The Journal of The American Society of Hematology

VOL 83, NO 4 CONTENTS FEBRUARY 15, 1994

COMMENTARY

PERSPECTIVE

Treatment Approaches to the Low-Grade Lymphomas .......................................................... S.J. Horning 881

REVIEW ARTICLE

Review: Aspirin, Platelets, and Thrombosis: Theory and Practice ........................................... G.J. Roth and D.C. Calverley 885

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

Lymphoma Regression Induced by Monoclonal Anti-Idiotype Antibodies Correlates With Their Ability to Induce Ig Signal Transduction and Is Not Prevented by Tumor Expression of High Levels of Bel-2 Protein W.M.J. Vuist, R. Levy, and D.G. Maloney 899

HEMATOPOIESIS

Inhibition of Murine Erythroid Colony Formation In Vitro by Interferon γ and Correction by Interferon Receptor Immunoadhesin .................... R.T. Means Jr, S.B. Krantz, J. Luna, S.A. Marsters, and A. Ashkenazi 911

Clonality and X-Inactivation Patterns in Hematopoietic Cell Populations Detected by the Highly Informative M27β DNA Probe ..................... M.F. Fey, S. Liechti-Gallati, A. von Rohr, B. Borisch, L. Theilkäs, V. Schneider, M. Oestreicher, S. Nagel, A. Ziemienecki, and A. Tobler 931

Myelosuppressive Conditioning Is Required to Achieve Engraftment of Pluripotent Stem Cells Contained in Moderate Doses of Syngeneic Bone Marrow ............................................... Y. Tomita, D.H. Sachs, and M. Sykes 939

Proliferative But Not Nonproliferative Responses to Granulocyte Colony-Stimulating Factor Are Associated With Rapid Activation of the p21WAF1/MAP Kinase Signalling Pathway ........ A. Bashey, L. Healy, and C.J. Marshall 949

(Continued on following page)
CONTENTS

Production of Hematopoietic Stem Cell-Chemotactic Factor by Bone Marrow Stromal Cells ..................... Cherry, R. Yasumizu, J. Toki, H. Asou, T. Nishino, Y. Komatsu, and S. Ikehara 964

Induced Expression of c-fms in Normal Hematopoietic Cells Shows Evidence for Both Conservation and Lineage Restriction of Signal Transduction in Response to Macrophage Colony-Stimulating Factor G.A. McArthur, L.R. Rohrschneider, and G.R. Johnson 972

HEMOSTASIS AND THROMBOSIS

Uncoupling Fibrin From Integrin Receptors Hastens Fibrinolysis at the Platelet-Fibrin Interface ..... J.V. Braaten, W.G. Jerome, and R.R. Hantgan 982

Factor XIIIa Binding to Activated Platelets Is Mediated Through Activation of Glycoprotein Ib-IIa A.D. Cox and D.V. Devine 1006

An Exon 28 Mutation Resulting in Alternative Splicing of the Glycoprotein Ib Transcript and Glanzmann’s Thrombasthenia ................................................................. S. Iwamoto, E. Nishiumi, E. Kajii, and S. Ikemoto 1017

IMMUNOBIOLOGY

Spectrum of Ig Classes, Specificities, and Titers of Serum Antiglycoproteins in Chronic Idiopathic Thrombocytopenic Purpura ............................................................... R. He, D.M. Reid, C.E. Jones, and N.R. Shulman 1024

Steel Factor and c-kit Regulate Cell-Matrix Adhesion ................................................................. T. Kinashi and T.A. Springer 1033

Differential Activation-Dependent Regulation of Integrin Function in Cultured Human T-Leukemic Cell Lines J.L. Mobley, E. Ennis, and Y. Shimizu 1039

Apoptosis Induced by Polyclonal Antilymphocyte Globulins in Human B-Cell Lines ............. N. Bonnefoy-Bérard, L. Genestier, M. Flacher, J.P. Rouault, G. Lizard, M. Mutin, and J.P. Revillard 1051

Recognition of Minor Histocompatibility Antigens on Lymphocytic and Myeloid Leukemic Cells by Cytotoxic T-Cell Clones ...................................................... D. van der Harst, E. Goulmy, J.H.F. Falkenburg, Y.M.C. Kooij-Winkelaar, S.A.P. van Luxemburg-Heijs, H.M. Goselink, and A. Brand 1060

NEOPLASIA

Cytometric Detection of DNA Amplified With Fluorescent Primers: Applications to Analysis of Clonal bcl-2 and IgH Gene Rearrangements in Malignant Lymphomas ................. R.L. Barker, C.A. Worth, and S.C. Peiper 1079

PHAGOCYTES

Deficient Total Cell Content of CR3 (CD11b) in Neonatal Neutrophils .... N. Abughali, M. Berger, and M.F. Tosi 1086

Preferential Usage of the Bone-Type Leader Sequence for the Transcripts of Liver/Bone/Kidney-Type Alkaline Phosphatase Gene in Neutrophilic Granulocytes ............................................. N. Sato, Y. Takahashi, and S. Asano 1093

(Continued on following page)
CONTENTS

(Contents continued)

RED CELLS

Absence of High-Affinity Band 4.1 Binding Sites From Membranes of Glycophorin C- and D-Deficient (Leach Phenotype) Erythrocytes .................................................. P. Gascard and C.M. Cohen 1102

A Novel β-Globin Mutation, βDurham-NC [β\text{114}Leu → Pro], Produces a Dominant Thalassemia-Like Phenotype .................................................. C.M. de Castro, B. Devlin, D.E. Fleenor, M.E. Lee, and R.E. Kaufman 1109

Oxidant Damage to Erythrocyte Membrane in Glucose-6-Phosphate Dehydrogenase Deficiency: Correlation With In Vivo Reduced Glutathione Concentration and Membrane Protein Oxidation .............. R.M. Johnson, Y. Ravindranath, M. El-Alfy, and G. Goyette Jr 1117

A Cautionary Note Regarding Hydroxyurea in Sickle Cell Disease ....................... E.P. Vichinsky and B.H. Lubin 1124

TRANSFUSION MEDICINE

TRANSPLANTATION

CORRESPONDENCE

Accelerated Thrombin Generation During Anticoagulation in Patients With Unstable Angina Pectoris ......................... 1155

Quantitation of Factor VIII Antibodies by an Enzyme-Linked Immunoassay Method ................................................ 1155

RhD Genotyping of the Fetus Using Amniotic Fluid ................................................................. 1156

Differential Binding of Antiphospholipid Autoantibody in Normal and Autoimmune Sera to Prothrombin/Phospholipid Antigen Complex .................................................................................. 1157

SPECIAL DEPARTMENTS

Announcements ......................................................................................................................... 1159

Information for Contributors ................................................................................................ 1165

(Continued on following page)
All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: James D. Griffin, MD, Editor-in-Chief, BLOOD, The Journal of the American Society of Hematology, 1018 Beacon Street, Brookline, MA 02146. For other information, call (617) 738-9808.

The American Society of Hematology certifies that the continuing medical education offering provided by "BLOOD, The Journal of The American Society of Hematology," meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
