REVIEW ARTICLE
Review: Platelets and Shear Stress M.H. Kroll, J.D. Hellums, L.V. McIntire, A.I. Schafer, and J.L. Moake

RAPID COMMUNICATIONS
Shiga-Like Toxin Purges Human Lymphoma From Bone Marrow of Severe Combined Immunodeficient Mice E.C. LaCasse, M.T. Saleh, B. Patterson, M.D. Minden, and J. Gariépy
Frequent Somatic Deletion of the 13q12.3 Locus Encompassing BRCA2 in Chronic Lymphocytic Leukemia J.A. García-Marco, C. Caldas, C.M. Price, L.M. Wiedemann, A. Ashworth, and D. Catovsky
Targeted Disruption of the Murine Tissue Factor Gene Results in Embryonic Lethality J.R. Toomey, K.E. Kratzer, N.M. Lasky, J.J. Stanton, and G.J. Broze, Jr

CLINICAL INTERVENTIONS AND THERAPEUTIC TRIALS
Prolonged Administration of Granulocyte Colony-Stimulating Factor (Filgrastim) to Patients With Fanconi Anemia: A Pilot Study W.R. Rackoff, A. Orazi, C.A. Robinson, R.J. Cooper, B.P. Alter, M.H. Freedman, R.E. Harris, and D.A. Williams

HEMATOPOIESIS
Expression and Function of Receptors for Stem Cell Factor and Erythropoietin During Lineage Commitment of Human Hematopoietic Progenitor Cells J. Olweus, L.W. M.M. Terstappen, P.A. Thompson, and F. Lund-Johansen
Nerve Growth Factor Is Involved in the Supportive Effect by Bone Marrow-Derived Stromal Cells of the Factor-Dependent Human Cell Line UT-7 I. Auffray, S. Chevalier, J. Froger, B. Izac, W. Vainchenker, H. Gascan, and L. Coulombel

(Continued on following page)
Effect of Thrombopoietin on the Development of Megakaryocytes and Platelets: An Ultrastructural Analysis
D. Zucker-Franklin and K. Kaushansky 1632

M.E. Lemieux and C.J. Eaves 1639

Human CD34+ Hematopoietic Progenitors Have Low, Cytokine-Unresponsive O6-Alkylguanine-DNA Alkyltransferase and Are Sensitive to O6-Benzylguanine Plus BCNU S.L. Gerson, W. Phillips, M. Kastan, L.L. Dumenco, and C. Donovan 1649

Ectopic Expression of Murine TPO Receptor (c-mpl) in Mice Is Pathogenic and Induces Erythroblastic Proliferation L. Cocault, D. Bouscary, C. Le Bousse Kerdiles, D. Clay, F. Picard, S. Gisselbrecht, and M. Souyri 1656

HEMOSTASIS, THROMBOSIS, AND VASCULAR BIOLOGY
A Cys374Tyr Homozygous Mutation of Platelet Glycoprotein IIIa (β3) in a Chinese Patient With Glanzmann’s Thrombasthenia ........................................ C.M. Grimaldi, F. Chen, L.E. Scudder, B.S. Coller, and D.L. French 1666

Human Platelet Signaling Defect Characterized by Impaired Production of Inositol-1,4,5-Triphosphate and Phosphatic Acid and Diminished Pleckstrin Phosphorylation: Evidence for Defective Phospholipase C Activation ................................................................. X. Yang, L. Sun, S. Ghosh, and A.K. Rao 1676

Clearance of Normal and Type 2A von Willebrand Factor in the Rat .................. J.H. Stoddart, Jr, J. Andersen, and D.C. Lynch 1692

Molecular Basis of Protein S Deficiency in Three Families Also Showing Independent Inheritance of Factor V Leiden .......................... N.J. Beauchamp, M.E. Daly, P.C. Cooper, M. Makris, F.E. Preston, and I.R. Peake 1700

IMMUNOBIOLOGY

Peripheral Blood Eosinophilia in Owl Monkeys Is Associated With Increased Eosinophilopoiesis Yet Depressed Recruitment Kinetics to the Chemokine RANTES .................. D.L. Albert, S.J. Brodie, V.G. Sasseville, and D.J. Ringler 1718

Deficient Expression of Adhesion Molecules by Human CD5- B Lymphocytes Both After Bone Marrow Transplantation and During Normal Ontogeny .......................... C. Parra, E. Roldán, and J.A. Brieva 1733

Activation of the CD95 (APO-1/Fas) System in T Cells From Human Immunodeficiency Virus Type-1–Infected Children ........................................... C.B. Baumler, T. Böhler, I. Herr, A. Benner, P.H. Kramer, and K.-M. Debatin 1741

