REVIEWS

Review: Interleukin-4: A Prototypic Immunoregulatory Lymphokine

W.E. Paul

RAPID COMMUNICATIONS

Point Mutations in the L-Type Pyruvate Kinase Gene of Two Children With Hemolytic Anemia Caused by
Pyruvate Kinase Deficiency

B. Neubauer, M. Lakomek, H. Winkler, M. Parke, S. Hofferbert, and W. Schröter

Monoclonal Antibody YB5.B8 Identifies the Human c-kit Protein Product

N.B. Lerner, K.H. Nocka, S.R. Cole, F. Qiu, A. Strife, L.K. Ashman, and P. Besmer

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

Intravenous Anti-D Treatment of Immune Thrombocytopenic Purpura: Analysis of Efficacy, Toxicity, and
Mechanism of Effect

Hemostatic Effect of Normal Platelet Transfusion in Severe von Willebrand Disease Patients

R. Castillo, J. Monteagudo, G. Escolar, A. Ordinas, M. Magallón, and J.M. Villar

HEMATOPOIESIS

Osteogenic Progenitor Cells in Rat Bone Marrow Stromal Populations Exhibit Self-Renewal in Culture

Dexamethasone and 1,25-Dihydroxyvitamin D₃, but not Cyclosporine A, Inhibit Production of
Granulocyte-Macrophage Colony-Stimulating Factor in Human Fibroblasts

A. Tobler, H.-P. Marti, C. Gimmi, A.B. Cachelin, S. Saurer, and M.F. Fey

Increased Serum Levels of Granulocyte Colony-Stimulating Factor in Patients With Severe Congenital
Neutropenia

K. Mempel, T. Pietsch, T. Menzel, C. Zeidler, and K. Welte

In Vivo Administration of Recombinant Human Interleukin-1 and Macrophage Colony-Stimulating Factor
(M-CSF) Induce a Rapid Loss of M-CSF Receptors in Mouse Bone Marrow Cells and Peritoneal
Macrophages: Effect of Administration Route

B.D.-M. Chen

HEMOSTASIS AND THROMBOSIS

A Monoclonal Antibody to Factor VIII Inhibits von Willebrand Factor Binding and Thrombin Cleavage

J.W. Precup, B.C. Kline, and D.N. Fass

The "Normandy" Variant of von Willebrand Disease: Characterization of a Point Mutation in the von
Willebrand Factor Gene

C. Gaucher, S. Jorieux, B. Mercier, D. Oufkir, and C. Mazurier

A Molecular Genetic Study of Factor XI Deficiency

J.F. Hancock, K. Wieland, R.E. Pugh, U. Martinowitz, S. Schulman, V.V. Kakkar, P.B.A. Kernoff, and D.N. Cooper

The Specific Activity of Plasminogen Activator Inhibitor-1 in Disseminated Intravascular Coagulation With
Acute Promyelocytic Leukemia

Y. Sakata, T. Murakami, A. Noro, K. Mori, and M. Matsuda

(Continued on following page)
A New Congenital Abnormal Fibrinogen Ise Characterized by the Replacement of ββ Glycine-15 by Cysteine  

A 13-mer Peptide Straddling the Leucineββ/Prolineγγ Polymorphism in Glycoprotein IIIa Does Not Define the PLA1 Epitope.................F. Flug, R. Espanola, L.-X. Liu, C. Sinque, R. Dariosso, M. Nardi, and S. Karpatic 1964

IMMUNOBIOLOGY

Expression of Shared Idiotypes in Chronic Lymphocytic Leukemia and Small Lymphocytic Lymphoma  

Clinical Significance of Soluble CD30 Antigen in the Sera of Patients With Untreated Hodgkin’s Disease  

NEOPLASIA

Possible Mechanism of Selective Killing of Myeloid Leukemic Blast Cells by Lymphokine-Activated Killer Cells  

Establishment of a Human Acute Myeloid Leukemia Cell Line (Kasumi-1) With 8;21 Chromosome Translocation.............................H. Asou, S. Tashiro, K. Hamamoto, A. Otsuji, K. Kitahara, and N. Kamada 2031

PHAGOCYTES

Blood-Borne Fragments of Fibronectin After Thermal Injury..........P. La Celle, F.A. Blumenstock, and T.M. Saba 2037

Adrenergic Modulation of Human Polymorphonuclear Leukocyte Activation. Potentiating Effect of Adenosine  
G. Bazzoni, E. Dejana, and A. Del Maschio 2042

RED CELLS

Thalassemia Intermedia: Moderate Reduction of β Globin Gene Transcriptional Activity by a Novel Mutation of the Proximal CACCC Promoter Element......A.E. Kulozik, A. Bellan-Koch, S. Bale, E. Kohne, and E. Kleihauer 2054

NADPH, Not Glutathione, Status Modulates Oxidant Sensitivity in Normal and Glucose-6-Phosphate Dehydrogenase-Deficient Erythrocytes.............................M.D. Scott, L. Zuo, B.H. Lubin, and D.T.-Y. Chiu 2059

(Continued on following page)
(Contents continued)

TRANSPANTATION

Studies of Allogeneic Bone Marrow and Spleen Cell Transplantation in a Murine Model Using Ultraviolet-B Light...........................................D.H. Pamphilon, A.A. Alnaqdy, V. Godwin, A.W. Preece, and T.B. Wallington 2072

A Combined Approach for Purging Multidrug-Resistant Leukemic Cell Lines in Bone Marrow Using a Monoclonal Antibody and Chemotherapy...M. Aihara, Y. Aihara, G. Schmidt-Wolf, I. Schmidt-Wolf, B.I. Sikic, K.G. Blume, and N.J. Chao 2079

CORRESPONDENCE

Conditional Probability of Surface Antigen Coexpression................................................................. 2085

Granulocyte-Macrophage Colony-Stimulating Factor and AZT in Patients With Acquired Immunodeficiency Syndrome......................................................... 2085

Molecular Basis of the δ Thalassemia in cis to Hemoglobin Knossos Variant........................................ 2087

Induction of Neutrophil Fc-γ Receptor I Expression Can Be Used as a Marker for Biologic Activity of Recombinant Interferon-γ In Vivo........................................... 2088

An Ex Vivo Lung Model for Transfusion-Related Acute Lung Injury.................................................... 2090

SPECIAL DEPARTMENTS

Announcements........................................................................................................................................ 2091

Information for Contributors..................................................................................................................... xxxii

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: Arthur W. Nienhuis, M.D., Editor, BLOOD, The Journal of the American Society of Hematology, 9650 Rockville Pike, Bethesda, MD 20814. For other information, call (301) 571-1895.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
