ANNOUNCEMENTS

XIIth CONGRESS OF THE INTERNATIONAL SOCIETY ON THROMBOSIS AND HEMOSTASIS

August 19-25, 1989
Keio Plaza Inter-Continental Hotel
Shinjuku, Tokyo, Japan

For more information, please contact: Professor Takeshi Abe, XIIth Congress of the International Society on Thrombosis and Hemostasis, Teikyo University School of Medicine, 2-11-1, Kaga, Itabashi-ku Tokyo 173, Japan. Telephone: 03-964-1211. Facsimile: 03-962-4033.

TUTORIAL ON NEOPLASTIC HEMATOPATHOLOGY

February 6-10, 1989
Universal Sheraton Hotel, Universal City, CA

The tutorial, sponsored by the University of Minnesota, Department of Laboratory Medicine and Pathology, will be under the direction of Dr Richard Brunning. The program will consist of lectures and workshops. The registration fee (excluding meals and lodging) is $900.00

For further information, please contact: Claude M. Weil, Tutorial Administrator, c/o International House of Chicago, 1414 E 59th St, Chicago, IL 60637. Telephone: (312) 753-2277.

BAYLOR UNIVERSITY MEDICAL CENTER PRESENTS THIRD ANNUAL CONFERENCE

ONCOLOGY PRACTICE 1989: A PERSPECTIVE ON BREAST CANCER

January 29-February 3, 1989
Snowmass, Colorado

For further information, please contact: Stephen E. Jones, MD, Charles A. Sammons Cancer Center, Room 4800, Baylor University Medical Center, 3500 Gaston Ave, Dallas, Texas 75246. Telephone: (214) 820-2021.

HEMATOLOGY BOARD REVIEW COURSE

October 19-23, 1988
Washington, DC

This comprehensive review and update of hematology will include: red cell disorders, coagulopathies and anticoagulant therapy, hematologic malignancies, review of blood and marrow morphology and hematopathology, immunohematology, bone marrow transplantation, hematopoietic growth factors, and strategies for examination.

For more information, please contact: The George Washington University Office of Continuing Medical Education, 2300 K St, NW, Washington, DC 20037. Telephone: (202) 994-4285.
1989 UCLA SYMPOSIA ON MOLECULAR AND CELLULAR BIOLOGY

CELLULAR AND MOLECULAR BIOLOGY OF NORMAL AND ABNORMAL ERYTHROID MEMBRANES

February 3-10, 1989
Taos, New Mexico

HEMATOPOIESIS

February 20-26, 1989
Tamarron, Colorado

Applications will be accepted at any time for meetings that are not oversubscribed. For further information or application forms, please contact: The UCLA Symposia, 2032 Armacost Ave, Los Angeles, CA 90025. Telephone (213) 207-5042; Facsimile (213) 207-2397.

THIRD INTERNATIONAL CONFERENCE ON MEGAKARYOCYTES
MEGAKARYOCYTES: CELLULAR AND MOLECULAR BIOLOGY

July 24-27, 1989
Dijon, France

The conference will cover cell aspects of human and animal megakaryocytopenesis, including gene expression and phenotypic changes leading to the acquisition of platelet characteristics, normal and pathologic megakaryocyte maturation, and studies on megakaryocytic cell lines.

There will be state of the art invited lectures, workshops, and poster sessions.
Organizing committee: J. Breton-Gorius (France), R. Levine (USA), J. Martin (UK), A. Nurden (France), J.M. Paulus (Belgium), and W. Vainchenker (France).
For further information, please contact: J. Breton-Gorius, INSERM U.91 Hôpital Henri Mondor, 94010 Créteil France. Telephone:33.14.49.81.35.67.

AMERICAN BOARD OF INTERNAL MEDICINE

1989 SUBSPECIALTY EXAMINATIONS IN MEDICAL ONCOLOGY AND CRITICAL CARE MEDICINE

For further information and application forms, please contact: Registration Section, American Board of Internal Medicine, 3624 Market St, Philadelphia, PA 19104. Telephone (215) 243-1500.
SUMMARY OF PROGRAM

Saturday, December 3
Morning: EDUCATION PROGRAM
  Acute Leukemia
  AIDS
  Anemia
  Biological Response Modifiers
  Bleeding Disorders
  Chronic Leukemias
  Growth Factors
  Hodgkins Disease
  Marrow Transplantation—sponsored by Cutter Biological
  Molecular Genetics
  Oncogenes
  Pediatric Hematology
  Platelets
  Thrombotic Disorders

Afternoon: EDUCATION PROGRAM
  Anemia
  Biological Response Modifiers
  Bleeding Disorders
  Endothelial Cells
  Grants Workshop
  Ham Wasserman Lecture
  Hemoglobinopathies
  Molecular Genetics
  Thrombotic Disorders
  Transfusion Medicine
  Viruses in Hematology

