REVIEW ARTICLE

Review: Molecular Pathogenesis of the Chromosome 16 Inversion in the M4Eo Subtype of Acute Myeloid Leukemia .......................................................... P.P. Liu, A. Hajra, C. Wijmenga, and F.S. Collins

Rapid Communications

Peripheral Blood Progenitor Cells Mobilized by Recombinant Human Granulocyte Colony-Stimulating Factor Plus Recombinant Rat Stem Cell Factor Contain Long-Term Engrafting Cells Capable of Cellular Proliferation for More Than Two Years as Shown by Serial Transplantation in Mice .................. X.-Q. Yan, C. Hartley, P. McElroy, A. Chang, C. McCrea, and I. McNiece

CD8+ T Lymphocytes in the Lung of Acquired Immunodeficiency Syndrome Patients Harbor Human Immunodeficiency Virus Type 1 ..................... G. Semenzato, C. Agostini, L. Ometto, R. Zambello, L. Trentin, L. Chieco-Bianchi, and A. De Rossi

Telomerase Activity in Normal Leukocytes and in Hematologic Malignancies ............. C.M. Counter, J. Gupta, C.B. Harley, B. Leber, and S. Bacchetti

Interleukin-3 (IL-3) Poor-Responsive Inbred Mouse Strains Carry the Identical Deletion of a Branch Point in the IL-3 Receptor α Subunit Gene ......................... T. Hara, M. Ichihara, M. Takagi, and A. Miyajima

Clinical Intervention and Therapeutic Trials

(Continued on following page)
(Contents continued)

HEMATOPOIESIS
Analysis of Hematopoiesis in max 41 Transgenic Mice That Exhibit Sustained Elevations of Blood Granulocytes and Monocytes ............................................. D. Metcalf, G.J. Lindeman, and N.A. Nicola 2364
Interleukin-12 Enhances Peripheral Hematopoiesis In Vivo ........ J.D. Jackson, Y. Yan, M.J. Brunda, L.S. Kelsey, and J.E. Talmadge 2371
c-kit Ligand Gene Expression in Normal and Sublethally Irradiated Mice ..................... A. Limanni, W.H. Baker, C.M. Chang, R. Seemann, D.E. Williams, and M.L. Patchen 2377
Transforming Growth Factor-α (TGF-α) in Human Bone Marrow: Demonstration of TGF-α in Erythroblasts and Eosinophilic Precursor Cells and of Epidermal Growth Factor Receptors in Blastlike Cells of Myelomonocytic Origin ...................................... T.M. Walz, C. Malm, B.K. Nishikawa, and A. Wasteson 2385
Recombinant Human Interleukin-1 Receptor Antagonist Protects Early Myeloid Progenitors in a Murine Model of Cyclophosphamide-Induced Myelotoxicity ....................... U.H. Chudgar, C.H. Rundus, and V.M. Peterson 2393

HEMOSTASIS AND THROMBOSIS
Abnormal Subcellular Distribution of Myosin and Talin in Wistar Furth Rat Platelets ..................... T.Z. Pestina, C.W. Jackson, and P.E. Stenberg 2436
Mutations Causing Coagulation Factor XIII Subunit A Deficiency: Characterization of the Mutant Proteins After Expression in Yeast ............................. M. Coggan, R. Baker, K. Miloszewski, G. Woodfield, and P. Board 2455

IMMUNOBIOLOGY
Interindividual Conservation of T-Cell Receptor β Chain Variable Regions by Minor Histocompatibility Antigen–Specific HLA-A*0201-Restricted Cytotoxic T-Cell Clones ................................ E. Goulmy, J. Pool, and P.J. van den Elsen 2478
Effect of Granulocyte Colony-Stimulating Factor Treatment on Ex Vivo Blood Cytokine Response in Human Volunteers .................. T. Hartung, W.-D. Döcke, F. Gantner, G. Krieger, A. Sauer, P. Stevens, H.-D. Volk, and A. Wendel 2482

NEOPLASIA

(Continued on following page)

Role of B7-1 in Mediating an Immune Response to Myeloid Leukemia Cells .......... U. A. Matulonis, C. Dosiou, C. Lamont, G. J. Freeman, P. Mauch, L. M. Nadler, and J. D. Griffin 2507

Serum Levels of Interleukin-10 in Patients With Diffuse Large Cell Lymphoma: Lack of Correlation With Prognosis ................................. J. E. Cortes, M. Talpaz, F. Cabanillas, J. F. Seymour, and R. Kurzrock 2516

Lymphoma-Associated Translocation t(14;18) in Blood B Cells of Normal Individuals ................. J. Limpens, R. Stad, C. Vos, C. de Vlaam, D. de Jong, G.-J. B. van Ommen, E. Schuuring, and P. M. Kluin 2528

PHAGOCYTES

Interleukin-1–Induced Leukocyte Extravasation Across Rat Mesenteric Microvessels Is Mediated by Platelet-Activating Factor ................................. S. Nourshargh, S. W. Larkin, A. Das, and T. J. Williams 2553

Evidence for Participation of Vicinal Dithiols in the Activation Sequence of the Respiratory Burst of Human Neutrophils ................................. H. Kutsumi, K. Kawai, R. B. Johnston, Jr, and K. Rokutan 2559

RED CELLS

TRANSPLANTATION

Marrow- and Spleen-Seeding Efficiencies of All Murine Hematopoietic Stem Cell Subsets Are Decreased by Preincubation With Hematopoietic Growth Factors ................................. J. C. M. van der Loo and R. E. Ploemacher 2598

Peripheral Blood Progenitor Cell (PBPC) Counts During Steady-State Hematopoiesis Allow to Estimate the Yield of Mobilized PBPC After Filgrastim (R-metHuG-CSF)–Supported Cytotoxic Chemotherapy S. Fruehauge, R. Haas, C. Conradt, S. Murea, B. Witt, R. Mohle, and W. Hunstein 2619

Murine Hertwig’s Anemia: Premature Death After Normal Bone Marrow Transplantation Is Radiation Dose-Dependent ................................. J. E. Barker 2627

(Continued on following page)

CORRESPONDENCE

Another Unique Variant Pattern of Intron 22 Rearrangement in Factor VIII Gene Seen in a Hemophilia A Family .......................................................................................... 2639

The Genotype of Hepatitis C Virus Does Not Affect Severity of Liver Disease After Bone Marrow Transplantation .......................................................... 2640

A Second Erythropoietin Receptor Subunit ........................................................................................................................................ 2641

SPECIAL DEPARTMENTS

Forthcoming Articles .......................................................................................................................... xiv

Information for Contributors ........................................................................................................... xxx

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: James D. Griffin, MD, Editor-in-Chief, BLOOD, The Journal of the American Society of Hematology, 1018 Beacon Street, Brookline, MA 02146. For other information, call (617) 738-9808.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
