CONTENTS

Comparison of Central Nervous System Prophylaxis With Cranial Radiation and Intrathecal Methotrexate Versus Intrathecal Methotrexate Alone in Acute Lymphoblastic Leukemia
Federico Sackmann Muriel, Eva Svarch, Santiago Pavlovsky, Mariana Eppinger-Helft, Jorge Braier, Berta Vergara, Guy Garay, Rita Kvicala, Jorge M. Divito, Renato Failace, Eduardo Dibar, and Elías Jiménez

Insulin Receptors on Leukemia and Lymphoma Cells...........Po-min Chen, Siu-hoi Kwan, Tien-szu Hwang, Benjamin N. Chiang, and Chen-Kung Chou

Immunoglobulin Phenotype on B Cells Correlates With Clinical Stage of Chronic Lymphocytic Leukemia.................Frances S. Ligler, John R. Ketelman, R. Graham Smith, and Eugene P. Frenkel

Thirty-Six Human Monoclonal Immunoglobulins With Antibody Activity Against Cytoskeleton Proteins, Thyroglobulin, and Native DNA: Immunologic Studies and Clinical Correlations
Guillaume Dighiero, Brigitte Guilbert, Jean-Paul Fermand, Peggy Lymbrier, François Danon, and Stratis Avrameas

Generation of Procoagulant Activity by Mononuclear Phagocytes: A Possible Mechanism Contributing to Blood Clotting Activation Within Malignant Tissues..............Roberto Lorenzet, Giuseppe Peri, Daniela Locati, Paola Allavena, Mario Colucci, Nicola Semeraro, Alberto Mantovani, and Maria Benedetta Donati

Modulation of Polymorphonuclear Leukocyte Function by Cetiedil..............................J. Baruch Wolach, Thomas D. Coates, Diana Y. Tzeng, Robert L. Baehner, and Laurence A. Boxer

Alpha-Thalassemia Is Related to Prolonged Survival in Sickle Cell Anemia
J. Gregory Mears, Herbert M. Lachman, Dominique Labie, and Ronald L. Nagel

Enzymatic Treatment of Long-Term Human Marrow Cultures Reveals the Preferential Location of Primitive Hemopoietic Progenitors in the Adherent Layer......................L. Coulombel, A. C. Eaves, and C. J. Eaves

Cytochemical, Functional, and Proliferative Characteristics of Promonocytes and Monocytes From Patients With Monocytic Leukemia.................................Ralph van Furth and Theda L. van Zwet

Hematopoietic Precursors in Disease Induced by the Myeloproliferative Sarcoma Virus

Changes in Actin Content During Induced Myeloid Maturation of Human Promyelocytes
William H. Meyer and Thomas H. Howard

Chemotherapy for Acute Myelogenous Leukemia in Children and Adults: VAPA Update
Howard J. Weinstein, Robert J. Mayer, David S. Rosenthal, Felice S. Coral, Bruce M. Camitta, and Richard D. Gelber

(Continued on following page)
Cyclic Neutropenia: Amplification of Granulocyte Oscillations by Lithium and Long-Term Suppression of Cycling by Plasmapheresis................. Gustav K. von Schulthess, Jörg Fehr, and Clemens Dahinden 320

Use of an Antibody--Ricin A-Chain Conjugate to Delete Neoplastic B Cells From Human Bone Marrow Michael Muirhead, Paul J. Martin, Beverly Torok-Storb, Jonathan W. Uhr, and Ellen S. Vitetta 327

The Endotoxin-Induced Procoagulant of Mouse Exudate Macrophages: A Factor-X Activator

J. W. Shands, Jr. 333

δ'-Thalassemia in Sardinia.......................... Mario Pirastu, Renzo Galanello, Maria Antonietta Melis, Carlo Brancati, Antonio Tagarelli, Antonio Cao, and Yuet Wai Kan 341

Comparison of Thrombin and Ristocetin in the Interaction Between von Willebrand Factor and Platelets

Robert L. Harrison and Patrick A. McKee 346

Alloimmunization Prevents the Migration of Transfused Indium-111-Labeled Granulocytes to Sites of Infection .................. Janice P. Dutcher, Charles A. Schiffer, Gerald S. Johnston, Dottie Papenburg, Peter A. Daly, Joseph Aisner, and Peter H. Wiernik 354

5-Azacytidine Increases γ-Globin Synthesis and Reduces the Proportion of Dense Cells in Patients With Sickle Cell Anemia..................... Timothy J. Ley, Joseph DeSimone, Constance Tom Noguchi, Patricia H. Turner, Alan N. Schechter, Paul Heller, and Arthur W. Nienhuis 370

Allogeneic Bone Marrow Transplantation for Patients With Acute Lymphoblastic Leukemia

Robert Dinsmore, Dahlia Kirkpatrick, Neal Flomenberg, Subhash Gulati, Neena Kapoor, Brenda Shank, Ann Reid, Susan Groshen, and Richard J. O'Reilly 381

