REVIEW ARTICLE

Review: The Biology and Treatment of Acute Lymphoblastic Leukemia in Adults ...................... E.A. Copelan and E.A. McGuire 1151

RAPID COMMUNICATIONS

Acute Promyelocytic Leukemia Cases With Nonreciprocal PML/RARα or RARα/PML Fusion Genes

Induction of Phagocytosis by a Protein Tyrosine Kinase .... Z.K. Indik, J.-G. Park, X.Q. Pan, and A.D. Schreiber 1175

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

All-Trans Retinoic Acid for the Treatment of Newly Diagnosed Acute Promyelocytic Leukemia

HEMATOPOIESIS

The 175 Antigen Expressed on Myeloid and Erythroid Cells During Differentiation Is Associated With Serine Protease Activity ......................................................... D. Deane, L. Inglis, and D. Haig 1215

(Continued on following page)
(Contents continued)

Differential Expression of a Novel Proline-Rich Homeobox Gene (Prh) in Human Hematolymphopoietic Cells
G. Manjoletti, V. Gattei, E. Buratti, A. Rustighi, A. De Iuliiis, D. Aldinucci, G.H. Goodwin, and A. Pinto

The Murine Interleukin-3 Receptor α Subunit Gene: Chromosomal Localization, Genomic Structure, and
Promoter Function
I. Miyajima, L. Levitt, T. Hara, M.A. Bedell, N.G. Copeland, N.A. Jenkins, and A. Miyajima

HEMOSTASIS AND THROMBOSIS

The Glycoprotein Ib-IX Complex-Specific Monoclonal Antibody SZ1 Binds to a Conformation-Sensitive Epitope
on Glycoprotein IX: Implications for the Target Antigen of Quinine/Quinidine-Dependent Autoantibodies
J.A. López, C.Q. Li, S. Weisman, and M. Chambers

Heterogeneity of Hepatitis C Virus Genotypes in Hemophilia: Relationship With Chronic Liver Disease
F.E. Preston, L.M. Jarvis, M. Makris, L. Philp, J.C.E. Underwood, C.A. Ludlam, and P. Simmonds

IMMUNOBIOLOGY

Immunosuppressive Effect of Human Herpesvirus 6 on T-Cell Functions: Suppression of Interleukin-2 Synthesis
and Cell Proliferation
L. Flamand, J. Gosselin, I. Stefanescu, D. Ablashi, and J. Menezes

The Antineoplastic Bryostatins Affect Human Basophils and Mast Cells Differently
V. Patella, V. Casolaro, A. Ciccicelli, G.R. Pettit, M. Columbo, and G. Marone

Involvement of CD31 in Lymphocyte-Mediated Immune Responses: Importance of the Membrane-Proximal
Immunoglobulin Domain and Identification of an Inhibiting CD31 Peptide

Expression of Recombination Activating Genes (RAG-1 and RAG-2) in Epstein-Barr Virus-Bearing B Cells
I. Kuhn-Hallek, D.R. Sage, L. Stein, H. Groelle, and J.D. Friederich

NEOPLASIA

Interleukin-9 Is a Major Anti-Apoptotic Factor for Thymic Lymphomas
J.-C. Renaud, A. Vink, J. Louahed, and J. Van Snick

Long-Term Culture of Chronic Myelogenous Leukemia Marrow Cells on Stem Cell Factor–Deficient Stroma
Favors Benign Progenitors
R. Agarwal, S. Doren, B. Hicks, and C.E. Dunbar

Detection of the Chromosome 16 CBFB-MYH11 Fusion Transcript in Myelomonocytic Leukemias
J. Melle, F. Dreyfus, G. Flaudrin, and E. Macintyre

Characterization of Plasma Lipids in Patients With Malignant Disease by 13C Nuclear Magnetic Resonance
Spectroscopy and Gas Liquid Chromatography
T. Engan, K.S. Bjerve, A.L. Hoe, and J. Krane

PHAGOCYTES

Is There a Critical Gestational Age in Neutrophil Superoxide Production Activity?
K. Ishida, K. Tsukimori, T. Nagata, T. Koyanagi, K. Akazawa, and H. Nakano

Infection With Nippostrongylus brasiliensis Induces Invasion of Mast Cell Precursors From Peripheral Blood to
Small Intestine

Downregulation of Proinflammatory Cytokine Release in Whole Blood From Septic Patients

(Continued on following page)
CONTENTS

(Contents continued)

RED CELLS

Aplastic Anemia and Paroxysmal Nocturnal Hemoglobinuria: Search for a Pathogenetic Link

TRANSPLANTATION

Posttransplantation Lymphoproliferative Disorders Frequently Contain Type A and Not Type B Epstein-Barr Virus ................................................. D. Frank, E. Cesarmean, Y.F. Liu, R.E. Michler, and D.M. Knowles

CORRESPONDENCE

Cyclophosphamide/Antithymocyte Globulin Conditioning of Patients With Severe Aplastic Anemia Transplanted With Bone Marrow From HLA-Identical Related Donors .................................................................

Procoagulant Triggers During Cardiopulmonary Bypass .............................................................

Cyclosporin A Therapy of Immune-Mediated Thrombocytopenia in Children .................................................................

Importance of PF4 in Heparin-Induced Thrombocytopenia: Confirmation With Gray Platelets .................................................................

Nomenclature of Human Platelet Alloantigens ..............................................................................

SPECIAL DEPARTMENTS

Announcements ............................................................................................................................................................ 1411
Forthcoming Articles ...................................................................................................................................................... xiv
Information for Contributors ........................................................................................................................................ xxv

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: James D. Griffin, MD, Editor-in-Chief, BLOOD, The Journal of the American Society of Hematology, 1018 Beacon Street, Brookline, MA 02146. For other information, call (617) 738-9808.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
