CONTENTS

Antiidiotypic IgG Crossreactive With Rh Alloantibodies in Red Cell Autoimmunity ....... S.P. Masouredis, M.J. Branks, and E.J. Victoria 710

Analysis of Hemoglobin F Production in Saudi Arabian Families With Sickle Cell Anemia .......... Barbara A. Miller, Mohammed Salameh, Mohammed Ahmed, Nancy Olivieri, Giovanna Antongietti, Stuart H. Orkin, Titus H.J. Huismans, and David G. Nathan 716

Extracellular Matrix of Cultured Bovine Aortic Endothelial Cells Contains Functionally Active Type I Plasminogen Activator Inhibitor ........................................... Jun Mimuro, Raymond R. Schleef, and David J. Loskutoff 721

Regulated Expression of Amplified Human β Globin Genes ....................... Deborah Rund, Carl Dobkin, and Arthur Bank 733

Abnormal Stimulated Adherence of Neonatal Granulocytes: Impaired Induction of Surface MAC-1 by Chemotactic Factors or Secretagogues .......................... Donald C. Anderson, Katherine L. Becker Freeman, Barbara Heerdt, Bonnie J. Hughes, Richard M. Jack, and C. Wayne Smith 740

ADP-Induced Platelet Shape Change and Mobilization of Cytoplasmic Ionized Calcium Are Mediated by Distinct Binding Sites on Platelets: 5'-p-Fluorosulfonylbenzoyladenosine Is a Weak Platelet Agonist ........ A. Koneti Rao and Maria A. Kowalska 751

Molecular Determinants of Clinical Expression of Hereditary Elliptocytosis and Pyropoikilocytosis Theresa Coetzer, Jack Lawler, Josef T. Prchal, and Jiri Palek 766

Effect of Warfarin on Prothrombin Synthesis and Secretion in Human HEP G2 Cells ............... Simon Karpatkin, Thomas H. Finlay, Anita L. Ballesteros, and Margaret Karpatkin 773

Long Lasting IgG Subclass and Antibacterial Polysaccharide Antibody Deficiency After Allogeneic Bone Marrow Transplantation .................... Pierre Aucourtier, Anne Barra, Lillian Intrator, Catherine Cordonnier, Dominique Schulz, Françoise Durarte, Jean-Paul Vernant, and Jean-Louis Preud’homme 779

1986 Update of HIV Seroprevalence, Seroconversion, AIDS Incidence, and Immunologic Correlates of HIV Infection in Patients With Hemophilia A and B .......... Margaret V. Ragni, Alan Winkelstein, Larry Kingsley, Joel A. Spero, and Jessica H. Lewis 786

Biotinylated Erythrocytes: In Vivo Survival and In Vitro Recovery ................ Takashige Suzuki and George L. Dale 791

Direct Evidence for the Interaction of the Nucleotide Affinity Analog 5'-p-Fluorosulfonylbenzoyladenosine With a Platelet ADP Receptor ....................... William R. Figures, L. Marie Searce, Patricia DeFeo, Gwendolyn Stewart, Fengxin Zhou, John Chen, James Daniel, Roberta F. Colman, and Robert W. Colman 796

Ca2+ Permeability and Cytosolic Ca2+ Concentration Are Not Impaired In β-Thalassemic and Hemoglobin C Erythrocytes ........................................... M.D. Rhoda, F. Galacteros, Y. Beuzard, and F. Giraud 804

A δ-Globin Gene Derived From Patients With Homozygous δβ-Thalassemia Functions Normally on Transient Expression in Heterologous Cells .................... Takanori Nakamura, Yoshihiro Takihara, Yoshiro Ohta, Shigeru Fujita, Yasuyuki Takagi, and Yasuyuki Fukumaki 809

Phenotypic Similarities and Differences Between CALLA-Positive Acute Lymphoblastic Leukemia Cells and Normal Marrow CALLA-Positive B Cell Precursors ......................... Daniel H. Ryan, Charles W. Chapple, Stuart A. Kossover, Avery A. Sandberg, and Harvey J. Cohen 814

Serum Immunoreactive Erythropoietin in Children With Cyanotic and A cyanotic Congenital Heart Disease Per Hågã, P. Mary Cotes, Janice A. Till, Barbara D. Minty, and Elliot A. Shinebourne 822

Effect of Calcium Ion Concentration on the Ability of Fibrinogen and von Willebrand Factor to Support the ADP-Induced Aggregation of Human Platelets ........ E.J. Harfenist, M.A. Packham, R.I. Kinlough-Rathbone, M. Cattaneo, and J.F. Mustard 827

(Continued on following page)
Selective Uptake of [3H] Arachidonic Acid Into the Dense Tubular System of Human Platelets..... Michael Laposata, Charles M. Krueger, and Jeffrey E. Saffitz 832

Studies With a Monoclonal Antibody Against Activated Platelets: Evidence That a Secreted 53,000-Molecular Weight Lysosome-like Granule Proteine Is Exposed on the Surface of Activated Platelets in the Circulation H. Karel Nieuwenhuis, Joep J.G. van Oosterhout, Erik Rozemuller, Freek van Iwaarden, and Jan J. Sixma 838

The Regulation of Human Factor V by a Neutrophil Protease............................ Adrian M. Oates and Hatem H. Salem 846

Regulation of Transferrin Receptor Expression in Myeloid Leukemia Cells............ Raymond Taetle, Steven Ralph, Shelly Smedsrud, and Ian Trowbridge 852

Neutrophil Elastase Produces 52-kD and 30-kD Glucocorticoid Receptor Fragments in the Cytosol of Human Leukemia Cells ....................................................... Clark W. Distelhorst, Karen E. Janiga, Kathryn J. Howard, Sarah E. Strandjord, and Edward J. Campbell 860

CONCISE REPORTS

High-Dose Chemoradiotherapy and Autologous Bone Marrow Transplantation for Resistant Multiple Myeloma Bart Barlogie, Raymond Alexanian, Karel A. Dicke, Gunar Zagars, Gary Spitzer, Sundar Jagannath, and Leonard Horwitz 869

Molecular Analysis of Relapse in Chronic Myeloid Leukemia After Allogeneic Bone Marrow Transplantation T.S. Ganesan, Gao Ling Min, J.M. Goldman, and B.D. Young 873

Unrelated Donor Bone Marrow Transplantation Therapy for Chronic Myelogenous Leukemia .......... Philip McGlave, Edward Scott, Norma Ramsay, Diane Arthur, Bruce Blazar, Jeffrey McCullough, and John Kersey 877

Molecular Genetic Rearrangements Distinguish Pre- and Post-Bone Marrow Transplantation Lymphoproliferative Processes ......................... Wesley J. Miller, Ralph S. Shapiro, Rogelio Gonzalez-Sarmiento, and John H. Kersey 882

Information for Contributors .................................................................................. xxix, xxx
Effective January 1, 1987, all manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: John W. Adamson, MD, Editor, BLOOD, University District Building—Room 410, 1107 NE 45th St, Seattle, WA 98105. Telephone: (206) 545-8080.

Please note that a processing fee of $50.00 must accompany each manuscript submitted for publication in BLOOD.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician's Recognition Award of the American Medical Association.
