REVIEW ARTICLE

Review: Transcription Factors, Translocations, and Leukemia.........................J. Nichols and S.D. Nimer 2953

PERSPECTIVE

Cytokine Dysregulation and Acute Graft-Versus-Host Disease ......................J.H. Antin and J.L.M. Ferrara 2964

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

Long-Term Outcome of High-Dose Cytarabine-Based Consolidation Chemotherapy for Adults With Acute Myelogenous Leukemia.............G. Schiller, J. Gajewski, M. Territo, S. Nimer, M. Lee, T. Belin, and R. Champlin 2977

HEMATOPOIESIS

Effect of Stem Cell Factor on In Vitro Erythropoiesis in Patients With Bone Marrow Failure Syndromes B.P. Alter, M.E. Knobloch, L. He, A.P. Gilio, R.J. O'Reilly, L.K. Reilly, and R.S. Weinberg 3000

tat Protein Stimulates Production of Transforming Growth Factor-β1 by Marrow Macrophages: A Potential Mechanism for Human Immunodeficiency Virus-1-Induced Hematopoietic Suppression...............G. Zauli, B.R. Davis, M.C. Re, G. Visani, G. Furlini, and M. La Placa 3036

The Human CD34 Hematopoietic Stem Cell Antigen Promoter and a 3' Enhancer Direct Hematopoietic Expression in Tissue Culture........................................T.C. Burn, A.B. Satterthwaite, and D.G. Tenen 3051

(Continued on following page)
Activation of the Erythropoietin Receptor by the Friend Spleen Focus-Forming Virus gp55 Glycoprotein Induces Constitutive Protein Tyrosine Phosphorylation

M.O. Showers, J.-F. Moreau, D. Linnekin, B. Druker, and A.D. D'Andrea

Over-Expression of c-src or v-src in Bone Marrow Stromal Cells Stimulates Hematopoiesis in Long-Term Bone Marrow Culture

J. Mladenovic and S.M. Anderson

Dyskeratosis Congenita Fibroblasts Are Abnormal and Have Unbalanced Chromosomal Rearrangements

I. Dokal, J. Bungey, P. Williamson, D. Oscier, J. Hows, and L. Luzzatto

Expression and Downregulation of Cytotoxic Cell Protease 1 or Granzyme 'B' Transcripts During Myeloid Differentiation of Interleukin-3-Dependent Marine Stem Cell Lines

I.N. Hampson, M.A. Cross, C.M. Heyworth, L. Fairbairn, E. Spooncer, G.J. Cowling, and T.M. Dexter

Transfer and Expression of the Human Multidrug Resistance Gene in Mouse Erythroleukemia Cells

HEMOSTASIS AND THROMBOSIS

Characterization of Human Osteoblast and Megakaryocyte-Derived Osteonectin (SPARC)

R.J. Kelm Jr, G.A. Hair, K.G. Mann, and B.W. Grant

Proteolytic Interactions of Factor IXa With Human Factor VIII and Factor VIIIa

B.J. Lamphear and P.J. Fay

An Unusual Antibody That Blocks Tissue Factor/Factor VIIa Function by Inhibiting Cleavage Only of Macromolecular Substrates

M.M. Fiore, P.F. Neuenschwander, and J.H. Morrissey

Activation of Human Platelets by the Rabbit Anticardiolipin Antibodies

Y.-L. Lin and C.-T. Wang

IMMUNOBIOLOGY

Human T-cell Development in SCID-hu Mice: Staphylococcal Enterotoxins Induce Specific Clonal Deletions, Proliferation, and Anergy

Expansion of a Unique Subpopulation of Cytotoxic T Cells That Express a Ca2+1 T-cell Receptor Gene in a Patient With Severe Persistent Neutropenia

Serum Platelet-Reactive IgG of Autoimmune Thrombocytopenic Purpura Patients Is Not F(ab')2 Mediated and a Function of Storage

S. Karpakin, J. Xu, J. Patel, and G.J. Thorbecke

NEOPLASIA

Responsiveness of Chronic Lymphocytic Leukemia B Cells Activated Via Surface Igs of CD40 to B-Cell Tropic Factors

A.C. Fluckiger, J.F. Rossi, A. Bussel, P. Bryon, J. Banchereau, and T. Defrance

Distinctive Immunophenotypic Features of t(8;21)(q22;q22) Acute Myeloblastic Leukemia in Children

Rhom-2 Expression Does Not Always Correlate With Abnormalities on Chromosome 11 at Band p13 in T-Cell Acute Lymphoblastic Leukemia

Acquisition of Interleukin-3 Independence in FDC-P2 Cells After Transfection With the Activated c-H-ras Gene Using a Bovine Papillomavirus-Based Plasmid Vector

N. Uemura, H. Karasuyama, K. Tani, and S. Asano

Structural and Functional Analysis of Oncogenes and Tumor Suppressor Genes in Adult T-cell Leukemia/Lymphoma Shows Frequent p53 Mutations

E. Cesarman, A. Chadburn, G. Inghirami, G. Gaidano, and D.M. Knowles
CONTENTS vii

(Contents continued)

PHAGOCYTES

Effects of Tumor Necrosis Factor-α on Peroxidation of Plasma Lipoprotein Lipids in Experimental Animals and Patients.......................J. McDonagh, E.T. Fossel, R.L. Kradin, S.M. Dubinett, M. Laposata, and Y.A. Hallaq 3217

Influenza A Virus Binding to Human Neutrophils and Cross-Linking Requirements for Activation

TRANSPLANTATION

T-Cell Subsets and Suppressor Cells in Human Bone Marrow..................Z. G.H. Schmidt-Wolf; S. Dejbakhsh-Jones, N. Ginzton, P. Greenberg, and S. Strober 3242

CORRESPONDENCE

Erythropoietin and Platelet Production........................................................................................................................................................................ 3251
Iron and the Anemia of Chronic Disease....................................................................................................................................................... 3252
Increase in T Cells Expressing the γ/δ Receptor and CD4+CD8+ Double-Positive T Cells in Primary Immunodeficiency Complicated by Human T-Cell Lymphotropic Virus Type I Infection ......................................................... 3253
Factor VIIa Levels in Patients With Hemophilia ...................................................... 3255
High Expression of Transforming Growth Factor-β Long Cell Cycle Times and a Unique Clustering of S-Phase Cells in Patients With Acute Promyelocytic Leukemia .................................................. 3256
Trial of Recombinant Human Erythropoietin: Three Patients With Thalassemia Intermedia............................................................... 3258
Multiple Coagulation Factor Abnormalities in Commercially Available Passowoy-Deficient Plasma......................................................... 3260

SPECIAL DEPARTMENTS

Announcements.................................................................................................................. 3262
Volume Indexes................................................................................................................ 3263
Information for Contributors......................................................................................... xxix

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: James D. Griffin, MD, Editor, BLOOD, The Journal of the American Society of Hematology, 1018 Beacon Street, Brookline, MA 02146. For other information, call (617) 738-9808.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician's Recognition Award of the American Medical Association.
