ANNOUNCEMENTS

NEW SOLUTIONS TO OLD PROBLEMS IN SURGICAL PATHOLOGY

September 25-27, 1989
Washington DC Area

The three day program will address difficult or evolving areas of surgical pathology, and will focus on areas that often pose diagnostic difficulty. New techniques applicable to the general surgical pathology laboratory will be presented, and clinico-pathologic correlations of morphologic diagnoses will be stressed. Participants will receive a syllabus containing lecture outline material and references. The program is designed for pathologists at the senior resident and practitioner levels. Twenty-one hours AMA Category I credit.

For further information or brochure, please contact: Surgical Pathology, c/o FAES, One Cloister Ct, Bethesda, MD 20814-1460. Telephone: (301) 496-7975.

POSTDOCTORAL FELLOWSHIPS IN APLASTIC ANEMIA RESEARCH

Aplastic Anemia Foundation of America

The Aplastic Anemia Foundation has established Postdoctoral Fellowship Awards to encourage young researchers and recognize their contributions to research related to aplastic anemia. On February 15, 1990, one-to-two awards of $25,000 will be made for postdoctoral fellowships to begin in July 1990. The deadline for receipt of the completed application package is December 29, 1989.

For information concerning eligibility criteria and application forms, please contact: Postdoctoral Fellowship Award, Aplastic Anemia Foundation, PO Box 22689, Baltimore, MD 21203.

MEDICAL ONCOLOGY BOARD REVIEW

October 15-19, 1989
Washington, DC

This comprehensive review and update of medical oncology will include: epidemiology; medical complications of malignancy; hematologic malignancies; lung cancer; breast cancer; gastrointestinal cancer; genito-urinary and gynecologic malignancies; and AIDS and the oncologist.

For more information, please contact: Daniel E. Reichard, The George Washington University Medical Center, Office of CME, 2300 K St NW, Washington, DC 20037. Telephone: (202) 994-4285.

BLOOD CELL GROWTH FACTORS:
THEIR BIOLOGY AND CLINICAL APPLICATIONS

October 8-12, 1989
Capri, Italy

Thirty invited research leaders will present their latest results. Discussions will focus on the challenges of bringing these cytokines from the bench to the clinic. Proceedings will be published by the International Journal of Cell Cloning, January 1990.

Participation is limited.

ANNOUNCEMENTS

AMERICAN SOCIETY OF HEMATOLOGY
31ST ANNUAL MEETING
December 2-5, 1989
Inforum Convention Center/Marriott Marquis Hotel
Atlanta

The Thirty-First Annual Meeting of the American Society of Hematology will be held at the Inforum Convention Center and Marriott Marquis Hotel, Atlanta, GA, December 2-5, 1989. Programs by the Education Committee and the Scientific Subcommittees will be held on Saturday, December 2, and Sunday, December 3. The Presidential Symposium and Stratton Lecture will be Tuesday morning, December 5. Mini-plenary sessions will be held on Sunday afternoon. Selected papers submitted to the meeting will be presented either in oral or poster sessions beginning on Saturday, December 2.

The abstract deadline for contributed papers is August 24, 1989. Abstract forms may be obtained from SLACK Incorporated (address below). Subsequent issues of BLOOD will contain details of the Educational and Subcommittee Programs and the Presidential Symposium, in addition to information about registration for the meeting. Preregistration material will be sent early this fall to members. If you do not receive your meeting information by October 6, 1989, please contact the Registration Supervisor at SLACK Inc, 6900 Grove Rd, Thorofare, NJ 08086-9447, (609) 848-1000. Nonmembers wishing to receive preregistration information and forms should also contact SLACK Incorporated.

HOUSING ARRANGEMENTS FOR THE 1989 ANNUAL MEETING OF THE AMERICAN SOCIETY OF HEMATOLOGY

Multiple hotels will be utilized in Atlanta, GA, to house convention registrants for the annual meeting of the American Society of Hematology to be held December 2-5, 1989. Accommodations will be handled through the ASH Housing Bureau in Atlanta.

