Cleveland Clinic, one of the world's most distinguished academic medical centers, announces a search for a Pediatric Hematology Oncology Neuro-Oncologist. This position provides the opportunity to work in a highly engaging and collaborative environment with the support and resources of the Pediatric Institute, Neurological Institute, and Taussig Cancer Institute to best care for our pediatric and young adult brain tumor patients.

The selected candidate will join a vibrant and growing program that currently includes 10 Pediatric Hematologist/Oncologists, 2 Pediatric Neurosurgeons, 1 Pediatric Radiation Oncologist, 21 nurses and nurse practitioners including dedicated disease based care coordinators, providing more than 10,000 patient visits per year. Programs include full Hematology/Oncology services along with Blood and Marrow Transplantation and Neuro-oncology, COG membership, NEXT consortium participation, and an accredited hematology oncology fellowship program. The department is part of the Pediatric Institute and works in close collaboration with Taussig Cancer Institute, the Neurological Institute, and the Case Comprehensive Cancer Center.

The Brain Tumor & Neuro-Oncology Center (BTNC) is a unique multidisciplinary unit within the Cleveland Clinic Neurological Institute and Taussig Cancer Institute. It is a full member of the Adult Brain Tumor Consortium (ABTC), Brain Tumor Trials Collaborative (BTTC) and offers trials through NRG, industry and our own investigator initiated trials. BTNC is dedicated to clinical excellence, innovative research and academic achievement. Faculty appointments are available at the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University. Cleveland Clinic physicians enjoy a collegial work environment with a competitive salary enhanced by a very attractive benefits package www.ccf.org/childrens.

The candidate should be assistant/associate or full professor level with strong clinical and clinical research interests in brain tumors. The candidate should be board certified in pediatric hematology oncology with a career focus in neuro-oncology or with neuro-oncology training. The position will have a strong emphasis on clinical and translational research and toward developing precision medicine approaches for the adolescent and young adult brain tumor patients.

Cleveland Clinic is pleased to be an equal employment/affirmative action employer: Women/Minorities/Veterans/Individuals with Disabilities. Smoke/Drug Free Environment
The Division of Hematology, Oncology and Cell Therapy in the Department of Medicine at Rush University / Rush University Cancer Center is recruiting a Section Chief, Bone Marrow Transplant and Cell Therapy. The predominant criteria is a major commitment to research, teaching, and patient satisfaction, excellence in clinical care, scholarly activity that advances clinical medicine, and institutional service - appropriate to the programmatic need the individual is expected to fulfill. The section Chief will be incoming at the associate or professor level, and is an experienced clinician demonstrating knowledge and innovation in the field of bone marrow transplantation. The Section Chief will specifically participate in direct patient care, teaching, research, and program administration to maintain current accreditations for cellular therapies and national cooperative group memberships to facilitate the further advancement of a well-established clinical program in bone marrow transplant and cell therapy. The successful candidate will possess professional qualifications that include: Hematology, Oncology or Hematology/Oncology training with board certification, MD or MD/PhD (or equivalent), and have experience in clinical and translational research. In addition, the successful candidate is a creative leader with a strong record of collaborative leadership and commitment to academic excellence. Candidates who have active ongoing clinical/translational research programs and some administrative experience are preferred.

Rush University Cancer Center comprises all of the cancer-related clinical, research and educational efforts at Rush, crossing 20 departments, divisions and sections; inpatient and outpatient areas; professional clinical activities; and the colleges of Rush University. Faculty participate in teaching and mentoring residents, fellows and postdoctoral candidates.

Interested candidates, please address your CV and cover letter to:
Timothy M. Kuzel MD, FACP, Chief, Division of Hematology, Oncology and Cell Therapy and Professor of Medicine, Rush University Medical Center and send via email to Rose Sprinkle, Manager, Faculty Recruitment, at Rose_Sprinkle@rush.edu

Benign Hematology, Yale Cancer Center
Assistant Professor

Faculty Position, Yale Cancer Center, Yale School of Medicine. The Yale Cancer Center and Department of Medicine (Hematology) invite applications for the position in benign hematology at Yale. The incumbent should be a physician-scientist / clinical researcher or clinician with a record of scholarly achievement consistent with the level of Assistant Professor at Yale School of Medicine. Of particular importance is a track record of regional/national standing and major contributions to research and/or clinical care in non-malignant hematology. Yale values diversity in its faculty, students, and staff and strongly encourages applications from women, members of minority groups, persons with disabilities, and protected veterans. Review of applications will begin immediately and continue until the position is filled. All application materials, including your CV and a letter describing qualifications, should be submitted electronically to: http://apply.interfolio.com/47406

Yale University School of Medicine is an Equal Opportunity/Affirmative Action Employer.

The Department of Medicine's Division of Hematology/Oncology at the University of Virginia is seeking candidates for Open Rank (Assistant, Associate or Professor) clinical faculty position with a specialty focus on Hematologic Malignancies. Rank and track is dependent upon qualifications.

Candidates must have a M.D. or equivalent, be board-certified in Internal Medicine, and be Board-Eligible or Board-Certified in Hematology by appointment start date. Expertise in the care of patients with malignant hematologic diseases is required.

The incumbent will develop independent clinical trial programs utilizing the excellent translational research opportunities and resources available at the University. Additionally, the incumbent will attend inpatient and outpatient services and participate in multidisciplinary team care and clinical research within the Cancer Center. As an integral part of the educational mission, the incumbent will actively participate in the teaching of fellows, residents and medical students.

Position will remain open until filled.

The University of Virginia, Department of Medicine's Division of Hematology/Oncology as well as the School of Medicine, Cancer Center and Medical Center (Magnet-designated) are ranked among the best in the U.S. and offer a very collegial environment in a beautiful University town. Charlottesville, located at the foothills of the Blue Ridge Mountains, is ranked as one of the best places to live in the United States by Money Magazine and USA Today.

To apply, visit https://jobs.virginia.edu and search on Posting Number 0621789. Complete a Candidate Profile online, attach a cover letter, curriculum vitae, letter of research interest, and contact information for three references.

For additional information about the position, please contact Karen K. Ballen, M.D., Section Chief for Hematologic Malignancies and Stem Cell Transplant, Division of Hematology/Oncology, via email at kb3tc@virginia.edu or telephone: 434-297-5026.

For further information regarding the application process, please contact Sally Jackson, sj7g@virginia.edu or 434-982-6513.

The University of Virginia is an equal opportunity and affirmative action employer. Women, minorities, veterans, and persons with disabilities are encouraged to apply.
