Leukemia Laboratory Investigator
Division of Hematologic Neoplasia

The Department of Medical Oncology at the Dana-Farber Cancer Institute and the Department of Medicine at Brigham and Women’s Hospital announce a search for a leukemia laboratory investigator at the Assistant or Associate Professor level to join the Division of Hematologic Neoplasia. The investigator will be a member of the newly formed Dana-Farber / Brigham and Women’s Leukemia Research Center. Appointment and compensation will be commensurate with experience and institutional policies.

The successful candidate will develop an independent, disease-based laboratory program focused on myeloid malignancies. Areas of particular interest include the development of preclinical models of myeloid malignancy and the basic biology of disease-associated genetic lesions. The candidate must have an MD and/or PhD and a proven track record of outstanding laboratory research and teaching ability. The successful candidate will also engage in teaching students and fellows in the laboratory setting.

Interested candidates must submit a curriculum vitae, a research plan and three letters of reference to: Margaret Shipp, MD, Dana-Farber Cancer Institute, Mayer 513, 450 Brookline Avenue, Boston, MA 02215. Please send submissions via email to Lindy Boyne: lindy.boyne@dfci.harvard.edu before December 15, 2017.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.
