Program Leader- Lymphoma
Associate and/or Professor
Faculty Position, Yale Cancer Center, Yale School of Medicine

The Yale Cancer Center and Section of Hematology invite applications from board-certified/board eligible hematologists or medical oncologists for a leader of the lymphoma program. Applicants with strong record of research productivity in lymphoma and vision to build a high impact clinical and translational research program will be competitive. Appointment will be at the levels of Associate Professor or Professor at the Yale Medical School. Experience in clinical care of patients with lymphoid malignancies and strong interest in the development of novel therapies for lymphoma are particularly important. Emphasis is placed on the ability to foster interaction between laboratory and clinical investigators, lead clinical trial teams and conduct high impact clinical translational research. This position involves clinical care and clinical research activities as well as expectations for participating in the teaching mission of the institution. Yale values diversity in its faculty, students, and staff and strongly encourages applications from women, members of minority groups, persons with disabilities, and protected veterans.

Review of applications will begin immediately and continue until the position is filled. All application materials, including your CV and a letter describing qualifications, should be submitted electronically to: https://apply.interfolio.com/42982

Yale University School of Medicine is an Equal Opportunity/Affirmative Action Employer.