SCIENTIFIC SUBCOMMITTEE SYMPOSIA
  Scientific Subcommittee on Hemostasis
  Scientific Subcommittee on Immunohematology
  Scientific Subcommittee on Neoplasia
  Scientific Subcommittee on Pediatric Hematology
  Scientific Subcommittee on Platelets

FORUM ON THE PRACTICE OF HEMATOLOGY
COMMITTEE ON CLINICAL LABORATORY STANDARDS

Evening:
  Welcome Reception sponsored in part by AmGEN, Bristol Meyers, Genentech

Advances in Chemotherapy for Hodgkins and Non-Hodgkins Lymphomas sponsored by Bristol Meyers

The Hematologic Implications of Thrombolytic Therapy sponsored by Genentech

Clinical Applications of Hematopoietic Growth Factors sponsored by AmGEN

Treating Reactivated Herpes Virus Infection in Immuno-compromised Patients sponsored by Burroughs Wellcome

Sunday: December 4
Morning: EDUCATION PROGRAM
  Acute Leukemia
  AIDS
  Chronic Leukemias
  Endothelial Cells
  Growth Factors
  Hemoglobinopathies
  Hodgkin's Disease
  Marrow Transplantation—sponsored by Cutter Biological
  Oncogenes
  Pediatric Hematology
  Platelets
  Transfusion Medicine
  Viruses in Hematology

SCIENTIFIC SUBCOMMITTEE SYMPOSIA
  Scientific Subcommittee on Hematopoietic Growth Factors
  Scientific Subcommittee on Hemoglobin/Red Cell
  Scientific Subcommittee on Thrombosis
  Scientific Subcommittee on Transfusion Medicine

Afternoon: FIRST BUSINESS MEETING
  President’s Report to the Society

Simultaneous Scientific Sessions-Scientific Poster Sessions

Monday, December 5
Morning—Simultaneous Scientific Sessions-Scientific Poster Sessions

Afternoon—Simultaneous Scientific Sessions-Scientific Poster Sessions

Tuesday, December 6
Morning
  Presidential Symposium
  Stratton Lecture
  Dameshek Award
  General Business Meeting
  Scientific Poster Sessions

Afternoon—Mini-Plenary Sessions

To order subscriptions, write to Subscription Orders, Grune & Stratton, Inc., PO Box 6209, Duluth, MN 55806-0209.

* To order subscriptions, write to Subscription Services, W.B. Saunders Company, The Curtis Center, Independence Square West, Philadelphia, PA 19106-3399.
BLOOD CENTER DIRECTORS AND MEDICAL DIRECTORS

The American Red Cross Blood Services has a continuous need for physicians to fill positions of directors, medical directors, and associate/assistant medical directors in its network of 56 regional blood centers. For information about current employment opportunities send your inquiry, CV and list of references to Kris Murawski, MD, American Red Cross Blood Services National Headquarters, 17th & E Streets, NW, Washington, DC 20006, phone (202) 639-3634.

ASSOCIATE MEDICAL DIRECTOR

Large academically oriented Blood Center, with many innovative programs including Pheresis program, AABB accredited Reference Lab, HLA Lab, Tissue Bank and participation in National Bone Marrow Registry has current opening for Associate Medical Director. Appointment to faculty of University of Connecticut Health Center is expected and full participation in Laboratory Medicine teaching. Significant opportunity for research collaboration. Must be BC/BE in Medicine, Pathology, Pediatrics or other primary medical specialty with 1 year blood banking training and 2 years post residency experience in large transfusion service or blood center setting. Prefer candidates who have Blood Bank certification. Salary commensurate with qualifications and experience. Send CV to Ritchard G. Cable, M.D., Medical Director, American Red Cross CT Regional Blood Services, 209 Farmington Ave, Farmington, CT 06032.

ONCOLOGIST NEEDED

BC/E, for excellent opportunity to establish private practice with no investment, guaranteed income. Growing service area population now 90,000. 112 bed full service hospital. Some Internal Medicine necessary initially.

Located in Central California, Tulare offers family oriented environment, abundant outdoor recreation, beautiful homes attractively priced, good schools, restaurants and shopping. A steady growth community with easy access to all California attractions.

Interested candidates are invited to send curriculum vitae or call:

Tulare District Hospital
PHYSICIAN RECRUITING OFFICE
P.O. Box 90112 Los Angeles, CA 90009
(213) 216-2687

William Cooper Procter PEDIATRIC RESEARCH SCHOLARS

The trustees of the Cincinnati Children's Hospital Research Foundation have established the William Cooper Procter pediatric research scholarships to support intensive, laboratory based research training for pediatricians. The goal is to train research oriented faculty for pediatric departments. Three three-year awards are planned for 1989 with stipends of $40,000 to $45,000 per year depending upon level. Applicants should have completed both a three year pediatric residency and the clinical portion of a subspecialty fellowship. Research will be conducted in established laboratories of Cincinnati Children's Hospital Research Foundation. Application deadline is November 1, 1988 for awards to be activated July 1, 1989.

