

Memorial Sloan Kettering
Cancer Center

Faculty position – Myeloma Service

Division of Hematologic Malignancies, Department of Medicine

Memorial Sloan Kettering Cancer Center (MSK) is one of the world's premier cancer centers, committed to exceptional patient care, leading-edge research, and superb educational programs. The blending of research with patient care is at the heart of everything we do. The institution is a comprehensive cancer center whose purposes are the treatment and control of cancer, the advancement of biomedical knowledge through laboratory and clinical research, and the training of scientists, physicians and other health care workers.

The Myeloma Service in the Division of Hematologic Malignancies, Department of Medicine, is seeking a full-time faculty member who specializes in the treatment of myeloma. The focus is in clinical care and management of patients as well as building the translational research program within the Service, particularly drug development integrated with correlative science. Additionally, the ideal candidate would contribute to the further to development and implementation of advanced minimal residual disease (MRD) testing and/or single cell genomic profiling in clinical trials at MSK.

The ideal candidate will have:

- experience in the care of patients diagnosed with myeloma
- completed a fellowship and be either board-eligible or board certified in Medical Oncology
- requirements for licensure in New York and New Jersey
- track record of peer reviewed original publications in hematologic malignancies
- MD/PhD preferred

Please send CV, bibliography, brief statement of interests, and names of 3 references via email to:

C. Ola Landgren, MD, PhD,
Chief Attending, Myeloma Service,
1275 York Avenue,
New York, NY 10065
