COVER FIGURE
Cover figure submitted by Haluska et al (courtesy of Arthur Skarin), "Review: The Cellular Biology of the Reed-Sternberg Cell."

EDITORIAL
Editorial: Recombinant Human Erythropoietin and the Anemia of Cancer ........................................... J.L. Spivak

REVIEW ARTICLE

RAPID COMMUNICATIONS
Increasing Hepatitis C Virus RNA Levels in Hemophiliacs: Relationship to Human Immunodeficiency Virus Infection and Liver Disease ............... M.E. Eyster, M.W. Fried, A.M. Di Bisceglie, and J.J. Goedert for the Multicenter Hemophilia Cohort Study

Characterization of von Willebrand Factor Gene Defects in Two Unrelated Patients With Type IIC von Willebrand Disease ................................................................. C. Gaucher, J. Diéval, and C. Mazurier

Activated Protein C Resistance as an Additional Risk Factor for Thrombosis in Protein C-Deficient Families B.P.C. Koeleman, P.H. Reitsma, C.F. Allaart, and R.M. Bertina

Progression of the Myeloid Differentiation Program Is Dominant to Transforming Growth Factor-β1–Induced Apoptosis in M1 Myeloid Leukemic Cells .................................................. M. Selvakumaran, J.C. Reed, D. Liebermann, and B. Hoffman

Prognostic Value of Chromosomal Abnormalities in Follicular Lymphoma .... H. Tilly, A. Rossi, A. Stamatoullas, B. Lenormand, C. Bigorgne, A. Kunlin, M. Monconduit, and C. Bastard

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS
Prospective Comparative Trial of Autologous Versus Allogeneic Bone Marrow Transplantation in Patients With Non-Hodgkin’s Lymphoma ....................... V. Ratanatharathorn, J. Uberti, C. Karanes, E. Abella, L.G. Lum, F. Momin, G. Cummings, and L.L. Sensenbrenner

Prediction of Response to Erythropoietin Treatment in Chronic Anemia of Cancer ............. H. Ludwig, E. Fritz, C. Leitgeb, M. Pecherstorfer, H. Samonigg, and J. Schuster

HEMATOPOIESIS

(Continued on following page)
(Contents continued)

Aggregated IgE Mimic Interleukin-3–Induced Histamine Synthesis by Murine Hematopoietic Progenitors  

HEMOSTASIS AND THROMBOSIS

Activation of the Fibrinogen Binding Site on Platelets Isolated From a Patient With the Strasbourg I Variant of Glanzmann’s Thrombasthenia .......... W.C. Kouns, B. Steiner, T.J. Kunicki, S. Moog, J. Jutzi, L.K. Jennings, J-P. Cazenave, and F. Lanza 1108

Clustering of Vitronectin and RGD Peptides on Microphores Leads to Engagement of Integrins on the Luminal Aspect of Endothelial Cell Membrane .... A. Zanetti, G. Conforti, S. Hess, I. Martin-Padura, E. Ghibaudi, K.T. Preisnser, and E. Dejana 1116

Plasmic Degradation of Fibrin Rapidly Decreases Platelet Adhesion and Spreading .................. M. Hamaguchi, L.A. Bunce, L.A. Sporn, and C.W. Francis 1143

The Structure of the Urokinase-Type Plasminogen Activator Receptor Gene .............. J.R. Casey, J.G. Petrakna, J. Kottra, D.E. Fleenor, and W.F. Rosse 1151

Expression and Purification of Functional Recombinant Epitopes for the Platelet Antigens, P1A1 and P1A2  
  E.A. Barron-Casella, T.S. Kickler, O.C. Rogers, and J.F. Casella 1157

Low-Affinity Heparin Stimulates the Inactivation of Plasminogen Activator Inhibitor-1 by Thrombin  
  P.A. Patston and M. Schapira 1164

IMMUNOBIOLOGY

Maturation of Acute T-Lymphoblastic Leukemia Cells After CD2 Ligation and Subsequent Treatment With Interleukin-2 ........................................ F. Mentz, F. Ouaaz, A. Michel, C. Blanc, P. Hervé, G. Bismuth, P. Debré, H. Merle-Béral, and M.D. Mossalayi 1182

