REVIEW ARTICLE

RAPID COMMUNICATIONS

Trisomy 3 in Low-Grade B-Cell Lymphomas of Mucosa-Associated Lymphoid Tissue ........ A.C. Wotherspoon, T.M. Finn, and P.G. Isaacson 2000

Characterization of CD33 as a New Member of the Sialoadhesin Family of Cellular Interaction Molecules S.D. Freeman, S. Kelm, E.K. Barber, and P.R. Crocker 2005

Homzygous Deletions of the p16 Tumor-Suppressor Gene Are Associated With Lymphoid Transformation of Chronic Myeloid Leukemia ......................................................... H. Sill, J.M. Goldman, and N.C.P. Cross 2013

Cloning of Several Species of MLL/MEN Chimeric cDNAs in Myeloid Leukemia With t(11;19)(q23;p13.1) Translocation ....................... K. Mitani, Y. Kanda, S. Ogawa, T. Tanaka, J. Inazawa, Y. Yazaki, and H. Hirai 2017

CLINICAL INTERVENTION AND THERAPEUTIC TRIALS

HEMATOPOIESIS

Constitutive In Vivo Cytokine and Hematopoietic Growth Factor Gene Expression in the Bone Marrow and Peripheral Blood of Healthy Individuals ............... F.H.M. Cluitmans, B.H.J. Esendam, J.E. Landegent, R. Willemze, and J.H.F. Falkenburg 2038

Interleukin-3 and Interleukin-7 Are Alternative Growth Factors for the Same B-Cell Precursors in the Mouse T.H. Winkler, F. Melchers, and A.G. Rolink 2045

(Continued on following page)
HEMOSTASIS AND THROMBOSIS

The Apple 1 and Apple 4 Domains of Factor XI Act Synergistically to Promote the Surface-Mediated Activation of Factor XI by Factor XIIa ................................................ F.A. Baglia, F.S. Seaman, and P.N. Walsh 2078

IMMUNOBIOLOGY

Induction of IgA1 and IgA2 Production in Immature Human Fetal B Cells and Pre-B Cells by Vasoactive Intestinal Peptide .................................................. H. Kimata and M. Fujimoto 2098

Effects of the Th1 and Th2 Stimulatory Cytokines Interleukin-12 and Interleukin-4 on Human Immunodeficiency Virus Replication ................................................ A. Foli, M.W. Saville, M.W. Baseler, and R. Yarchoan 2114

Differential Effects of Ifosfamide on the Capacity of Cytotoxic T Lymphocytes and Natural Killer Cells to Lyse Their Target Cells Correlate With Intracellular Glutathione Levels ........... G. Multhoff, T. Meier, C. Botzler, M. Wiesnet, A. Allenbacher, W. Wilmanns, and R.D. Issels 2124

NEOPLASIA

Detection of myc Translocations in Lymphoma Cells by Fluorescence In Situ Hybridization With Yeast Artificial Chromosomes ................................................ M.L. Veronese, M. Ohta, J. Finan, P.C. Nowell, and C.M. Croce 2132

BCR-ABL, ABL-BCR, BCR, and ABL Genes Are All Expressed in Individual Granulocyte-Macrophage Colony-Forming Unit Colonies Derived From Blood of Patients With Chronic Myeloid Leukemia J. Diamond, J.M. Goldman, and J.V. Melo 2171

Analysis of Vα Genes Used by Neoplastic B Cells in Endemic Burkitt’s Lymphoma Shows Somatic Hypermutation and Intrachlonal Heterogeneity ............. C.J. Chapman, C.I. Mockridge, M. Rowe, A.B. Rickinson, and F.K. Stevenson 2176

Interleukin-12 Expression in Human Lymphomas and Nonneoplastic Lymphoid Disorders ............ J. Schwaller, A. Tobler, G. Niklaus, N. Hurwitz, I. Hennig, M.F. Fey, and B. Borisch 2182

(Continued on following page)
CONTENTS

(Contents continued)

TP53 Mutations Emerge at Early Phase of Myelodysplastic Syndrome and Are Associated With Complex Chromosomal Abnormalities ....................... H. Kaneko, S. Misawa, S. Horiike, H. Nakai, and K. Kashima 2189

PHAGOCYTES

Identification of Signaling Motifs Within Human Fc\(\gamma\)RIIa and Fc\(\gamma\)RIIb Isoforms ...... I.E. Van den Herik-Oudijk, P.J.A. Capel, T. van der Bruggen, and J.G.J. Van de Winkel 2202

Role of Gelsolin in the Formation and Organization of Triton-Soluble F-Actin During Myeloid Differentiation of HL-60 Cells ................................................................. R.G. Watts 2212

RED CELLS

Glycophorin SAT of the Human Erythrocyte Membrane Is Specified by a Hybrid Gene Reciprocal to Glycophorin Dantu Gene ................... C.-H. Huang, M.E. Reid, Y. Okubo, G.L. Daniels, and O.O. Blumenfeld 2222

Effects of Hemoglobin Concentration on Deformability of Individual Sickle Cells After Deoxygenation T. Itoh, S. Chien, and S. Usami 2245

Four New Mutations in the NADH-Cytochrome b5 Reductase Gene From Patients With Recessive Congenital Methemoglobinemia Type II ......................... L.M. Vieira, J.-C. Kaplan, A. Kahn, and A. Leroux 2254

TRANSPLANTATION

CORRESPONDENCE

Phospholipid Binding Antibodies Warrant Continued Investigation ................................................................. 2276

Antigenic Specificity of the “Anticardiolipin” Antibodies ................................................................. 2277

Soluble Intercellular Adhesion Molecule-1 Correlates With Markers of Disease Activity in B-Cell Chronic Lymphocytic Leukemia .................................................. 2280

An International Histiocytic Language ................................................................. 2281

(Continued on following page)
Evaluation of CD38 as Target for Immunotherapy in Multiple Myeloma ................................................. 2282
α-Interferon and Hypereosinophilic Syndrome With Trisomy 8: Karyotypic Remission ........................................ 2284

Announcements ............................................................................................................................................................... 2286
Erratum ........................................................................................................................................................................... 2287
Forthcoming Articles .................................................................................................................................................... xiv
Information for Contributors ..................................................................................................................................... xxix

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: James D. Griffin, MD, Editor-in-Chief, BLOOD, The Journal of the American Society of Hematology, 1018 Beacon Street, Brookline, MA 02146. For other information, call (617) 738-9808.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