For information: Dr. John J. Hutton, William Cooper Procter Research Awards, Children's Hospital Research Foundation, Elliland and Bethesda Avenues, Cincinnati, Ohio 45229. Telephone: 513-559-4544.
CLINICAL SERVICE PHYSICIAN: BLOOD BANK-IMMUNOLOGY
University of California, San Francisco

The Department of Laboratory Medicine, University of California, San Francisco is seeking to recruit a physician with experience in Transfusion Medicine and Immunology to provide clinical services for an established Transfusion Medicine program. This appointment will be at the Instructor or Assistant Professor level in the Clinical Laboratory Medicine series. The incumbent will assist in direction of the UCSF Blood Bank and the Moffitt Hospital blood donor facility. As part of this function, the incumbent will provide consultation in transfusion medicine to physicians and will participate in the support of established liver and bone marrow transplant programs. The incumbent will participate in the management of the Transfusion Safety Study (TSS). This activity requires design and performance of clinical correlation studies within the scope of the TSS program and participation in local and national cooperative studies under the auspices of the TSS program. The TSS project is a NIH funded multi-center program to study the transmission of HIV from infected subjects to family and household contacts. The incumbent will provide scientific supervision for the clinical immunology flow cytometry laboratory, which performs a wide range of cellular immunologic tests. The incumbent will be directly involved in teaching fellows, residents, and medical students in the course of both the blood banking and immunology activities. The incumbent will work closely with the directors of the Blood Bank and Immunology Services within the Clinical Laboratories of the Department of Laboratory Medicine.

Interested candidates should submit letters and curriculum vitae to Dr. Laurence Corash, Hematology Section, Clinical Laboratories, Department of Laboratory Medicine, Box 0100, University of California, San Francisco, CA 94143. The University of California, San Francisco, is an equal opportunity/affirmative action employer. Women and minorities are encouraged to apply.

FELLOWSHIP(S) IN MARROW TRANSPLANTATION

The Medical College of Wisconsin is seeking applicants for academic training in laboratory and clinical research in marrow transplantation. Opportunities exist for individuals who have completed one, two or more years of Hematology/Oncology Fellowship interested in further specific training in marrow transplantation, or for individuals seeking an integrated three year experience in Hematology/Oncology and transplantation. A multidisciplinary faculty provides opportunities for: 1) clinical training in allogeneic and autologous transplantation for both pediatric and adult patients, with special expertise in alternative donor transplantation, transfusion medicine, immunohematology, and viral and other infectious disease research for immuno-compromised patients; 2) advanced biostatistical training for outcome analyses in marrow transplantation; and, 3) transplant-related laboratory research, including clonal regulation of GVH, GVL and HVG responses in animals and man; the biology of immunoreconstitution; immunogenetic analysis by advanced cellular, serologic, and molecular technology; in vitro hematopoiesis, cellular proliferation and receptor biology; monoclonal antibody and photochemical treatments for T-depletion and tumor cell purging; and photobiology. Developmental programs in adoptive cellular immunotherapy for allogeneic and autologous transplantation and in hemopoietin and lymphokine augmentation of marrow recovery provide additional opportunities. Positions are available to start January '89, July '89 and July '90. Interested individuals should reply by letter with a CV to:

Robert C. Ash, M.D.
Director, Bone Marrow Transplant Program
Medical College of Wisconsin
8700 W. Wisconsin Avenue
Milwaukee, WI 53226

4th International Workshop and Conference on Human Leukocyte Differentiation Antigens

The final Conference on the presently ongoing Workshop will be held in Vienna from

February 21-25, 1989
Abstract Deadline: November 1, 1988

CAUTION: For research use only in laboratory animals or in vitro testing. Not for diagnostic or human use.
The first choice in FDP testing.

When you must know if the clotting cycle is abnormal... Thrombo-Wellcotest®

Quality performance—a welcome advantage.
Because fast, accurate diagnostic information can be a critical aid in preventing serious thrombotic disorders or complications, THROMBO-WELLCOTEST offers important advantages in routine or stat situations.

☐ Clear, easy-to-interpret reactions.
☐ Works with either serum or urine—gives you dependable results.
☐ Familiar, simple procedure is easy to perform, requires no specialized equipment.
☐ Proven technology gives you confidence in detecting fibrin monomers and all four fragments—X, Y, D, and E.

**Thrombo-Wellcotest**
Rapid latex test for detection of fibrinogen degradation products
