REVIEW ARTICLE

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

Open-Wedge Testicular Biopsy in Childhood Acute Lymphoblastic Leukemia After Two Years of Maintenance Therapy: Diagnostic Accuracy and Influence on Outcome—A Report From Children’s Cancer Study Group

HEMATOPOIESIS

Isolation of an Early T-cell Precursor (CFU-TL) From Human Bone Marrow..............J.M. Bertho, M.D. Mossalayi, A.H. Dalloul, G. Mouterde, and P. Debre 1064

HEMOSTASIS AND THROMBOSIS

Factor VIIa-Catalyzed Activation of Factor X Independent of Tissue Factor: Its Possible Significance for Control of Hemophilic Bleeding by Infused Factor VIIa..........................................................L.V.M. Rao and S.I. Rapaport 1069

Retroviral-Mediated Transfer and Amplification of a Functional Human Factor VIII Gene...............D.I. Israel and R.J. Kaufman 1074

Released Adenosine Diphosphate Stabilizes Thrombin-Induced Human Platelet Aggregates..............M. Cattaneo, M.T. Canciani, A. Lecchi, R.L. Kinlough-Rathbone, M.A. Packham, P.M. Mannucci, and J.F. Mustard 1081

Induction of Platelet Ca2+ Influx and Mobilization by a Monoclonal Antibody to CD9 Antigen...............T. Hato, M. Sumida, M. Yasukawa, A. Watanabe, H. Okuda, and Y. Kobayashi 1087

Impaired Secretion of Mutant α2-Plasmin Inhibitor (α2PI-Nara) From COS-7 and HepG2 Cells: Molecular and Cellular Basis for Hereditary Deficiency of α2-Plasmin Inhibitor ......................O. Miura and N. Aoki 1092

Factor IX New London: Substitution of Proline for Glutamine at Position 50 Causes Severe Hemophilia B

IMMUNOBIOLOGY

Effects of Interleukin-4 on the In Vitro Growth of Human Lymphoid and Plasma Cell Neoplasms........C.W. Taylor, T.M. Grogan, and S.E. Salmon 1114

(Continued on following page)
Clonal Growth of Murine Pre-B Colony-Forming Cells and Their Targeted Infection by a Retroviral Vector: Dependence on Interleukin-7...........................D.E. Williams, A.E. Namen, D.Y. Mochizuki, and R.W. Overell 1132

**NEOPLASIA**

Detection of Non-Hodgkin's Lymphoma in the Peripheral Blood by Analysis of Antigen Receptor Gene Rearrangements: Results of a Prospective Study............................S.J. Horning, N. Galili, M. Cleary, and J. Sklar 1139

Chronic Myeloid Leukemia May Be Associated With Several bcr-abl Transcripts Including the Acute Lymphoid Luekemia-Type 7 kb Transcript.............................L. Selleri, M. von Lindern, A. Herrmans, D. Meijer, G. Torelli, and G. Grosveld 1146

T Lymphocytes From Invaded Lymph Nodes in Patients With B-Cell-Derived Non-Hodgkin's Lymphoma: Reactivity Toward the Malignant Clone.............................M.-C. Jacob, M.-P. Piccinni, T. Bonnefoix, M.-F. Sotto, P. Coudrec, J.-C. Bensa, and J.-J. Sotto 1154

N-Ras Gene Point Mutations in Childhood Acute Lymphocytic Leukemia Correlate With a Poor Prognosis

**PHAGOCYTES**

Membrane Expression of Decay-Accelerating Factor on Neutrophils From Normal Individuals and Patients With Paroxysmal Nocturnal Hemoglobinuria.................K. Okuda, A. Kanamaru, E. Ueda, T. Kitani, and K. Nagai 1186

**RED CELLS**

Synergistic Effects of Oxidation and Deformation on Erythrocyte Monovalent Cation Leak ......................P.A. Ney, M.M. Christopher, and R.P. Hebbel 1192

**TRANSPLANTATION**

**CORRESPONDENCE**

A New Single Nucleotide Change at the Initiation Codon (ATG → AGG) Identified in Amplified Genomic DNA of a Chinese β-Thalassemic Patient ................................. 1207

**SPECIAL DEPARTMENTS**

Special Announcement: ASCO/ASH Recommended Criteria for the Performance of Bone Marrow Transplantation .................................................................................. 1209

Announcements .......................................................................................................................... 1210

Information for Contributors ................................................................................................... xxiv

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: Arthur W. Nienhuis, M.D., Editor, BLOOD, The Journal of the American Society of Hematology, 9650 Rockville Pike, Bethesda, MD 20814. For other information, call (301) 571-1895.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician's Recognition Award of the American Medical Association.