To obtain your hotel reservation form, please write to: ASH Registration Supervisor, c/o SLACK Inc, 6900 Grove Rd, Thorofare, NJ 08086-9447.

INTERNATIONAL SYMPOSIUM ON CUTANEOUS T-CELL LYMPHOMA

Sponsored by Northwestern University Medical School
National Cancer Institute
October 19-21, 1989
Four Seasons Hotel
Chicago, IL

The Illinois Dermatologic Society/Chicago Dermatologic Society Annual Two-Day Meeting follows October 21-22, 1989 at the Four Seasons Hotel and the Department of Dermatology, Northwestern University Medical School.

For information please contact: Henry H. Roenigk Jr, MD, Department of Dermatology, Northwestern University Medical School, 303 E Chicago Ave, Chicago IL 60611. Telephone: (312) 908-8173.

INTERNATIONAL SYMPOSIUM ON PERIPHERAL BLOOD STEM CELL (PBSC) AUTOGRRAFTS

October 15-17, 1989
Mulhouse, France

International Advisory Board: A. Bell; J. Goldman; C.A. Juttner; A. Kessinger; M. Körbling; J. Reiffers; and L.B. To.

Topics: Marrow repopulating capacities of hematopoietic stem cells; role of the micro-environment; correlation between dose of PBSC infused and hematopoietic reconstitution; PBSC mobilization and collection; place of hematopoietic growth factors in PBSC autografts; interrelation between hematopoietic stem cells and tumor cells; results of PBSC autografts in leukemias and other malignant diseases.

Participating registrants fee is FF 1 200.
Deadline for abstracts is July 15th, 1989.

For more information, please contact: Ph. Henon, MD, Institut de Recherche en Hématoologie et Transfusion, Hôpital du Hasenrain, 87 Avenue d'Altkirch 68051, Mulhouse Cédex, France. Telephone: 89 54 90 33, connexion 3393.
THIRD INTERNATIONAL SYMPOSIUM ON MINIMAL RESIDUAL DISEASE IN ACUTE LEUKEMIA

March 28-30, 1990
Rotterdam, The Netherlands

Organizers: B. Löwenberg and A. Hagenbeek, Dr Daniel den Hoed Cancer Center

The series of Symposia on Minimal Residual Disease in Acute Leukemia focus on the detection and treatment of minimal residual disease in acute leukemia, i.e., the "occult" malignant cells that frequently persist following successful remission-induction chemotherapy and determine disease outcome. This is the third meeting that succeeds the conferences of 1983 and 1985.

Recent developments in the field of detection and therapy that will be discussed include genetic approaches, such as chromosomal aberrations, oncogenes, and oncogene products; and immunologic methods—in vitro culture and the use of hematopoietic growth factors aimed at detecting subpopulations of leukemic cells.

Sessions on the treatment of minimal residual disease will deal with new chemotherapy programs; autologous and allogeneic bone marrow transplantation; the role of in vivo recombinant hematopoietic growth factors, immunotherapy; T-cell depletion and the graft-versus-leukemia reaction; and the developments in the area of mismatched BMT.

For further information and registration and abstract forms, please contact: IMEDEX, Congress Secretariat, Bruistsingsel 144, NL-5232 AC’s-HERTOGENBOSCH Telephone +31 73 408 304; Facsimile +31 73 414 766.
AMERICAN SOCIETY OF HEMATOLOGY
31ST ANNUAL MEETING

December 2-5, 1989
ADVANCE REGISTRATION

NAME ___________________________ STREET ___________________________
Last          First

CITY ___________________________ STATE ___________________________ ZIP ___________

INSTITUTION ___________________________

NAME OF SPOUSE (if attending meeting)

(A) _____ American Society of Hematology Members $40.00; (B) _____ Council on Thrombosis Member $40.00;
(C) _____ Honorary or Emeritus Members, no fee; (D) _____ Nonmembers $65.00; (E) _____ *Nonmembers in Training
$20.00; (F) _____ Allied Health Professionals $50.00; (G) _____ Spouse $20.00.

