RAPID COMMUNICATION

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

Results of Fludarabine and Prednisone Therapy in 264 Patients With Chronic Lymphocytic Leukemia With Multivariate Analysis-Derived Prognostic Model for Response to Treatment .................. S. O'Brien, H. Kantarjian, M. Beran, T. Smith, C. Koller, E. Estey, L.E. Robertson, S. Lerner, and M. Keating 1695

HEMATOPOIESIS

The Extracytoplasmic Domain of the Erythropoietin Receptor Forms a Monomeric Complex With Erythropoietin .................................................. M.-G. Yet and S.S. Jones 1713

HEMOSTASIS AND THROMBOSIS

Elevated Platelet Count as a Cause of Abnormal von Willebrand Factor Multimer Distribution in Plasma U. Budde, R.E. Scharf, P. Franke, K. Hartmann-Budde, J. Dent, and Z.M. Ruggeri 1749

The Cytoplasmic Domain of P-Selectin Is Phosphorylated on Serine and Threonine Residues ........ T. Fujimoto and R.P. McEver 1758

A Recombinant Factor VIII A2 Domain Polypeptide Quantitatively Neutralizes Human Inhibitor Antibodies That Bind to A2 ........................................... D. Scandella, M. Mattingly, and R. Prescott 1767

**IMMUNOBIOLOGY**

CDw60 Glycolipid Antigens of Human Leukocytes: Structural Characterization and Cellular Distribution  
B. Kniep, W.A. Flegel, H. Northoff, and E.P. Rieber  
1776

Rapid Generation of Antiplasma Cell Activity in the Bone Marrow of Myeloma Patients by CD3-Activated T Cells  
M. Massaia, C. Attisano, S. Peola, L. Montacchini, P. Omedè, P. Corradini, D. Ferrero, M. Boccadoro, A. Bianchi, and A. Pileri  
1787

Detection of Minimal Residual Disease by Immunostaining of Bone Marrow Biopsies After 2-Chlorodeoxyadenosine for Hairy Cell Leukemia  
D. Hakimian, M.S. Tallman, C. Kiley, and L. Peterson  
1798

**NEOPLASIA**

Molecular Analysis of the BCL-3 Locus at Chromosome 17q22 in B-Cell Neoplasms  
T. Yano, C.A. Sander, R.E. Andrade, C.E. Gauwerky, C.M. Croce, D.L. Longo, E.S. Jaffe, and M. Raffeld  
1813

bcl-2 Gene Hypomethylation and High-Level Expression in B-Cell Chronic Lymphocytic Leukemia  
M. Hanada, D. Delia, A. Aiello, E. Stadmayer, and J.C. Reed  
1820

Establishment and Characterization of a Human Mixed-Lineage, T-Lymphoid/Myeloid Cell Line (USP-91)  
T. Umiel, C.W. Rettemnier, S. Siegel, S. Ota, H. Shimada, T.W. Tran, and P.K. Pattengale  
1829

Role of p21 RAS in p21 abl Transformation of Murine Myeloid Cells  
R.A. Mandanas, D.S. Liebowitz, K. Gharehbaghi, T. Tauchi, G.S. Burgess, K. Miyazawa, H.N. Jayaram, and H.S. Boswell  
1838

Isolated Follicular Lymphoma Cells Are Resistant to Apoptosis and Can Be Grown In Vitro in the CD40/Stromal Cell System  
1848

PML Protein Expression in Hematopoietic and Acute Promyelocytic Leukemia Cells  
M.T. Daniel, M. Koken, O. Romagné, S. Barbey, A. Bazarbachi, M. Stadler, M.C. Guillemín, L. Degos, C. Chomienne, and H. de Thé  
1858

**PHAGOCYTES**

Human Eosinophil Charcot-Leyden Crystal Protein: Cloning and Characterization of a Lysophospholipase Gene Promoter  
H.I. Gomolin, Y. Yamaguchi, A.V. Paulpillai, L.A. Dvorak, S.J. Ackerman, and D.G. Tenen  
1868

MRP8 and MRP14, S-100–Like Proteins Associated With Myeloid Differentiation, Are Translocated to Plasma Membrane and Intermediate Filaments in a Calcium-Dependent Manner  
J. Roth, F. Burwinkel, C. van den Bos, M. Goebeler, E. Vollmer, and C. Sorg  
1875

Isolation and Characterization of the Neutrophil-Binding Proteins for Platelet-Derived Adherence-Inhibiting Factor  
K. Ibawuchi, I. Nagaoka, A. Someya, and T. Yamashita  
1884

**RED CELLS**

αβ1-Integrin Expression on Sickle Reticulocytes: Vascular Cell Adhesion Molecule-1–Dependent Binding to Endothelium  
R.A. Swerlick, J.R. Eckman, A. Kumar, M. Jeitler, and T.M. Wick  
1891

Single-Copy Transduction and Expression of Human γ-Globin in K562 Erythroleukemia Cells Using Recombinant Adeno-Associated Virus Vectors: The Effect of Mutations in NF-E2 and GATA-1 Binding Motifs Within the Hypersensitivity Site 2 Enhancer  
J.L. Miller, C.E. Walsh, P.A. Ney, R.J. Sandmils, and A.W. Nienhuis  
1900

TRANSFUSION MEDICINE

TRANSPLANTATION
Mixed T-Lymphoid Chimerism After Allogeneic Bone Marrow Transplantation for Hematologic Malignancies of Children Is Not Correlated With Relapse ............... J.E.M. van Leeuwen, M.J.D. van Tol, A.M. Joosten, J.T. Wijnen, P.M. Khan, and J.M. Vossen
Competitive Polymerase Chain Reaction to Estimate the Number of BCR-ABL Transcripts in Chronic Myeloid Leukemia Patients After Bone Marrow Transplantation ..................... N.C.P. Cross, L. Feng, A. Chase, J. Bungey, T.P. Hughes, and J.M. Goldman

CORRESPONDENCE
Levels of Expression of mdr-3 and Glutathione-S-Transferase Genes in Chronic Lymphocytic Leukemia Lymphocytes ................................................................. 1937
Chromosome Abnormalities and RBI Gene Deletions in Chronic Lymphocytic Leukemia ................................. 1938

SPECIAL DEPARTMENTS
Announcements ................................................................. 1940
Information for Contributors ........................................... xxii

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: James D. Griffin, MD, Editor, BLOOD, The Journal of the American Society of Hematology, 1018 Beacon Street, Brookline, MA 02146. For other information, call (617) 738-9808.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