Proliferative Potential of Subpopulations of Granulocyte-Macrophage Progenitor Cells in Normal Subjects and Chronic Myelogenous Leukemia Patients .................. Annabel Strife, Caryl Lambek, David Wisniewski, Zalmen Arlin, Howard Thaler, and Bayard Clarkson 389

Reversal of Neutropenia With Intravenous Gammaglobulin in Autoimmune Neutropenia of Infancy

The Human T-Cell Leukemia/Lymphoma Virus Associated With American Adult T-Cell Leukemia/Lymphoma ................... Douglas W. Blayney, Elaine S. Jaffe, William A. Blattner, Jeffrey Cossman, Marjorie Robert-Guroff, Dan L. Lonyo, Paul A. Bunn, Jr., and Robert C. Gallo 401

Inhibition of Erythroid Colony Formation by Autologous Bone Marrow Adherent Cells From Patients With the Anemia of Chronic Disease .................................. G. David Roodman, Victor W. Horadram, and Terry L. Wright 406

Initial Chemotherapy for Clinically Localized Lymphomas of Unfavorable Histology

Thomas P. Miller and Stephen E. Jones 413

Deoxyribonucleoside Triphosphate Accumulation by Leukemic Cells...................... Beverly S. Mitchell, N. Lawrence Edwards, and Charles A. Koller 419

(Continued on following page)
CONTENTS

(Contents continued)

Hereditary Dysfibrinogenemia in a Patient With Thrombotic Disease
Nadia Carrell, Don A. Gabriel, Philip M. Blatt, Marcus E. Carr, and Jan McDonagh 439

Activation of Factor XII by Dextran Sulfate: The Basis for an Assay of Factor XII
Donald L. Tankersley, Barbara M. Alving, and J. S. Finlayson 448

Characterization of the Procoagulant Chain Derived From Human High Molecular Weight Kininogen
(Fitzgerald Factor) by Human Tissue Kallikrein Manfred Maier, K. Frank Austen,
and Jocelyn Spragg 457

The Immunologic and Clinicopathologic Heterogeneity of Cutaneous Lymphomas Other Than Mycosis
Fungoides Gary S. Wood, Jerome S. Burke, Sandra Horning, Reuben S. Doggett, Ronald Levy,
and Roger A. Warnke 464

Delayed Alloimmunization Using Random Single Donor Platelet Transfusions: A Prospective Study in
Thrombocytopenic Patients With Acute Leukemia Jürg Gmüer, Arthur von Felten,
Bruno Osterwalder, Hanspeter Honegger, Andreas Hörmann, Christian Sauter, Kurt Deubelbeiss,
Willi Berchtold, Marc Metaxas, Giancarlo Scali, and Paul G. Frick 473

Intravenous Gammaglobulin Treatment of Chronic Idiopathic Thrombocytopenic Purpura
James B. Bussel, Robert P. Kimberly, Robert D. Inman, Irving Schulman, Charlotte
Cunningham-Rundles, Naikon Cheung, Elizabeth M. Smithwick, Joseph O’Malley, Sylvia
Barandun, and Margaret W. Hilgartner 480

Platelet Size Does Not Correlate With Platelet Age Craig B. Thompson, Donald G. Love,
Patrick G. Quinn, and C. Robert Valeri 487

Differentiation of Chronic Lymphocytic Leukemia Cells: Correlation Between the Synthesis and
Secretion of Immunoglobulins and the Ultrastructure of the Malignant Cells
A. Rubartelli, R. Sitia, A. Zicca, C. E. Grossi, and M. Ferrarini 495

CONCISE REPORTS

Neutral Maltase: The First Human B-Cell Enzymatic Marker Reflecting Terminal Differentiation of
Mature B Cells Into Plasma Cells Patrick J. M. Philip, Jean Giudicelli, Pascale Delquè,
Jill-Patrice Cassuto, Pierre Sudaka, and Noël Ayraud 505

All manuscripts submitted for consideration for publication in BLOOD should be
sent to: John W. Adamson, M.D., Editor, BLOOD, University District Building—
Room 320, 1107 N.E. 45th Street, Seattle, WA 98105.

(Continued on page ix)
The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of the American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for publication in BLOOD.

- All shipments are packed with dry ice in styrofoam boxes. (Handling Charge for orders under $250.00).
- Shipments within the United States are delivered within 24 hours.
- Plasma can be aliquoted in any amount up to 5 ml at an additional charge of $ .50 per vial.
- Special discount prices upon request for standing orders or large volumes.

*Also available* — • FACTORS I, II, V, VII, IX, X, XIII • FACTORS VIII or IX with inhibitor

**Prekallikrein Deficient** • **Von Willebrand** • **Passavoy Trait** • **Kininogen Deficient**

Normal Reference Human Plasma