Differential Effect of Gangliosides on Ig Production and Proliferation by Human B Cells .............. H. Kimata and A. Yoshida 1193

NEOPLASIA

High Incidence of Serum Monoclonal Igs Detected by a Sensitive Immunoblotting Technique in B-Cell Chronic Lymphocytic Leukemia ....................................... A. Beaume, A. Brizard, B. Dreyfus, and J.-L. Preud’homme 1216

(Continued on following page)
CONTENTS

(Contents continued)

A Variant Chromosome Translocation at 11q13 Identifying PRAD1/Cyclin D1 as the BCL-1 Gene

Molecular Analysis of the T-Cell Acute Lymphoblastic Leukemia-Associated t(1;7)(p34;q34) That Fuses LCK and TCRB ......................................................... R.C. Burnett, M.J. Thirman, J.D. Rowley, and M.O. Diaz 1232

PHAGOCYTES

Contrasting Effects of Recombinant Human Granulocyte-Macrophage Colony-Stimulating Factor (CSF) and Granulocyte CSF Treatment on the Cycling of Blood Elements in Childhood-Onset Cyclic Neutropenia

Cytokine-Specific Regulation of Urokinase Receptor (CD87) Expression by U937 Mononuclear Phagocytes

RED CELLS

Molecular Basis of Reduced or Absent Expression of Decay-Accelerating Factor in Cromer Blood Group Phenotypes ..................... D.M. Lublin, G. Mallinson, J. Poole, M.E. Reid, E.S. Thompson, B.R. Ferdman, M.J. Telen, D.J. Anstee, and M.J.A. Tanner 1276

Abnormal Phospholipid Metabolism in Spur Cell Anemia: Decreased Fatty Acid Incorporation Into Phosphatidylethanolamine and Increased Incorporation Into Acylcarnitine in Spur Cell Anemia Erythrocytes
D.W. Allen and N. Manning 1283

The Regulatory Element 3' to the Aγ-Globin Gene Binds to the Nuclear Matrix and Interacts With Special A-T–Rich Binding Protein 1 (SATB1), an SAR/MAR-Associating Region DNA Binding Protein

TRANSFUSION MEDICINE

Activation of the Coagulation Cascade After Infusion of a Factor XI Concentrate in Congenitally Deficient Patients .................... P.M. Mannucci, K.A. Bauer, E. Santagostino, E. Fatoni, S. Barzegar, R. Coppola, and R.D. Rosenberg 1314

(Continued on following page)
**CONTENTS**

(Contents continued)

**TRANSPLANTATION**

Increased Risk of Infection in Marrow Transplant Patients Receiving Methylprednisolone for Graft-Versus-Host Disease Prevention .............................................. H.G. Sayer, G. Longton, R. Bowden, M. Pepe, and R. Storb ................. 1328

**CORRESPONDENCE**

Positivity of the Sugar-Water Test in the Screening for Paroxysmal Nocturnal Hemoglobinuria ................................................................. 1349

Hepatitis C Virus as a Risk Factor for the Development of Veno-Occlusive Disease of the Liver ................................................................. 1349

Prognostic Factors for Multiple Myeloma .................................................................................................................................................. 1350

Factor VIII Gene Rearrangement in Hemophilia A Carrier Detection: A Word of Caution ................................................................. 1351

False-Positive Residual Disease Assessment After Bone Marrow Transplant in Acute Lymphoblastic Leukemia .................................................................................. 1352

**SPECIAL DEPARTMENTS**

Announcements ........................................................................................................................................................................................................ 1354

Erratum ........................................................................................................................................................................................................ 1357

Forthcoming Articles ........................................................................................................................................................................ .............................. xii

Information for Contributors ........................................................................................................................................................................ xxvi

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: James D. Griffin, MD, Editor-in-Chief, BLOOD, The Journal of the American Society of Hematology, 1018 Beacon Street, Brookline, MA 02146. For other information, call (617) 738-9808.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
