**CONTENTS**

**VOL 77, NO 3**

**REVIEW ARTICLE**

Review: Erythropoietin ........................................................................................................... S.B. Krantz 419

**CLINICAL INTERVENTION AND THERAPEUTIC TRIALS**

Translocation (9;22) Is Associated With Extremely Poor Prognosis in Intensively Treated Children With Acute Lymphoblastic Leukemia ................. J.A. Fletcher, E.A. Lynch, V.M. Kimball, M. Donnelly, R. Tantravahi, and S.E. Sallan 435

**HEMATOPOIESIS**

Increased Efficiency of Retroviral-Mediated Gene Transfer and Expression in Primate Bone Marrow Progenitors After 5-Fluorouracil-Induced Hematopoietic Suppression and Recovery ..................... R. Wieder, K. Corrneta, S.W. Kessler, and W.F. Anderson 448

Abnormal Megakaryocyte Poiesis in the Belgrade Laboratory Rat ..................... Z. Rošović, N. Basara, N. Stojanović, N. Suviđzdić, and V. Pavlović-Kentera 456

Interleukin-6 and Its Receptor Are Expressed by Human Megakaryocytes: In Vitro Effects on Proliferation and Endoreplication ................. S. Navarro, N. Deblí, J.-P. Le Couedic, B. Klein, J. Breton-Gorius, J. Doły, and W. Vainchenker 461

Administration of Interleukin-6 Stimulates Multilineage Hematopoiesis and Accelerates Recovery From Radiation-Induced Hematopoietic Depression ........ M.L. Patchen, T.J. MacVittie, J.L. Williams, G.N. Schwartz, and L.M. Souza 472

Human Immunodeficiency Virus Infection of Megakaryocytic Cells ...... M. Sakaguchi, T. Sato, and J.E. Groopman 481

Role of Pertussis Toxin-Sensitive Guanosine Triphosphate-Binding Proteins in the Response of Erythroblasts to Erythropoietin ......................... B.A. Miller, K. Foster, J.D. Robishaw, C.F. Whitfield, L. Bell, and J.Y. Cheung 486

**HEMOSTASIS AND THROMBOSIS**

High Molecular Weight Kininogen Inhibits Thrombin-Induced Platelet Aggregation and Cleavage of Aggregin by Inhibiting Binding of Thrombin to Platelets ............. R.N. Puri, F. Zhou, C.-J. Hu, R.F. Colman, and R.W. Colman 500

Time-Dependent Association Between Platelet-Bound Fibrinogen and the Triton X-100 Insoluble Cytoskeleton ..................................................... E.I.B. Peerschke 508

Expression of Thrombomodulin by Smooth Muscle Cells in Culture: Different Effects of Tumor Necrosis Factor and Cyclic Adenosine Monophosphate on Thrombomodulin Expression by Endothelial Cells and Smooth Muscle Cells in Culture ........................................ G.A. Soff, R.W. Jackman, and R.D. Rosenberg 515

Role of von Willebrand Factor Associated to Extracellular Matrices in Platelet Adhesion .......... D. Baruch, C. Denis, C. Marteaux, D. Schoevaert, L. Coulombel, and D. Meyer 519

(Continued on following page)
(Contents continued)

A Lifelong Bleeding Disorder Associated With a Deficiency of Plasminogen Activator Inhibitor Type 1
J. Dıevel, G. Nguyen, S. Gross, J. Delobel, and E.K.O. Kruthof 528

Regulation of Thrombomodulin by Tumor Necrosis Factor-α: Comparison of Transcriptional and Posttranscriptional Mechanisms...........................................S.R. Lentz, M. Tsiang, and J.E. Sadler 542

A 5.3-kb Deletion Including Exon XIII of the Protein Sα Gene Occurs in Two Protein S-Deficient Families

Developmental Expression of mRNAs Encoding Platelet Proteins in Rat Megakaryocytes ..........M.A. Courtney, M.H. Stoler, V.I. Marder, and P.J. Haidaris 560

IMMUNOBIOLOGY
IgE-Mediated Anaphylactic Degranulation of Isolated Human Skin Mast Cells ............A.M. Dvorak, W. Massey,
J. Warner, S. Kissell, A. Kagey-Sobotka, and L.M. Lichtenstein 569

Expression of a Heat-Inducible Gene of the HSP70 Family in Human Myelomonocytic Cells: Regulation by Bacterial Products and Cytokines...............G. Fincato, N. Polentarutti, A. Sica, A. Mantovani, and F. Colotta 579

NEOPLASIA
Characterization of an Interleukin-6-Mediated Autocrine Growth Loop in the Human Multiple Myeloma Cell Line, U266...............................................................G. Schwab, C.B. Siegall, L.A. Aarden, L.M. Neckers, and R.P. Nordan 587

Mutations of the ras Proto-Oncogenes in Childhood Monosomy 7.........................A. Neubauer, K. Shannon, and E. Liu 594

T-Cell Translocation Gene 1 (Ttg-1) Encodes a Nuclear Protein Normally Expressed in Neural Lineage Cells.................................................................E.A. McGuire, A.R. Davis, and S.J. Korsmeyer 599

PHAGOCYTES
Neutrophil Activation Through High-Affinity Fcγ Receptor Using a Monomeric Antibody With Unique Properties.......................................................W.L. Akereley III, P.M. Guyre, and B.H. Davis 607

Activation and Proliferation Signals in Murine Macrophages. Biochemical Signals Controlling the Regulation of Macrophage Urokinase-Type Plasminogen Activator Activity by Colony-Stimulating Factors and Other Agents.......................................................J.A. Hamilton, G. Vairo, K.R. Knight, and B.G. Cocks 616

RED CELLS
Comparison of Serum Anti-Band 3 and Anti-Gal Antibody Binding to Density-Separated Human Red Blood Cells.........................................................M.P. Sorette, U. Galili, and M.R. Clark 628

TRANSPLANTATION
Evidence of a Graft-Versus-Lymphoma Effect Associated With Allogeneic Bone Marrow Transplantation .................................................................R.J. Jones, R.F. Ambinder, S. Pantadosi, and G.W. Santos 649

Use of the Polymerase Chain Reaction to Monitor the Effectiveness of Ex Vivo Tumor Cell Purging...R.S. Negrin, H.-P. Kiem, I.G.H. Schmidt-Wolf, K.G. Blume, and M.L. Cleary 654

Syngeneic and Allogeneic Bone Marrow Engraftment After Total Body Irradiation: Dependence on Dose, Dose Rate, and Fractionation..............................J.D. Down, N.J. Tarbell, H.D. Thames, and P.M. Mauch 661

(Continued on following page)
All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: Arthur W. Nienhuis, M.D., Editor, BLOOD, The Journal of the American Society of Hematology, 9650 Rockville Pike, Bethesda, MD 20814. For other information, call (301) 571-1895.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