Registration includes one copy of the abstract booklet (supplement to BLOOD) and one copy of the Education Program.
Additional copies desired _____ (indicate number desired). Supplement to BLOOD $30.00 _____, Education Program $8.00 _____.

TOTAL ENCLOSED $ __________
(Payable in US funds only)

Mail this form and check to: ASH Business Office, Registration Supervisor, SLACK Inc, Box 510, Thorofare, NJ 08086-0510.
Advance registration deadline is October 30, 1989. All registrants who fail to register by October 30, 1989, will be charged an
additional fee of $10.00 upon registration at the Annual Meeting.

(Checks payable to the American Society of Hematology must accompany registration). Request for refunds must be
submitted in writing by December 5, 1989. Refunds will not be processed until after the meeting.

*CERTIFICATION FOR NONMEMBERS IN TRAINING

I, ___________________________, certify that Dr ___________________________
(name of training director) (name of training director)

is a resident/trainee at ___________________________. ___________________________
(institution) (signature of director)

Upon receipt of this Advance Registration, housing forms and additional meeting and social information will be mailed to you
when they become available.

The dictionary that has defined medicine for nearly a century is now revised in two sizes! Dorland's POCKET MEDICAL DICTIONARY is ideal for portable, affordable access to key terms in all areas of medicine. Dorland's ILLUSTRATED MEDICAL DICTIONARY offers sweeping coverage and more technical entries to facilitate comprehension.

The 24th edition of Dorland's POCKET MEDICAL DICTIONARY is a trim 5¾" x 7" — ideal for slipping into pocket or purse for take-along study or immediate reference. Coverage includes up-to-date information on AIDS, MRI, and the latest on immunology and technology. You'll also find anatomical tables that have been revised to match current usage • sixteen 4-color anatomy plates • comprehensive entries selected from the 27th edition of Dorland's ILLUSTRATED MEDICAL DICTIONARY • more!

The new edition of Dorland's ILLUSTRATED MEDICAL DICTIONARY is equally current and complete. Now with 30% more terms than the competition — more than 9800 new entries and more than 130,000 terms in all!

BLOOD BANKING/TRANSFUSION MEDICINE FELLOWSHIP

The Department of Transfusion Medicine at the National Institutes of Health offers a fully accredited fellowship program which qualifies the fellow for the specialty examination in Blood Banking/Transfusion Medicine of the American Board of Pathology. The first year of the two year program is spent mastering the clinical and laboratory aspects of transfusion medicine. The second year is oriented to research and investigation.

Applicants must be board certified or eligible in internal medicine, hematology, or pathology, and must be United States citizens or permanent resident aliens. Stipends are based on specialty board status.

The next available fellowship position is in July 1990. Curriculum Vitae should be sent to:

Richard J. Davey, MD
Department of Transfusion Medicine
Warren G. Magnuson Clinical Center
Building 10, Room 5D-56
National Institutes of Health
Bethesda, MD 20892

*An Equal Opportunity Employer*

TRANSPLANTATION BIOLOGIST

The Department of Pathology and Microbiology, University of Nebraska Medical Center, is seeking a full-time transplantation biologist at the level of assistant or associate professor with an interest or expertise in the processing, culture, and purging of bone marrow cells for transplantation. UNMC is a major bone marrow and peripheral stem cell transplantation center. Individual would be expected to do applied clinical research and basic research in transplantation biology and immunology.

C.V. to:

David T. Purtilo, M.D., Chairman
Department of Pathology and Microbiology
UNMC, 42nd & Dewey Ave.
Omaha, NE 68105

Equal Opportunity/Affirmative Action Employer

BONE MARROW TRANSPLANTATION PROGRAM UNIVERSITY OF MINNESOTA

Assistant or Associate Professor
(Tenure track, Tenure)

The Bone Marrow Transplantation Program at the University of Minnesota seeks to fill up to two positions in the field of bone marrow transplantation. Candidates should be physicians with experience in clinical and/or laboratory research and in teaching. Candidates will be expected to actively participate in one or more sub-specialty areas in clinical and/or laboratory research, teach in the department of appointment and attend on the bone marrow transplant unit. Individuals with interest and experience in unrelated donor/immunogenetics, graft versus host disease, autologous transplantation, immunotherapy or infectious diseases are especially sought.

