Survival of Density Subpopulations of Rabbit Platelets: Use of $^{51}$Cr- or $^{111}$In-Labeled Platelets to Measure Survival of Least Dense and Most Dense Platelets Concurrently

Margaret L. Rand, Marian A. Packham, and J. Fraser Mustard

362

Mechanism of Thrombin Binding to Endothelial Cells

Pál I. Bauer, Raymund Machovich, Péter Arányi, Kálmán G. Bűki, Éva Csonka, and István Horváth

368

Hereditary Elliptocytosis With Protein Band 4.1 Deficiency in the Dog

Joseph E. Smith, Kateri Moore, Marlys Arens, G. A. Rinderknecht, and Arlo Ledet

373

Hemoglobin North Shore: A Variant Hemoglobin Associated With the Phenotype of β-Thalassemia

Clark M. Smith II, Bo Hedlund, John A. Cich, David P. Tukey, Mark Olson, Martin H. Steinberg, and Janus G. Adams III

378

In Vitro Studies of Megakaryopoiesis in Thrombocytotic Disorders of Man

Alan M. Gewirtz, Edward Bruno, Joyce Elwell, and Ronald Hoffman

384

Characteristics and Requirements of the Interaction Between Human Monocytes and Tumor Cells on the Single Cell Level

Marc G. Golightly, Dina G. Fischer, Christer Öhlander, and Hillel S. Koren

390

Lipid Accumulation and Production of Colony-Stimulating Activity by the 266AD Cell Line Derived From Mouse Bone Marrow

David L. Hines

397

Evidence of the Existence of a Factor That Induces C, Receptors on Bone Marrow Cells

Mario Calcagno, Basilio Rios, Alejandro Fragoso, Miguel A. Arciga, Gloria Cabrera, Rocío Torres, and Benny Weiss-Steider

403

CONCISE REPORT

Conservation of Myeloid Surface Antigens on Primate Granulocytes

Norman L. Letvin, Robert F. Todd III, Lori S. Palley, Stuart F. Schlossman, and James D. Griffin

408

All manuscripts submitted for consideration for publication in BLOOD should be sent to: John W. Adamson, M.D., Editor, BLOOD, University District Building—Room 320, 1107 N.E. 45th Street, Seattle, Washington 98105.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of the American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for publication in BLOOD.
