CONTENTS

BLOOD

The Journal of
The American Society of Hematology

VOL 65, NO 1 JANUARY 1985

CONTENTS

Brief Review: Molecular Basis of Human B Cell Neoplasia.............. Carlo M. Croce and Peter C. Nowell 1

Killer Cell Activity of Human Monoblastic Leukemia Cells as Detected With a Monocyte-Specific
Target Cell ........................................... H.W. Loms Ziegler-Heitbrock, Reinhold Munker,
Eckhard Thiel, Irene Krebs, and Gert Riethmüller 8

Neonatal Purpura Fulminans: A Genetic Disorder Related to the Absence of Protein C in Blood
Ewa Marciniak, H. David Wilson, and Richard A. Marlar 15

Human Acute Leukemia Cell Line With the t(4;11) Chromosomal Rearrangement Exhibits B Lineage
and Monocytic Characteristics .................................. Robin C. Stong, Stanley J. Korsmeyer,
Janet L. Parkin, Diane C. Arthur, and John H. Kersey 21

Plasmin Effect on Platelet Glycoprotein Ib-von Willebrand Factor Interactions
Burt Adelman, Alan D. Michelson, Joseph Loscalzo, Joshua Greenberg, and Robert I. Handin 32

A New Solid-Phase Immunoassay for Terminal Deoxynucleotidyl Transferase: Analysis of TdT Antigen
in Cells, Plasma, and Serum ..........Mary Sue Coleman, Michael L. Cibull, and George L. Manderino 41

The Heterozygous Form of 4.1(−) Hereditary Elliptocytosis [the 4.1(−) Trait] .................... N. Alloisio,
L. Morle, E. Dorleac, O. Gentilhomme, D. Bachir, D. Guetarni, P. Colonna, M. Bost, Z. Zouaoui,
L. Roda, D. Roussei, and J. Delaunay 46

Platelets Contain Proteins Immunologically Related to Red Cell Spectrin and Protein 4.1
Gregg E. Davies and Carl M. Cohen 52

Abnormal Megakaryocytopenia in the Belgrade Laboratory Rat ............ Zoran Rolovic, Tatjana Jovanovic,
Zivojin Stankovic, and Novica Marinkovic 60

Patients With a Deficiency of Natural Killer Cell Activity Lack the VEP13-Positive Lymphocyte
Subpopulation.................... H.W.L. Ziegler-Heitbrock, H. Rumpold, D. Kraft, C. Wagenpfeil,
R. Munker, T. Abo, C.M. Balch, and T.W. LeBien 65

Volume-Dependent Human Blood Polymorphonuclear Leukocyte Heterogeneity Demonstrated With
Counterflow Centrifugal Elutriation......................... Roger L. Berkow and Robert L. Baehner 71

Monocytes and Macrophages Synthesize and Secrete Thrombospondin ..................... Eric A. Jaffe,
Joseph T. Ruggiero, and Domenick J. Falcone 79

Von Willebrand Factor in the Vessel Wall Mediates Platelet Adherence.................. Herbert V. Stel,
Kjell S. Sakariassen, Philip G. de Groot, Jan A. van Mourik, and Jan J. Sixma 85

Abnormalities in Myelopoietic Regulatory Interactions With Acidic Isoferritins and Lactoferrin in Mice
Infected With Friend Virus Complex: Association With Altered Expression of Ia Antigens on
Effector and Responding Cells................................. Li Lu, Hal E. Broxmeyer, Malcolm A.S. Moore,
Alice P. Sheridan, and Patrick Gentile 91

Loss of Suppression of Normal Bone Marrow Colony Formation by Leukemic Cell Lines After
Differentiation Is Induced by Chemical Agents .................................. Howard N. Steinberg,
Asterios S. Tsiftsoglou, and Stephen H. Robinson 100

All manuscripts submitted for consideration for publication in BLOOD should be sent to: John W. Adamson, MD, Editor, BLOOD, University District Building—Room 320, 1107 NE 45th St, Seattle, WA 98105.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for publication in BLOOD.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of the American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
