CONTENTS

Review: Thrombolytic Therapy in the Eighties ................................................................. Marc Verstraete and Désiré Colleyn 1529
Purification of Hageman Factor (Factor XII) on Columns of Popcorn-Agarose ................ Oscar D. Ratnoff, Barbara Everson, Virginia H. Donaldson and Bridget H. Mitchell 1550
Carrier Detection in Hemophilia A: A Cooperative International Study. I. The Carrier Phenotype
John B. Graham, Charles R. Rizza, Juan Chediak, Piero Mannuccio Mannucci, Ernest Brütt, Rolf Ljung,
Carol K. Kasper, E.M. Essien, and P.P. Green 1554
Carrier Detection in Hemophilia A: A Cooperative International Study. II. The Efficacy of a Universal Discriminant
Philip P. Green, Piero Mannuccio Mannucci, Ernest Brütt, Rolf Ljung, Carol K. Kasper, E.M. Essien,
Juan Chediak, Charles R. Rizza, and John B. Graham 1560
Defective Platelet-Fibrinogen Interaction in Hereditary Canine Thrombopathy ......................... James L. Catalfamo, Sharon L. Raymond, James G. White, and W. Jean Dodds 1568
Clinical and Phenotypic Diversity of T Cell Lymphomas ........................................ Sandra J. Horning, Lawrence M. Weiss,
Gertrude S. Crabtree, and Roger A. Warnke 1578
Monoclonal Antibodies to Human Vitamin K–Dependent Protein S ......................... Robert D. Litwiller, Richard J. Jenny,
Jerry A. Katzmann, Randall S. Miller, and Kenneth G. Mann 1583
Clinical Evaluation of Platelet Concentrates Stored for One to Five Days .................. Charles A. Schiffer, Edward J. Lee,
Paul M. Ness, and James Reilly 1591
Purification and Characterization of Human Platelet Glutathione-S-Transferase .................... Joseph Loscalzo and Jane Freedman 1595
Lymphocyte Subsets in Normal Bone Marrow ................................................ Pamela Clark, David E. Normansell, Donald J. Innes,
and Charles E. Hess 1600
The Regulatory Role of Interleukin 2–Responsive T Lymphocytes on Early and Mature Erythroid Progenitor
Proliferation .................................. Zeev Estrov, Chaim Roifman, Yao-Ping Wang, Tom Grunberger, Erwin W. Gelfand,
and Melvin H. Freedman 1607
Chromosomes With One, Two, Three, and Four Fetal Globin Genes: Molecular and Hematologic Analysis
A.V.S. Hill, D.K. Bowden, D.J. Weatherall, and J.B. Clegg 1611
T Cell–Derived Migration-Inhibitory Factor and Colony-Stimulating Factor Share Common Structural Elements
Tsutomu Kawaguchi, David W. Golde, Alma Mednis, Noelle Bersch, Steve Clark, and Heinz G. Remold 1619
Altered Oxidative Product Formation in Neutrophils of Patients Recovering From Therapy for Acute Leukemia
Bayard L. Powell, Patricia Olbrantz, Daphne Bicket, and David A. Bass 1624
Selective Inhibition of the Growth of Human Erythroid Bursts by Monoclonal Antibodies Against Transferrin or the
Transferrin Receptor ................................... Kevin M. Shannon, James W. Larrick, Samuel A. Fulcher, Kathy B. Burck,
John Pacely, Jack C. Davis, and David B. Ring 1631
Biology of Human Megakaryocyte Factor V ....................................... Alan M. Gewirtz, Michelle Keefer, Kundan Doshi,
Anjanayaki E. Annamalai, Hui Chong Chiu, and Robert W. Colman 1639
