Oncology Physician Opportunities: Jiahui International Cancer Center

Position Descriptions

**Director of Medical Oncology:** This role will be responsible for establishing, directing and running the solid tumor inpatient and ambulatory clinical services of Jiahui International Cancer Center in Shanghai, China. You will recruit, train and mentor clinical professionals, lead care teams to provide team-based patient care, and lead in the development of evidence-based clinical practice policies. Must be board-certified in Medical Oncology.

**Director of Hematology Oncology:** This role will be responsible for setting up, directing and running the hematologic malignancies and benign hematologic inpatient and ambulatory clinical services of Jiahui International Cancer Center in Shanghai, China. You will recruit, train and mentor clinical professionals, lead care teams to provide team-based patient care, and lead in the development of evidence-based clinical practice policies. Must be board-certified in Hematology and/or Medical Oncology. Jiahui provides a full spectrum of health care to help people live a better life, driven by a strong mission to change China’s landscape of medicine and to deliver high quality care in clinical care, clinical research, and professional training. Our health care network includes a brand new Jiahui International Hospital (a 500-bed tertiary care facility), Jiahui Clinics outpatient care and the Jiahui Wellness Center for advanced health management.

Interested Candidates

Experience at an accredited university medical center preferred. Interested candidates should have a passion to make a change and deliver excellent patient care in China. Strong English language proficiency, spoken and written. Chinese speaking is a plus. Good leadership and communication skills, and a willingness to relocate to Shanghai, China. All three positions report directly to the Executive Director of Jiahui International Cancer Center.

The Division of Hematology, Oncology and Cell Therapy in the Department of Medicine at Rush University / Rush University Cancer Center is recruiting a Section Chief, Bone Marrow Transplant and Cell Therapy. The predominant criteria is a major commitment to research, teaching, and patient satisfaction, excellence in clinical care, scholarly activity that advances clinical medicine, and institutional service - appropriate to the programmatic need the individual is expected to fulfill. The section Chief will be incoming at the associate or professor level, and is an experienced clinician demonstrating knowledge and innovation in the field of bone marrow transplantation. The Section Chief will specifically participate in direct patient care, teaching, research, and program administration to maintain current accreditations for cellular therapies and national cooperative group memberships to facilitate the further advancement of a well-established clinical program in bone marrow transplant and cell therapy. The successful candidate will possess professional qualifications that include: Hematology, Oncology or Hematology/Oncology training with board certification, MD or MD/PhD (or equivalent), and have experience in clinical and translational research. In addition, the successful candidate is a creative leader with a strong record of collaborative leadership and commitment to academic excellence. Candidates who have active ongoing clinical/translational research programs and some administrative experience are preferred.

**Rush University Cancer Center** comprises all of the cancer-related clinical, research and educational efforts at Rush, crossing 20 departments, divisions and sections; inpatient and outpatient areas; professional clinical activities; and the colleges of Rush University. Faculty participate in teaching and mentoring residents, fellows and postdoctoral candidates.

Interested candidates, please address your CV and cover letter to:
Timothy M. Kuzel MD, FACP, Chief, Division of Hematology, Oncology and Cell Therapy and Professor of Medicine, Rush University Medical Center and send via email to
Rose Sprinkle, Manager, Faculty Recruitment, at
Rose_Sprinkle@rush.edu
Clinical Investigator

The department of Medical Oncology at the Dana-Farber Cancer Institute and the Department of Medicine, Brigham and Women's Hospital, announce a search for a clinical investigator at the Instructor or Assistant Professor level to join the Multiple Myeloma Program. The successful candidate will participate in a very active multiple myeloma clinical practice that is fully integrated within a large and growing clinical and translational research program. The successful candidate will also engage in teaching medical students, house staff, and hematology/oncology fellows in the clinic and inpatient settings. Interest in the conduct of clinical trials with an interest in hematologic malignancies is desired. Academic rank as Instructor or Assistant Professor at Harvard Medical School will be commensurate with experience, training, and achievements.

Applicants should have an M.D. or M.D./Ph.D., with ABIM certification and be eligible for ABIM subspecialty certification in medical oncology and hematology.

Applicants should submit a letter of interest, CV, and three letters of recommendation to:

Dr. Paul Richardson, Chair-Search Committee, Division of Hematologic Malignances, Dana-Farber Cancer Institute, 450 Brookline Avenue, Boston, MA 02215, attn: Amy Kazmouski, akazmouski@partners.org

Dana-Farber Cancer Institute is an NCI-designated Comprehensive Cancer Center. We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.