CD73 Mediates Adhesion of B Cells to Follicular Dendritic Cells ......................... L. Airas and S. Jalkanen 1755

(Continued on following page)
CONTENTS

NEOPLASIA

Peripheral Blood Monoclonal Plasma Cells as a Predictor of Survival in Patients With Multiple Myeloma T.E. Witzig, M.A. Gertz, J.A. Lust, R.A. Kyle, W.M. O’Fallon, and P.R. Greipp 1780

Oligonucleotide Uptake in Human Hematopoietic Cells Is Increased in Leukemia and Is Related to Cellular Activation .......................................................... Q. Zhao, X. Song, T. Waldschmidt, E. Fisher, and A.M. Krieg 1788

BCR-ABL Expression in Different Subpopulations of Functionally Characterized Ph+ CD34+ Cells From Patients With Chronic Myeloid Leukemia ..................... V. Maguer-Satta, A.L. Petzer, A.C. Eaves, and C.J. Eaves 1796

Upregulated Expression of BCL-2 in Multiple Myeloma Cells Induced by Exposure to Doxorubicin, Etoposide, and Hydrogen Peroxide .......... Y. Tu, F.-h. Xu, J. Liu, R. Vescio, J. Berenson, C. Fady, and A. Lichtenstein 1805

ETO and AML1 Phosphoproteins Are Expressed in CD34+ Hematopoietic Progenitors: Implications for t(8;21) Leukemogenesis and Monitoring Residual Disease .......... P.F. Erickson, G. Dessev, R.S. Lasher, G. Philips, M. Robinson, and H.A. Drabkin 1813

PHAGOCYTES

RED CELLS

ABO Glycosyltransferase Genotyping by Polymerase Chain Reaction Using Sequence-Specific Primers C. Gassner, A. Schmarda, W. Nussbaumer, and D. Schönitzer 1852

Increased Erythrocyte Phosphatidylserine Exposure in Sickle Cell Disease: Flow-Cytometric Measurement and Clinical Associations ................................. B.L. Wood, D.F. Gibson, and J.F. Tait 1873

(Continued on following page)
(Contents continued)

TRANSFUSION MEDICINE

TRANSPLANTATION

Enhancement of Thymopoiesis After Bone Marrow Transplant by In Vivo Interleukin-7 ................. E. Bolotin, M. Smogorzewska, S. Smith, M. Widmer, and K. Weinberg 1887

CORRESPONDENCE

A Novel Mutation in the Iron Responsive Element of Ferritin L-Subunit Gene as a Cause for Hereditary Hyperferritinemia-Cataract Syndrome ................................................................. 1895

Failure of Recombinant Stem Cell Factor to Enhance Engraftment of L-Leucyl-Leucine Methyl Ester Treated Canine Marrow After Irradiation ............................................................... 1896

Lack of Induction of Granulocyte Colony-Stimulating Factor in Human Immunodeficiency Virus-Seropositive Individuals ................................................................................................................ 1897

Age Dependence of the Gene Frequency of α-Thalassemia in Sickle Cell Anemia in Cuba ......................................................... 1898

The Clinical Relevance of Fluctuations in Absolute Lymphocyte Counts During Follow-up of Large Granular Lymphocyte Proliferations .............................................................................. 1899

DLA-Nonidentical Unrelated Marrow Grafts After High-Dose Total Body Irradiation: Granulocyte Colony-Stimulating Factor Treatment After Transplant Does Not Enhance Engraftment ........................................ 1900

Donor Lymphocyte Infusion for a Patient With Relapsing Myelodysplastic Syndrome After Allogeneic Bone Marrow Transplantation .............................................................. 1902

SPECIAL DEPARTMENTS

Announcements .................................................................................................................... 1904

Forthcoming Articles ........................................................................................................... xvi

Information for Contributors ................................................................................................ xxi

All manuscripts submitted to BLOOD and subsequently accepted for publication will be assessed a $50.00 charge per published page. This charge is necessary to offset the increasing costs of publication.

All manuscripts submitted for consideration for publication in BLOOD should be sent to: James D. Griffin, MD, Editor-in-Chief, BLOOD, The Journal of the American Society of Hematology, 1018 Beacon Street, Brookline, MA 02146. For other information, call (617) 738-9808.

The American Society of Hematology certifies that the continuing medical education offering provided by BLOOD, The Journal of The American Society of Hematology, meets the criteria for up to 22 hours of credit in Category 5(a) for the Physician’s Recognition Award of the American Medical Association.
