REVIEW ARTICLE

RAPID COMMUNICATIONS

Serial Transplantation of Methotrexate-Resistant Bone Marrow: Protection of Murine Recipients from Drug Toxicity by Progeny of Transduced Stem Cells ....C.A. Corey, A.D. DeSilva, C.A. Holland, and D.A. Williams 337

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

Randomized Prospective Trial Comparing the Native Prothrombin Antigen With the Prothrombin Time for Monitoring Oral Anticoagulant Therapy .......B. Furie, C.F. Diuguid, M. Jacobs, D.L. Diuguid, and B.C. Furie 344

HEMATOPOIESIS

In Vitro Differentiation of Leukemic Cells to Eosinophils in the Presence of Interleukin-5 in Two Cases of Acute Myeloid Leukemia with the Translocation (8;21)(q22;q22) ....H. Ema, K. Kitano, T. Suda, Y. Sato, K. Muroi, M. Ohta, M. Yoshida, S. Sakamoto, M. Eguchi, and Y. Miura 350

Proliferative Properties of Unfractionated, Purified, and Single Cell Human Progenitor Populations Stimulated by Recombinant Human Interleukin-3 .................................................................G. Kannourakis and G.R. Johnson 370

HEMOSTASIS AND THROMBOSIS

Noncoagulation Inhibitory Factor VIII Antibodies After Induction of Tolerance to Factor VIII in Hemophilia A Patients .................................................................I.M. Nilsson, E. Berntorp, O. Zettervall, and B. Dahlbäck 378

Platelet Aggregation in Flowing Blood at a Site of Injury to an Endothelial Cell Monolayer: Quantitation and Real-Time Imaging with the TAB Monoclonal Antibody .......................................................E.F. Grabowski 390

Inhibition of Coagulation and Thrombin-Induced Platelet Activities by a Synthetic Dodecapeptide Modeled on the Carboxy-Terminus of Hirudin ..............................................................J.A. Jakubowski and J.M. Maraganore 399

A Role for Intracellular Histamine in Collagen-Induced Platelet Aggregation ..................S.P. Saxena, A. McNicol, L.J. Brandes, A.B. Becker, and J.M. Gerrard 407

IMMUNOBIOLOGY

(Continued on following page)
Effects of Interleukin-3 and Interleukin-4 on the Development of “Connective Tissue-Type” Mast Cells: Interleukin-3 Supports Their Survival and Interleukin-4 Triggers and Supports Their Proliferation Synergistically with Interleukin-3

High Human T-Cell Lymphotropic Virus Type I Proviral DNA Load with Polyclonal Integration in Peripheral Blood Mononuclear Cells of French West Indian, Guianese, and African Patients with Tropical Spastic Paraparesis

NEOPLASIA

Peripheral T-Cell Lymphoma Associated with Hemophagocytic Syndrome

Philadelphia Chromosome-Negative Chronic Myelogenous Leukemia Without Breakpoint Cluster Region Rearrangement: A Chronic Myeloid Leukemia with a Distinct Clinical Course

Alteration of N-ras Gene Mutation After Relapse in Acute Lymphoblastic Leukemia

PHAGOCYTES

Occurrence of Cytochrome b₅₅₉ in B-Cell Lineage of Human Lymphocytes

Metalloprotease Activity of CD13/Aminopeptidase N on the Surface of Human Myeloid Cells

R.A. Ashmun and A.T. Look

Blood-Borne Collagenous Debris Complexes with Plasma Fibronectin After Thermal Injury

P. La Celle, F.A. Blumenstock, C. McKinley, T.M. Saba, P.A. Vincent, and V. Gray

Human Neutrophils Contain a Protein Kinase C-Like Enzyme That Utilizes Guanosine Triphosphate as a Phosphate Donor. Cofactor Requirements, Kinetics, and Endogenous Acceptor Proteins

S.J. Stoehr and J.E. Smolen

Subcellular Distribution and Mobilization of MAC-1 (CD11b/CD18) in Neonatal Neutrophils

RED CELLS

Sequence Analysis of the γ-Globin Gene Locus from a Patient with the Deletion Form of Hereditary Persistence of Fetal Hemoglobin

Expression of Major Blood Group Antigens on Human Erythroid Cells in a Two Phase Liquid Culture System

TRANSFUSION MEDICINE

Effective Prophylaxis Against Platelet Refractoriness in Multitransfused Patients by Use of Leukocyte-Free Blood Components

U.M. Saarinen, R. Kekomäki, M.A. Stimes, and G. Myllýtö

Vancomycin-Dependent Antibodies Associated with Thrombocytopenia and Refractoriness to Platelet Transfusion in Patients with Leukemia

D.J. Christie, N. van Buren, S.S. Lennon, and J.L. Putnam

CORRESPONDENCE

Variations in Growth Responsiveness of Burst Forming Units-Erythroid Colonies

Clinical and Phenotypical Characteristics of Pre-T-Cell Leukemia

Molecular Basis of δβ-Thalassemia with Normal Fetal Hemoglobin Level

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: Arthur W. Nienhuis, M.D., Editor, BLOOD, The Journal of the American Society of Hematology, 9650 Rockville Pike, Bethesda, MD 20814. For other information, call (301) 571-1895.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician's Recognition Award of the American Medical Association.