Qualifications:

Assistant Professor (tenure track): demonstrated involvement in quality research accepted or published in peer-reviewed journals;

Associate Professor (tenure): professional distinction in research and writing and demonstrated effectiveness in teaching and advising.

Salary will be commensurate with education and experience. Interested individuals should send curriculum vitae, a brief description of career plans and goals and a list of three references to the following address. The last date for receipt of applications is OCTOBER 1, 1989.

Chair, Search Committee
Bone Marrow Transplantation Program
Box 863 UMHC
Harvard Street at East River Road
Minneapolis, MN 55455

THE UNIVERSITY OF MINNESOTA IS AN EQUAL OPPORTUNITY EDUCATOR AND EMPLOYER AND SPECIFICALLY INVITES AND ENCOURAGES APPLICATIONS FROM WOMEN AND MINORITIES.
CANCER CENTER DIRECTOR

Albert Einstein Medical Center, Northern Division, a major teaching institution in Philadelphia is seeking a full-time oncologist as Director of its Comprehensive Cancer Center.

This key position, reporting directly to the CEO, requires the ability to provide leadership to the existing hospital cancer programs, which currently serve 1000 patients annually, while directing the development of new initiatives in patient care, education and research.

The Northern Division is a 600 bed acute general hospital offering a full range of secondary and tertiary health services, and 27 graduate medical education programs.

Please direct all inquiries and CV’s to:

Robert Somers, M.D., Chairman
Department of Surgery
Albert Einstein Medical Center,
Northern Division, Klein 510
York and Tabor Roads
Philadelphia, Pennsylvania 19141

HEMATOLOGY / ONCOLOGY FELLOWSHIP

A Research and Clinical Trainee position is available for MD training in pediatric hematology/oncology. Applicants should submit resume to:

Dr. Paul Benoit
Division of Hematology / Oncology
Ste. Justine Hospital
3175 Ste. Catherine Road
Montreal, Quebec
Canada H3T 1C5

HEMATOLOGY
Department of Medicine
University of Minnesota
INSTRUCTOR
(Non-tenure)

Seeking a full-time Instructor, to teach Internal Medicine and Hematology to medical students and house staff, provide inpatient and outpatient care to bone marrow transplant recipients and to conduct laboratory-based research in cellular biology with an emphasis on chronic myelogenous leukemia. Clinical experience in hematology, oncology and bone marrow transplantation as well as research experience in cellular biology of chronic myelogenous leukemia required.

Qualifications:
M.D., 3 years residency program and minimum 2 years post residency in Hematology.

Respond to:

Philip McGlave, M.D.
Department of Medicine
University of Minnesota
Box 480 UMHC
420 Delaware Street SE
Minneapolis, MN 55415

Last day for receipt of application is September 15, 1989.

THE UNIVERSITY OF MINNESOTA IS AN EQUAL OPPORTUNITY EDUCATOR AND EMPLOYER AND SPECIFICALLY INVITES AND ENCOURAGES APPLICATIONS FROM WOMEN AND MINORITIES.
GIVE SMOKING A KICK IN THE BUTT.

With every puff, your health could be going up in smoke. If you'd like to kick the habit but you need help, call your local American Cancer Society office. It could be the first step to quitting for life.
The first choice in FDP testing.

When you must know if the clotting cycle is abnormal... Thrombo-Wellcotest®

Quality performance—a welcome advantage.
Because fast, accurate diagnostic information can be a critical aid in preventing serious thrombotic disorders or complications, THROMBO-WELLCOTEST offers important advantages in routine or stat situations.

☐ Clear, easy-to-interpret reactions.
☐ Works with either serum or urine—gives you dependable results.
☐ Familiar, simple procedure is easy to perform, requires no specialized equipment.
☐ Proven technology gives you confidence in detecting fibrin monomers and all four fragments—X, Y, D, and E.

Thrombo-Wellcotest®
Rapid latex test for detection of fibrinogen degradation products
