EDITORIALS

Editorial: Genetic Alterations in Leukemia: Events on a Grand Scale......................................................K. Shannon 1

Editorial: Does Stem Cell Exhaustion Result From Combining Hematopoietic Growth Factors With 
Chemotherapy? If So, How Do We Prevent It? .......................................................... M.A.S. Moore 3

REVIEW ARTICLE

Review: Acquired Immunodeficiency Syndrome-Related Lymphoma..................................................A. M. Levine 8

RAPID COMMUNICATIONS

Merocyanine 540-Sensitized Photoinactivation of Human Erythrocytes Parasitized by Plasmodium falciparum
O.M. Smith, S.A. Dolan, J.A. Dvorak, T.E. Wellem, and F. Sieber 21

Measurement of Basal Levels of Factor VIIa in Hemophilia A and B Patients .............. P. Wildgoose, Y. Nemerson, 
L.L. Hansen, F.E. Nielsen, S. Glazer, and U. Hedner 25

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

Response Assessment in Chronic Lymphocytic Leukemia After Fludarabine Plus Prednisone: Clinical, 
Pathologic, Immunophenotypic, and Molecular Analysis............L.E. Robertson, Y.O. Huh, J.J. Butler, W.C. Pugh, 
C. Hirsch-Ginsberg, S. Stass, H. Kantarjian, and M.J. Keating 29

HEMATOPOIESIS

Interactions Between Recombinant Human Erythropoietin and Serum Factors(s) on Murine Megakaryocyte
Colony Formation.............J. Tsukada, M. Misago, M. Kikuchi, T. Sato, R. Ogawa, T. Ota, S. Oda, I. Morimoto, 
S. Chiba, and S. Eto 37

Characterization, Growth, and Differentiation of a Human Myeloid Leukemia Cell Line, Tl-1 Cell............T. Taoka, 
T. Tasaka, T. Tanaka, S. Irino, and A. W. Norman 46

Erythropoietin Rapidly Induces Tyrosine Phosphorylation in the Human Erythropoietin-Dependent Cell Line, 

Blasts From Patients With Acute Myelogenous Leukemia Express Functional Receptors for Stem Cell Factor 
V.C. Broudy, F.O. Smith, N. Lin, K.M. Zsebo, J. Egie, and I.D. Bernstein 60

Down-Regulation of Human Protein Kinase C α Is Associated With Terminal Neutrophil Differentiation 
V. Devalia, N.S.B. Thomas, P.J. Roberts, H.M. Jones, and D.C. Linch 68

Hematopoietic Stem Cell Depletion by Restorative Growth Factor Regimens During Repeated High-Dose 
Cyclophosphamide Therapy..............................................................R.L. Hornung and D.L. Longo 77

Functional Reconstitution of the Human Interleukin-3 Receptor........................................... T. Kitamura and A. Miyajima 84

Separation of Hematopoietic Stem Cells Into Two Populations and Their Characterization .......................H. Ogata, 

Effect of Stem Cell Factor With and Without Granulocyte Colony-Stimulating Factor on Neonatal 
Hematopoiesis: In Vivo Induction of Newborn Myelopoiesis and Reduction of Mortality During 
Experimental Group B Streptococcal Sepsis ............. M.S. Cairo, J.M. Plunkett, A. Nguyen, and C. van de Ven 96

Information for Contributors ............................................................................xxxii

(Continued on following page)
All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: Arthur W. Nienhuis, M.D., Editor, BLOOD, The Journal of the American Society of Hematology, 9650 Rockville Pike, Bethesda, MD 20814. For other information, call (301) 571-1895.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
