CONTENTS

Brief Review: Subunit Assembly of Hemoglobin: An Important Determinant of Hematologic Phenotype
H. Franklin Bunn 1

Evidence for Chemical Differences in HLA-DR Molecules on Autologous Acute Lymphoblastic Leukemia and
B-Lymphoblastoid Cell Lines..................................................... Lynn Graf and John M. Pesando 7

Loss of Interleukin-2 Requirement for the Generation of T Colonies Defines an Early Event of Human
T-Lymphotropic Virus Type I Infection ....................................... Madeleine Duc Dodon and Louis Gazzolo 12

Human GM-CSF Primes Neutrophils for Enhanced Oxidative Metabolism in Response to the Major Physiological
Chemoattractants ................................................................. Richard H. Weisbart, Luz Kwan, David W. Golde, and Judith C. Gasson 18

Activation of Plasminogen by Single-Chain Urokinase or by Two-Chain Urokinase—A Demonstration That
Single-Chain Urokinase Has a Low Catalytic Ability (Pro-Urokinase)........ Ralph Pannell and Victor Gurewich 22

Topology and Order of Formation of Interchain Disulfide Bonds in von Willebrand Factor ........ Denisa O. Wagner,
Sarah O. Lawrence, Betsy O. Ohlsson-Wilhelm, Philip J. Fay, and Victor J. Marder 27

Regulation of Early Human Hematopoietic (BFU-E and CFU-GEMM) Progenitor Cells In Vitro by Interleukin
1–Induced Fibroblast-Conditioned Medium.............. James R. Zucali, Hal E. Broxmeyer, Charles A. Dinarello,
Mary Ann Gross, and Roy S. Weiner 33

Platelet Aggregation in Whole Blood From Patients With Glanzmann’s Thrombasthenia
Michael E. Burgess-Wilson, Stephen R. Cockbill, Geoffrey J. Johnston, and Stanley Hepinstall 38

Purification and Properties of Bacterially Synthesized Human Granulocyte-Macrophage Colony Stimulating Factor
Antony W. Burgess, C. Glenn Begley, Gregory R. Johnson, Angel F. Lopez, D. James Williamson,
Jean Jacques Mermod, Richard J. Simpson, Albert Schmitz, and John F. DeLamarter 43

New Abnormalities in the Morphology, Cell Surface Receptors, and Electrolyte Metabolism of In(Lu) Erythrocytes
Mark M. Udden, Masato Umeda, Yukiko Hirano, and Donald M. Marcus 52

Divalent Cation-Dependent and Independent Surface Expression of Thrombospondin on Thrombin-Stimulated
Human Platelets ................................................................. Martha L. Aiken, Mark H. Ginsberg, and Edward F. Plow 58

Preclinical Assessment of Purging With VP-16-213: Key Role for Long-Term Marrow Cultures
Brian H. Kushner, Jong-Hyo Kwon, Subhash C. Gulati and Hugo Castro-Malaspina 65

Induction of NK Activity in Large Granular Lymphocyte Leukemia: Activation With Anti-CD3 Monoclonal
Antibody and Interleukin 2 ............................................... Thomas P. Loughran, Jr, Kevin E. Draves, Gordon Starkebaum,
Pamela Kidd, and Edward A. Clark 72

Immunoglobulin and T Cell Receptor Gene Rearrangements in Human Lymphoma and Leukemia
Michael E. Williams, Donald J. Innes, Jr, Michael J. Borowitz, Mark A. Lovell, Steven H. Swerdlow,
Paul E. Hurtubise, Russell K. Brynes, Wing C. Chan, Gerald E. Byrne, Jr, Clarence C. Whitcomb,
and Christopher Y. Thomas, IV 79

Evidence Favoring Lineage Fidelity in Acute Nonlymphocytic Leukemia: Absence of Immunoglobulin Gene
Rearrangements in FAB Types M4 and M5 ............... S.P. Ackland, C.A. Westbrook, M.O. Diaz, M.M. Le Beau,
and J.D. Rowley 87

Treatment of Preleukemic Syndromes With Marrow Transplantation ........ Frederick R. Appelbaum, Rainer Storb,
Robert E. Ramberg, Howard M. Shulman, C. Dean Buckner, Reginald A. Clift, H. Joachim Deeg,
Alexander Fefer, Jean Sanders, Steven Self, Jack Singer, Patricia Stewart, Keith Sullivan,
Robert Witherspoon, and E. Donnall Thomas 92

