Senior Scientist Sickle-Cell Disease Research Vienna (m/f)

Newly combined with Baxalta, Shire is now the leading global biotechnology company focused on serving people affected by rare diseases and highly specialized conditions. Our 22,000 employees come to work every day with a shared mission: to develop and deliver breakthrough therapies for the hundreds of millions of people in the world affected by rare diseases and other high-need conditions, and who lack effective therapies to live their lives to the fullest. Company Insights: https://youtu.be/ly_8oO-iJeU.

The field of responsibilities embraces

- Providing technical and scientific expertise for identification of new and innovative drug candidates in the field of sickle-cell disease
- Development of innovative approaches to solve technical challenges and answer complex scientific questions
- Direction of scientific and analytical project activities including method development and testing of investigational samples
- Planning and coordination of scientific projects with internal and external partners, including monitoring project timelines, cost and milestones to meet business needs
- Building up and management of cross-functional research teams
- In-depth data analysis and critical interpretation of research results in alignment with entire project activities
- Presentation of project results internally and externally
- Preparation and review of study protocols, reports, regulatory documents and scientific communication
- Assessment of business opportunities and studies

Key qualifications and competences

- PhD or MD in life sciences, Biochemistry, Biotechnology, Molecular Biology or equivalent
- Minimum 3 to 5 years of experience in industry or academia after completion of PhD/MD
- Track record of expert knowledge and acknowledged hands-on experience in sickle-cell disease area is a must
- Extensive knowledge in biochemistry
- Knowledge of hematology, immunology and cell biology
- Common techniques in protein biochemistry and molecular and cell biology
- Technical experience in coagulation analytics of advantage
- Excellent communication, presentation and organizational skills
- Ability to work in interdisciplinary teams; strong team player
- Fluency in spoken and written English
- Critical thinking and passion for innovation

Your application should include CV and motivation letter. Remuneration corresponds to the respective classification according to the collective agreement. The minimum salary for this position is € 4000,00 gross per month (full-time), increased payment is possible. In addition we offer many social benefits (e.g. canteen, wellness-center, company kindergarten) to mention just a few of them. We offer outstanding opportunities to committed and talented people. Sex, age, color of skin, origin, ethnicity, sexual orientation as well as a physical handicap do not matter to us. On the contrary: We promote diversity in every field.

Department of Pediatrics
Division of Stem Cell Transplantation and Regenerative Medicine

The Division of Stem Cell Transplantation and Regenerative Medicine is seeking an outstanding faculty candidate in the Clinician Educator Line (CE), who has considerable expertise in the Pediatric Hematopoietic Stem Cell Transplantation. The Pediatric Hematopoietic Stem Cell Transplantation Program at Stanford is rapidly growing with considerable support from Stanford Children’s Hospital (previously known as Lucile Packard Children’s Hospital). The physician will be expected to provide excellent clinical care for the patients of the Hematopoietic Stem Cell Transplantation Program, engage in clinical research, and participate in multi-institutional clinical trials. Existing clinical trials include studies on hematopoietic stem cell transplantation for leukemia, hemoglobinopathies, disorders of immune regulation/function, and metabolic diseases. The Division is actively investigating cellular and gene therapies in new investigational clinical trials utilizing products produced by the newly opened 25,000 sq. ft. GMP Laboratory. The position will also include teaching residents, fellows, and hospitalists in the program. He or she will interact with other programs at Stanford including, but not limited to, the Adult Bone Marrow Transplant Program, Cancer Center, and Stanford Stem Cell Institute and Stanford Immunology Institute.

The major criterion for appointment, reappointment, and promotion is excellence in the overall performance of clinical care and teaching appropriate to the programmatic needs that the individual fulfills. If the candidate has active scholarly activity or fulfills an administrative role, these factors may also be taken into consideration when evaluating excellence.

The successful candidate will be appointed as a Clinical Assistant Professor or Clinical Associate Professor in the Department of Pediatrics at Stanford University Medical School. Rank and salary will be commensurate with qualifications and experience.

Applications are being accepted now and the review process will begin immediately. Interested candidates should send a copy of a cover letter and curriculum vitae to:

Dr. Rajni Agarwal-Hashmi via email at:
rajnia@stanford.edu

Rajni Agarwal-Hashmi, MD Associate Professor of Pediatrics
Section Chief, Pediatric Stem Cell Transplantation and Regenerative Medicine

Maria Grazia Roncarolo, MD George D. Smith Professor
Division Chief, Pediatric Stem Cell Transplantation and Regenerative Medicine Co-Director, Institute for Stem Cell Biology and Regenerative Medicine
Co-Director, Bass Center for Childhood Cancer and Blood Diseases Department of Pediatrics
Stanford University
Memorial Sloan Kettering Cancer Center (MSK) is currently seeking a service chief of international stature to lead the Stem Cell Transplantation and Cellular Therapies service in the Department of Pediatrics. The ideal candidate must have a vision that builds upon a long tradition of innovation and excellence to further improve outcomes for children undergoing these therapeutic approaches. Successful applicants will have a demonstrated record of clinical excellence and expertise in translational and clinical research. The Chief will also work closely with members of other departments, services and centers to foster a culture of outstanding patient-centered care.

Candidates must have a strong record of achievement as a physician and/or clinician-investigator in the field of Pediatric Hematology-Oncology and must possess an MD, board certification in Pediatric Hematology-Oncology, and eligibility for medical licensure in New York State. Applicants should be experienced in investigator-initiated clinical trials, in mentoring junior faculty, and have a demonstrated record of academic accomplishment, including relevant, peer-reviewed publications, external funding and/or strong potential to establish an independent line of research. The candidate must have internationally recognized expertise in stem cell transplantation and/or cell-based therapies (CTL, CART). The successful candidate should have a vision about how to leverage areas of existing strength at MSK (genomics, cellular therapies, immuno-oncology, developmental therapeutics) and new recruitments that will empower innovations for patients requiring treatment with transplantation or cellular therapies. The Chief will work closely with the Chair as part of the departmental leadership team.

This full-time position provides a unique opportunity for a blend of leadership, patient care, teaching/fellowship training, research, and program development. This search is open to potential faculty at all senior levels of career experience. Appointments will be made at an academic level commensurate with the appointee’s experience. A parallel appointment as Associate Professor or Professor of Pediatrics at the Weill Cornell Medical College will be available. All qualified individuals are encouraged to apply. For further information, or to apply, please send a letter of interest and CV.

Please forward letter of interest and curriculum vitae to:
Andrew L. Kung, MD, PhD
Chairman, Department of Pediatrics
c/o Christina Rinaldi
