## CONTENTS

**VOL 81, NO 2**

**JANUARY 15, 1993**

### EDITORIAL

Preparative Regimens for Autologous Bone Marrow Transplantation .......................... R. Champlin

### REVIEW ARTICLE

Review: Hematopoietic Growth Factors and Their Receptors in Acute Leukemia .............. B. Löwenberg and I.P. Touw

### RAPID COMMUNICATIONS

Topographical Dissociation of BCL-2 Messenger RNA and Protein Expression in Human Lymphoid Tissues

Kit Ligand in Synergy With Interleukin-3 Amplifies the Erythropoietin-Independent, Globin-Synthesizing Progeny of Normal Human Burst-Forming Units-Erythroid in Suspension Cultures: Physiologic Implications

T. Papayannopoulou, M. Brice, and C.A. Blau

### CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

Autologous Bone Marrow Transplantation for Acute Myeloid Leukemia Using Busulfan Plus Etoposide as a Preparative Regimen .................. C.A. Linker, C.A. Ries, L.E. Damon, H.S. Rugo, and J.L. Wolf

### HEMATOPOIESIS

Inhibition of c-kit Ligand/Steel Factor by Antibodies Reduces Survival of Lethally Irradiated Mice .... R. Neta, D. Williams, F. Selzer, and J. Abrams

Interleukin-4 Inhibits the Lipopolysaccharide-Induced Expression of c-jun and c-fos Messenger RNA and Activator Protein-1 Binding Activity in Human Monocytes .............. W.H.A. Dokter, M.T. Esselink, M.R. Halie, and E. Vellenga

α4β1 and α5β1 Are Differentially Expressed During Myelopoiesis and Mediate the Adherence of Human CD34⁺ Cells to Fibronectin in an Activation-Dependent Way .............. J.M. Kerst, J.B. Sanders, I.C.M. Slaper-Cortenbach, M.C. Doorakkers, B. Hooibrink, R.H.J. van Oers, A.E.G.Kr. von dem Borne, and C.E. van der Schoot

Stimulation of Human Myelopoiesis by Leukotrienes B₄ and C₄: Interactions With Granulocyte-Macrophage Colony-Stimulating Factor .............. L. Sienke, M. Mansour, F. Reizenstein, and J.A. Lindgren

(Continued on following page)
(Continued)

**Maintenance of High Levels of Pluripotent Hematopoietic Stem Cells In Vitro: Effect of Stromal Cells and c-kit**

J.P. Wineman, S.-I. Nishikawa, and C.E. Müller-Sieburg

**Apoptosis and Hematopoiesis in Murine Fetal Liver**

**Presence and Characteristics of Circulating Megakaryocyte Progenitor Cells in Human Fetal Blood**

G. Zauli, L. Valvassori, and S. Capitani

**In Vitro Stimulatory Effect of Substance P on Hematopoiesis**

P. Rameshwar, D. Ganea, and P. Gascon

**Liver-Derived Fetal Hematopoietic Stem Cells Selectively and Preferentially Home to the Fetal Bone Marrow**

E.D. Zanjani, J.L. Ascensoa, and M. Tavassoli

**HEMOSTASIS AND THROMBOSIS**

**Protein S Enhances C4b Binding Protein Interaction With Neutrophils**

**A Multicenter Study of Viral Hepatitis in a United States Hemophilic Population**

**Determination of Adhesion Force Between Single Cell Pairs Generated by Activated GpIIb-IIIa Receptors**

K.-L.P. Sung, M.M. Frojmovic, C. Zhi, M.H. Ginsberg, and S. Chien

**IMMUNOBIOLOGY**

**High Serum and Ascitic Soluble Interleukin-2 Receptor α Levels in Advanced Epithelial Ovarian Cancer**

D.P.J. Barton, D.K. Blanchard, B. Michellini-Norris, S.V. Nicosia, D. Cavanagh, and J.Y. Djeu

**Interleukin-8-Stimulated Polyphosphoinositide Hydrolysis in Human Peripheral Blood Lymphocytes**

K.B. Bacon, D.G. Quinn, J.-P. Aubry, and R.D.R. Camp

**Human Immunodeficiency Virus-1 Infection of the Human Promyelocytic Cell Line HL-60: High Frequency of Low-Level Infection and Effect of Subsequent Cell Differentiation**