(Continued on following page)
CONTENTS

Cytogenetic and Histologic Correlations in Malignant Lymphoma ......... Prasad R.K. Koduru, Daniel A. Filippa, Mark E. Richardson, Suresh C. Jhanwar, Seeita R. Chaganti, Benjamin Koziner, Bayard D. Clarkson, Philip H. Lieberman, and R.S.K. Chaganti

Identification and Characterization of a Differentiation-Specific Antigen on Normal and Malignant Murine Erythroid Cells............................... E. Rena Bacon and Arthur J. Sytkowski

Hydroxyurea-Induced Augmentation of Fetal Hemoglobin Production in Patients With Sickle Cell Anemia 
Samuel Charache, George J. Dover, Martha A. Moyer, and Jay W. Moore

Lithium Augments GM-CSA Generation in Canine Cyclic Hematopoiesis.... William P. Hammond, Elin R. Rodger, and David C. Dale

The Xerocytosis of Hb SC Disease ...................... Samir K. Ballas, James Larner, Eugene D. Smith, Saul Surrey, Elias Schwartz, and Eric F. Rappaport

7q32-q36 Translocations in Childhood T Cell Leukemia: Cytogenetic Evidence for Involvement of the T Cell Receptor β-Chain Gene ......Susana C. Raimondi, Ching-Hon Pui, Frederick G. Behm and Dorothy L. Williams

Different Stimulative Effects of Human Bone Marrow and Fetal Liver Stromal Cells on Erythropoiesis in Long-Term Culture ...................... Ineke Slaper-Cortenbach, Rob Ploemacher, and Bob Löwenberg

Factor IX As A: A Point Mutation in a Clotting Protein Results in Hemophilia B ....................... Lisa M. Davis, Royal A. McGraw, Jerry L. Ware, Harold R. Roberts, and Darrel W. Stafford

Inhibition of Hemoglobin Production by Transferrin-Gallium............ Christopher R. Chitambar and Zorica Zivkovic

Characterization of the Inhibition of Tissue Factor in Serum .............. George J. Broze, Jr and Joseph P. Mileitch

Association of Red Cell Spherocytosis With Deletion of the Short Arm of Chromosome 8 ........ Robert R. Chilcote, Michelle M. Le Beau, Carlton Dampier, Eugene Permagnet, Yury Verlinsky, Narla Mohandas, Henri Frischer, and Janet D. Rowley

Canine Pluripotent Hematopoietic Stem Cells and CFU-GM Express IA-like Antigens as Recognized by Two Different Class II–Specific Monoclonal Antibodies...............Friedrich Schuening, Rainer Storb, Sonora Goehrle, Joey Meyer, Theodore Graham, H. Joachim Deeg, and John Pesando

Interaction of Ristocetin and Bovine Plasma With Guinea Pig Megakaryocytes: A Means to Enrich Megakaryocytes Based on Membrane Rather Than Physical Characteristics.................... Carl W. Jackson, Shirley A. Steward, Nancy K. Hutson, and Richard A. Ashmun

Inhibition of Thromboxane Formation In Vivo and Ex Vivo: Implications for Therapy With Platelet Inhibitory Drugs Irene A.G. Reilly and Garret A. FitzGerald

Thrombocytopoietic Response to Immunothrombocytopenia in Nude Mice.........................Shirley Ebbe, Jack Levin, Kathleen Miller, Tamlyn Yee, Francine Levin, and Elizabeth Phalen

Studies on B Lymphoid Tumors Treated With Monoclonal Anti-idiotype Antibodies: Correlation With Clinical Responses..................... James N. Lowder, Timothy C. Meeker, Michael Campbell, Carlos F. Garcia, Julie Gralow, Richard A. Miller, Roger Warren, and Ronald Levy

Polymorphic Glycoprotein-1 on Mouse Platelets: Possible Role of Pgp-1 and LFA-1 in Antibody-Dependent Platelet Cytotoxicity Involving Complement....................... Peter J. McCaffery, An Seng Tan, and Michael V. Berridge

Cloning and Characterization of Platelet Factor 4 cDNA Derived From a Human Erythroleukemic Cell Line Mortimer Poncz, Saul Surrey, Paul LaRocco, Mitchell J. Weiss, Eric F. Rappaport, Theresa M. Conway, and Elias Schwartz

Advertisers’ Index ....................................................................................................... xxxi

Effective January 1, 1987, all manuscripts submitted to BLOOD and subsequently accepted for
publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the
increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: John W.
Adamson, MD, Editor, BLOOD, University District Building—Room 410, 1107 NE 45th St, Seattle,
WA 98105. Telephone: (206) 545-8080.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for
publication in BLOOD.

The American Society of Hematology certifies that the continuing medical education offering
provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up
to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical
Association.
