Department of Pediatrics  
Division of Stem Cell Transplantation and Regenerative Medicine

The Division of Stem Cell Transplantation and Regenerative Medicine is seeking an outstanding faculty candidate in the Clinician Educator Line (CE), who has considerable expertise in the Pediatric Hematopoietic Stem Cell Transplantation. The Pediatric Hematopoietic Stem Cell Transplantation Program at Stanford is rapidly growing with considerable support from Stanford Children’s Hospital (previously known as Lucile Packard Children’s Hospital). The physician will be expected to provide excellent clinical care for the patients of the Hematopoietic Stem Cell Transplantation Program, engage in clinical research, and participate in multi-institutional clinical trials. Existing clinical trials include studies on hematopoietic stem cell transplantation for leukemia, hemoglobinopathies, disorders of immune regulation/function, and metabolic diseases. The Division is actively investigating cellular and gene therapies in new investigational clinical trials utilizing products produced by the newly opened 25,000 sq. ft. GMP Laboratory. The position will also include teaching residents, fellows, and hospitalists in the program. He or she will interact with other programs at Stanford including, but not limited to, the Adult Bone Marrow Transplant Program, Cancer Center, and Stanford Stem Cell Institute and Stanford Immunology Institute.

The major criterion for appointment, reappointment, and promotion is excellence in the overall performance of clinical care and teaching appropriate to the programmatic needs that the individual fulfills. If the candidate has active scholarly activity or fulfills an administrative role, these factors may also be taken into consideration when evaluating excellence.

The successful candidate will be appointed as a Clinical Assistant Professor or Clinical Associate Professor in the Department of Pediatrics at Stanford University Medical School. Rank and salary will be commensurate with qualifications and experience.

Applications are being accepted now and the review process will begin immediately. Interested candidates should send a copy of a cover letter and curriculum vitae to:

Dr. Rajni Agarwal-Hashmi via email rajnia@stanford.edu

Rajni Agarwal-Hashmi, MD Associate Professor of Pediatrics  
Section Chief, Pediatric Stem Cell Transplantation and Regenerative Medicine

Maria Grazia Roncarolo, MD George D. Smith Professor  
Division Chief, Pediatric Stem Cell Transplantation and Regenerative Medicine Co-Director, Institute for Stem Cell Biology and Regenerative Medicine  
Co-Director, Bass Center for Childhood Cancer and Blood Diseases  
Department of Pediatrics  
Stanford University

CLINICAL ACADEMIC HEMATOLOGIST/ONCOLOGIST

The Department of Internal Medicine at East Tennessee State University’s Quillen College of Medicine seeks candidates who are BC/BE (at time of hire) for an Assistant/Associate Professor clinician educator in Hematology/Oncology.

Activities consist of clinical care in both outpatient and inpatient settings in addition to the teaching and supervision of medical oncology fellows, internal medicine residents and medical students. Faculty candidates should have a commitment to promote education and pursue continuous personal scholarship. Those with an interest in oncology clinical trials are also encouraged to apply. Salary and academic rank commensurate with experience and academic record.

ETSU is located in the beautiful foothills of the Appalachian Mountains in a progressive town of more than 65,000 that draws from a population of over 500,000. The area offers award-winning public school systems, no state income tax and a family friendly environment for the outdoor enthusiast.

THE UNIVERSITY OF TENNESSEE HEALTH SCIENCE CENTER  
DEPARTMENT OF MEDICINE  
DIVISION OF HEMATOLOGY-ONCOLOGY

is seeking an Internal Medicine and Hematology boarded physician with a strong interest in hemophilia.

Rank commensurate with education.

Please send letter of interest and CV to:  
Guy L. Reed, M.D  
Chair, Department of Medicine  
956 Court, Room D334  
Memphis, Tennessee 38163

The University of Tennessee is an EEO/AA/Title VI/Title IX Section 504/ADA/ADEA institution in the provision of its education and employment programs and services.
Memorial Sloan Kettering Cancer Center (MSK) is currently seeking a service chief of international stature to lead the Stem Cell Transplantation and Cellular Therapies service in the Department of Pediatrics. The ideal candidate must have a vision that builds upon a long tradition of innovation and excellence to further improve outcomes for children undergoing these therapeutic approaches. Successful applicants will have a demonstrated record of clinical excellence and expertise in translational and clinical research. The Chief will also work closely with members of other departments, services and centers to foster a culture of outstanding patient-centered care.

Candidates must have a strong record of achievement as a physician and/or clinician-investigator in the field of Pediatric Hematology-Oncology and must possess an MD, board certification in Pediatric Hematology-Oncology, and eligibility for medical licensure in New York State. Applicants should be experienced in investigator-initiated clinical trials, in mentoring junior faculty, and have a demonstrated record of academic accomplishment, including relevant, peer-reviewed publications, external funding and/or strong potential to establish an independent line of research. The candidate must have internationally recognized expertise in stem cell transplantation and/or cell-based therapies (CTL, CART). The successful candidate should have a vision about how to leverage areas of existing strength at MSK (genomics, cellular therapies, immuno-oncology, developmental therapeutics) and new recruitments that will empower innovations for patients requiring treatment with transplantation or cellular therapies. The Chief will work closely with the Chair as part of the departmental leadership team.

This full-time position provides a unique opportunity for a blend of leadership, patient care, teaching/fellowship training, research, and program development. This search is open to potential faculty at all senior levels of career experience. Appointments will be made at an academic level commensurate with the appointee’s experience. A parallel appointment as Associate Professor or Professor of Pediatrics at the Weill Cornell Medical College will be available. All qualified individuals are encouraged to apply. For further information, or to apply, please send a letter of interest and CV.

Please forward letter of interest and curriculum vitae to:

Andrew L. Kung, MD, PhD
Chairman, Department of Pediatrics
