REVIEW ARTICLES

Perspective: Glucose-6-Phosphate Dehydrogenase: New Perspectives .................................................. E. Beutler 1397
Review: Gene Rearrangements and Translocations in Lymphoproliferative Diseases .......... H. Griesser, D. Tkachuk, M.D. Reis, and T.W. Mak 1402

RAPID COMMUNICATIONS

Absence of Both the 91kD and 22kD Subunits of Human Neutrophil Cytochrome b in Two Genetic Forms of Chronic Granulomatous Disease .......... C.A. Parkos, M.C. Dinauer, A.J. Jesaitis, S.H. Orkin, and J.T. Curnutte 1416
Demonstration of Single Chain Urokinase-Type Plasminogen Activator on Human Platelet Membrane ....... S. Park, L.A. Harker, U.M. Marzec, and E.G. Levin 1421

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

Favorable Response of Early Stage B CLL Patients to Treatment With IFN-α2 ............ H.W.L. Ziegler-Heitbrock, R. Schlag, D. Flieger, and E. Thiel 1426
Effects of CAMPATH-1 Antibodies In Vivo in Patients With Lymphoid Malignancies: Influence of Antibody Isotype ................................................................. M.J.S. Dyer, G. Hale, F.G.J. Hayhoe, and H. Waldmann 1431
Very Low Dose α-2b Interferon for the Treatment of Hairy Cell Leukemia ................. J.A. Thompson, P. Kidd, E. Rubin, and A. Fefer 1440

HEMATOPOIESIS

The Effect of Recombinant Erythropoietin on Intracellular Free Calcium in Erythropoietin-Responsive Cells S. Imagawa, B.R. Smith, R. Palmer-Crocker, and H.F. Bunn 1452
Myelostimulatory Activity of Recombinant Human Interleukin-2 in Mice .... J.E. Talmadge, M. Schneider, J. Keller, F. Ruscetti, D. Longo, R. Pennington, O. Bowersox, and H. Tribble 1458
Myeloid Growth Factor(s) Regulation of Ornithine Decarboxylase: Effects of Antiproliferative Signals Interferon-γ and cAMP ......................................................... W.L. Farrar and A. Harel-Bellan 1468
Nonneoplastic Hematopoietic Myeloproliferative Syndrome Induced by Dysregulated Multi-CSF (IL-3) Expression J.M. Chang, D. Metcalf, R.A. Lang, T.J. Gonda, and G.R. Johnson 1487
Cloning of cDNA Coding for Connective Tissue Activating Peptide III From a Human Platelet-Derived A2f11 Expression Library ............................................. R.H. Wenger, A.N. Wicki, A. Walz, N. Kieffer, and K.J. Clementson 1498
Human Interleukin-5 (IL-5) Regulates the Production of Eosinophils in Human Bone Marrow Cultures: Comparison and Interaction With IL-1, IL-3, IL-6, and GMCSF .......... E.J. Clutterbuck, E.M.A. Hirst, and C.J. Sanderson 1504

Information for Contributors

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: Arthur W. Nienhuis, M.D., Editor, BLOOD, The Journal of the American Society of Hematology, 9650 Rockville Pike, Bethesda, MD 20814. For other information, call (301) 571-1895.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
