CONTENTS

Review: Chromosomal Fragile Sites and Cancer-Specific Rearrangements ........................................... Michelle M. Le Beau 849

Macrophage Colony Formation Supported by Purified CSF-1 and/or Interleukin 3 in Serum-Free Culture: Evidence for Hierarchical Difference in Macrophage Colony-Forming Cells .......... Kenichi Koike, E. Richard Stanley, James N. Ihle, and Makio Ogawa 859

Myeloperoxidase Biosynthesis by a Human Promyelocytic Leukemia Cell Line: Insight Into Myeloperoxidase Deficiency ................................................................. William M. Nauseef 865

Isolation of Circumferential Microtubules From Platelets Without Simultaneous Fixation ............. James G. White, E. Radha, and Marlys Krumwiede 873

On the Interaction of Rabbit Antithrombin III With the Luminal Surface of the Normal and Deendothelialized Rabbit Thoracic Aorta In Vitro ..................................... Mark W.C. Hatton, Sue L. Moar, and Mary Richardson 878

Ionic Strength Dependence of the Polymer Solubilities of Deoxyhemoglobin S + C and S + A Mixtures Robert M. Bookchin and Tania Balazs 887

Separation of the Acetylcholinesterase-Deficient Red Cells in Paroxysmal Nocturnal Hemoglobinuria Feng-Lan Chow, Sharon E. Hall, Wendell F. Rosse, and Marilyn J. Telen 893

Analysis of Leukocyte Differentiation Antigens in Blood and Bone Marrow From Preleukemia (Refractory Anemia) Patients Using Monoclonal Antibodies ......................... Peter Hokland, Gitte Kerndrup, James D. Griffin, and Jørgen Ellegaard 898

Deficient Induction of Leukotriene Synthesis in Human Neutrophils by Lipoxygenase-Deficient Platelets Kenji Kanaji, Minoru Okuma, and Haruto Uchina 903

Chemoattractant-Mediated Stimulation of the Respiratory Burst in Human Polymorphonuclear Leukocytes May Require Appearance of Protein Kinase Activity in the Cells’ Particulate Fraction .......... Marilyn C. Pike, Laszlo Jakoi, Linda C. McPhail, and Ralph Snyderman 909

Partial Spectrin Deficiency In Hereditary Pyropoikilocytosis.............................................. Theresa L. Coetzer and Jiri Palek 919

Aggressive Natural Killer Cell Leukemia in an Adult With Establishment of an NK Cell Line Louis A. Fernandez, Barbara Pope, Christine Lee, and Ekram Zayed 925

Modulation of Neutrophil Oxidative Responses to Soluble Stimuli by Platelet-Activating Factor James C. Gay, Jeffrey K. Beckman, Karen A. Zaboy, and John N. Lukens 931

B Cell Growth Factor-Induced Proliferation of Hairy Cell Lymphocytes and Inhibition by Type I Interferon In Vitro Kathryn A. Paganelli, Sharon S. Evans, Tin Han, and Howard Ozer 937

Impaired Expression of Cell Surface Receptors for B Cell Growth Factor by Chronic Lymphocytic Leukemia B Cells Robert T. Perri 943

Effective January 1, 1986, all manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $30.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: John W. Adamson, MD, Editor, BLOOD, University District Building—Room 320, 1107 NE 45th St, Seattle, WA 98105.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for publication in BLOOD.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