**Expression and Function of a Receptor for Hyaluronan-Mediated Motility on Normal and Malignant B Lymphocytes**

E.A. Turley, A.J. Belch, S. Poppema, and L.M. Pilarski

**Subtractive cDNA Cloning of a Novel Member of the Ig Gene Superfamily Expressed at High Levels in Activated B Lymphocytes**

E.J. Kozlow, G.L. Wilson, C.H. Fox, and J.H. Kehrl

**NEOPLASIA**

**Epstein-Barr Virus and Childhood Hodgkin’s Disease in Honduras and the United States**

**Subtypes of Epstein-Barr Virus (EBV) in Hodgkin’s Disease: Association Between B-Type EBV and Immunocompromise**

**Regulation of Myeloblastin Messenger RNA Expression in Myeloid Leukemia Cells Treated With All-Trans Retinoic Acid**

**Myeloperoxidase: An Enzyme Involved in Intrinsic Vincreistine Resistance in Human Myeloblastic Leukemia**

D. Schlaifer, M.R. Cooper, M. Attal, A.O. Sartor, J.B. Trepel, G. Laurent, and C.E. Myers

(Continued on following page)
CONTENTS

(Contents continued)

P-Glycoprotein Expression in Human Plasma Cell Myeloma: Correlation With Prior Chemotherapy

T.M. Grogan, C.M. Spier, S.E. Salmon, M. Matzner, J. Rybski, R.S. Weinstein, R.J. Scheper, and W.S. Dalton

High Prevalence of Epstein-Barr Virus in the Reed-Sternberg Cells of Hodgkin’s Disease Occurring in Peru

Retrovirally Transduced Antisense Sequences Stably Suppress P210BCR-ABL Expression and Inhibit the Proliferation of BCR/ABL-Containing Cell Lines ............. P. Martiat, P. Lewalle, A.S. Taj, M. Philippe, Y. Larondelle, J.L. Vaerman, C. Wildmann, J.M. Goldmann, and J.L. Michaux

RED CELLS

Cells Lacking Glycan Phosphatidylinositol-Linked Proteins Have Impaired Ability to Vesiculate .... M. Whitlow, K. Iida, P. Marshall, R. Silber, and V. Nussenzweig

Dependence of the Permanent Deformation of Red Blood Cell Membranes on Spectrin Dimer-Tetramer Equilibrium: Implication for Permanent Membrane Deformation of Irreversibly Sickled Cells

S.-C. Liu, L.H. Derick, and J. Palek

Fetal Hemoglobin Induction With Butyric Acid: Efficacy and Toxicity ............ C.A. Blau, P. Constantoulakis, C.M. Shaw, and G. Stamatoyannopoulos

TRANSFUSION MEDICINE

TRANSPLANTATION

Unrelated Donor Marrow Transplantation Therapy for Chronic Myelogenous Leukemia: Initial Experience of the National Marrow Donor Program .... P. McGlave, G. Bartsch, C. Anasetti, R. Ash, P. Beatty, J. Gajewski, and N.A. Kernan

Detection of Residual Leukemia by the Polymerase Chain Reaction and Sequence-Specific Oligonucleotide Probe Hybridization After Allogeneic Bone Marrow Transplantation for AKR Leukemia: A Murine Model for Minimal Residual Disease ......................... W.R. Drobyski, L.A. Baxter-Lowe, and R.L. Truitt

CORRESPONDENCE

Complete Remission After Fludarabine for Chronic Lymphocytic Leukemia ........................................ 560

No Increase of Leukemia Relapse in Newly Diagnosed Patients With Acute Myeloid Leukemia Who Received Granulocyte Colony-Stimulating Factor for Life-Threatening Infection During Remission Induction and Consolidation Therapy ........................................ 561

CD45 Expression and Prognosis in Acute Lymphoblastic Leukemia .............................. 562

Bence Jones Protein in Primary Systemic Amyloidosis ........................................ 564

Rapid Diagnosis of Hemoglobin Constant Spring and Hemoglobin E by Amplified Created Restriction Sites ...... 565

SPECIAL DEPARTMENTS

Announcements ........................................ 567

Information for Contributors ................................ xxi

(Continued on following page)
All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: James D. Griffin, MD, Editor, BLOOD, The Journal of the American Society of Hematology, 1018 Beacon Street, Brookline, MA 02146. For other information, call (617) 738-9808.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
